*Violet Oranges in Twilight* is a gripping memoir. It is an intersect narrative of fiction and non-fiction; a fun-packed memoir of the 1980's primary and secondary school days of a middle-class Nigerian girl and her friends. It is a subtle tale of the challenges encountered by the students; salient issues in teaching and learning, reflection on experience as well as the hidden curricula that facilitated the development of the pupils and students during their initial formative years. Through stories of school and family events, the challenges of school and family relationships, career choices, socialization and aspirations were pertinently explored. The style of writing is simple and yet intense with the language that is formal and intermittently laced with humour, presenting majorly the perspective of the learners that are within an

educational system that focuses rather on the facilitators of learning.

Much of the criticism on Stephenie Meyer's immensely popular 'Twilight' novels has underrated or even disparaged the books while belittling the questionable taste of an audience that many believe is being inculcated with anti-feminist values. Avoiding a repetition of such reductive critiques of the series's purported shortcomings with respect to literary merit and political correctness, this volume adopts a cultural studies framework to explore the range of scholarly concerns awakened by the 'Twilight novels and their filmic adaptations. Contributors examine 'Twilight's debts to its predecessors in young adult, vampire, and romance literature; the problems of cinematic adaptation; issues in fan and critical reception in the United States and Korea; and the relationship between the series and contemporary conceptualizations of feminism, particularly girl culture. Placing the series within a broad tradition of literary history, reception studies, and filmic adaptation, the collection offers scholars the opportunity to engage with the books' importance for studies of popular culture, gender, and young adult literature.
