A skeletal arm protruding from the rubble of a seventy-year old building jump starts a case for LAPD detective Van Taylor. A bullet hole in the skull of the remains puts Van's retirement plans on hold. Under the skeleton is a weathered wooden box. A brass plaque on the box bears the name Artimus Design. Van and his wife, Kathy, both avid vintage auto-racing fans, recognize the Artimus name as a famous racecar manufacturer. Van eagerly delves into the investigation unaware of the dangerous path he and Kathy will face. As Van explores the fascinating world of early American racing he finds that Artimus, the genius behind the fastest racing cars of the 1920s and 30s, was duped into designing a radical racing car and creating a box with a secret that could help the German war effort. When he is brutally attacked by a drug-crazed gang, he realizes there is more to the mystery than he thought. The investigation leads Van to present day murder, greed, and betrayal. When his wife is kidnapped and held hostage in exchange for the box, Van is pushed to the limit. Buckle your seat belt as Van races to save his wife and solve the seventy-year old mystery.

This volume documents exhaustively for the first time Edmond Charles Genet's dramatic challenges to American neutrality and Jefferson's diplomatic and political responses. After welcoming Genet's arrival as the harbinger of closer relations between the American and French republics, Jefferson becomes increasingly distressed by the French minister's defiance of the Washington administration's ban on the outfitting of French privateers in American ports, the enlistment of American citizens in French service, and the exercise of admiralty jurisdiction by French consuls in American ports. Although the Supreme Court declines to advise the executive branch on neutrality questions that Jefferson prepares with the President and the Cabinet, he helps to formulate a set of neutrality rules to meet Genet's challenge. Unable to convince the impetuous French envoy to adopt a more moderate course, Jefferson works in the Cabinet to bring about Genet's recall so as to preserve friendly relations with France and minimize political damage to the Republican party, in which he takes a more active role to prevent the Federalists from capitalizing on Genet's defiance of the President. Grappling with the threat of war with Spain, Jefferson involves himself equivocally in a diplomatically explosive plan by Genet to liberate Louisiana from Spanish rule. In this volume Jefferson also plays a decisive role in resolving a dispute over the design of the Capitol and plans agricultural improvements at Monticello in preparation for his retirement to private life.
