

Boatswain S Mate Study Guide

The Rough Guide to Classical Music is the ideal handbook, spanning a thousand years of music from Gregorian chant via Bach and Beethoven to contemporaries such as Thomas Adès and Kaija Saariaho. Both a CD buyer's guide and a who's who, the guide includes concise biographical profiles of more than 200 composers and informative summaries of the major compositions in all genres, from chamber works to operatic epics. For novices and experts alike, the fully updated fifth edition features contemporary composer Helmut Lachenmann and Widor, the 19th century organ composer of 'Toccatà' wedding fame, as well as dozens more works added for existing composers. You'll find an new 'Top 10's' section with accessible introductory listings including the Top 10 operas and the Top 10 symphonies plus new essay boxes on topics such as "Baroque - a style or a period?" and "The clarinet comes of age". The Rough Guide to Classical Music features fresh and incisive reviews of hundreds of CDs, selecting the very best of the latest recordings and reissues as well as more than 150 illustrations of composers and performers, including a rare archive of photos.

The 1984 Guide to the Evaluation of Educational Experiences in the Armed Services Golden Rule Management Give Respect, Get Results Perseus Books

A Brief Guide to Maritime Strategy is a deliberately compact introductory work aimed at junior seafarers, those who make decisions affecting the sea services, and those who educate seafarers and decision-makers. It introduces readers to the main theoretical ideas that shape how statesmen and commanders make and execute maritime strategy in times of peace and war. Following in the spirit of Bernard Brodie's Layman's Guide to Naval Strategy, a World War II-era book whose title makes its purpose plain, it will be a companion volume to such works as Geoffrey Till's Seapower and Wayne Hughes's Fleet Tactics and Coastal Combat, the classic treatise that explains how to handle navies in fleet actions. It takes the mystery out of maritime strategy, which should not be an arcane art for practitioners or policy-makers, and will help the next generation think about strategy.

Managers learn how to boost productivity without the frustration of "selling" upper management on any expensive programs, training, seminars, or equipment.
