Two seemingly unrelated incidents occur in widely separated cities. Marlene Spencer is injected with a mysterious drug and erroneously pronounced dead. Joel Kramer, a Nazi war criminal hunter based in Los Angeles, learns an ex-Nazi officer has been murdered by mutilation in Switzerland. The alleged killer is Pelagia Espinosa, widow of a Buenos Aires millionaire. Joel leaves for South America to learn more. Severely beaten during his stay, he can only conclude Pelagia was responsible. However, she arrives at the hospital during the night to spirit him away to her home where she relives the tortuous years she spent in Auschwitz as a Polish dissident. Joel tells her of his futile search for a man known as the Courier. To his surprise, Pelagia remembers a courier who visited Auschwitz frequently, meeting only with Dr. Karl Risch who conducted experiments at the dreaded camp. It was reported he committed suicide as the Russians arrived at the gates. The Courier was Marlene Spencer's father, Kurt Trager. Karl Risch is alive, working with billionaire Regnier Aust to rid the world of genetically defective humans and Pelagia must complete the love/hate circle that began in a concentration camp in Poland.

Out of the Crazywoods is the riveting and insightful story of Abenaki poet Cheryl Savageau's late-life diagnosis of bipolar disorder. Without sensationalizing, she takes the reader inside the experience of a rapid-cycling variant of the disorder, providing a lens through which to understand it and a road map for navigating the illness. The structure of her story—impressionistic, fragmented—is an embodiment of the bipolar experience and a way of perceiving the world. Out of the Crazywoods takes the reader into the euphoria of mania as well as its ugly, agitated rage and into “the lying down of desire” that is depression. Savageau articulates the joy of being consort to a god and the terror of being chased by witchcraft, the sound of voices that are always chattering in your head, the smell of wet ashes that invades your home, the perception that people are moving in slow motion and death lurks at every turnpike, and the feeling of being loved by the universe and despised by everyone you've ever known. Central to the journey out of the Crazywoods is the sensitive child who becomes a poet and writer who finds clarity in her art and a reason to heal in her grandchildren. Her journey reveals the stigma and the social, personal, and economic consequences of the illness but reminds us that the disease is not the person. Grounded in Abenaki culture, Savageau questions cultural definitions of madness and charts a path to recovery through a combination of medications, psychotherapy, and ceremony.

A Pulitzer Prize-winning, #1 New York Times bestseller, Angela's Ashes is Frank McCourt's masterful memoir of his childhood in Ireland. “When I look back on my childhood I wonder how I managed to survive at all. It was, of course, a miserable childhood: the happy childhood is hardly worth your while. Worse than the ordinary miserable childhood is the miserable Irish childhood, and worse yet is the miserable Irish Catholic childhood.” So begins the luminous memoir of Frank McCourt, born in Depression-era Brooklyn to recent Irish immigrants and raised

in the slums of Limerick, Ireland. Frank's mother, Angela, has no money to feed the children since Frank's father, Malachy, rarely works, and when he does he drinks his wages. Yet Malachy—exasperating, irresponsible, and beguiling—does nurture in Frank an appetite for the one thing he can provide: a story. Frank lives for his father's tales of Cuchulain, who saved Ireland, and of the Angel on the Seventh Step, who brings his mother babies. Perhaps it is story that accounts for Frank's survival. Wearing rags for diapers, begging a pig's head for Christmas dinner and gathering coal from the roadside to light a fire, Frank endures poverty, near-starvation and the casual cruelty of relatives and neighbors—yet lives to tell his tale with eloquence, exuberance, and remarkable forgiveness. Angela's Ashes, imbued on every page with Frank McCourt's astounding humor and compassion, is a glorious book that bears all the marks of a classic.

Journey through Dr. Rilly Ray Rajkumar's biographical account of the life of a young woman named Rilly, born in Darjeeling, India, and raised in a Bengali home during the 1940s. She watched her mother, a previously docile, fearful woman, overcome her fear, convincing her husband that the family needed to migrate to Malaya for the sake of their children. This work tells of Rilly's persistence and dedication in pursuing an education, becoming a medical doctor like her father, all the while fighting against the suppression of women, cultural traditions such as arranged marriages, and the freedom of religious choice. And, like mother, like daughter, this requires another move to Singapore. To quote the author, "I realized that the pains my mother went through in her life urged me to write this book. I wanted the world to know what a simple woman can achieve by her sacrifices."

This story depicts a biker and his experiences of becoming involved with people in a small Oklahoma community in the

mid-eighties. Set in a time before the custom-bike craze with its TV shows and celebrity riders, this tale tries to present real situations because they are based on things that either happened to me or around me (or I just made up a good lie). This man, injured in the Vietnam War, medically discharged, having to relearn to walk and being labeled an outsider upon his return, becomes involved with a violent streetwise motorcycle gang and their drug- and alcohol-induced law-breaking ways. Becoming unhappy with the hard-core biker lifestyle he is living in California, he is miraculously freed from his club ties and takes on a new identity. With help from other helpful nonpatched bikers, bound only by their love of the freedom of the road, he works his way across the western states, doing heavy equipment work, winding up in the little town of Stigler, Oklahoma. There he meets various characters who make his life interesting. He befriends an old rancher with a secret and eventually goes to a bike rally near Wilburton, Oklahoma, where he meets and falls in love with a redhead who also has a biker-related past. Together, they forge a life involving motorcycles, a local bar and its denizens, fellow construction workers, the local law, run-ins with a former gang member, and help to make an old man's dreams come true.

Translation of Vergil with comparison to English poets.

In November 2010, Andrew Strauss faced the ultimate challenge for an England cricket captain: winning the Ashes on Australian soil, a feat that had not been achieved for 24 years. By the end of a series that gripped the nation, he had led his team to an overwhelming victory - inflicting an unprecedented three innings defeats on the old enemy. *Winning the Ashes Down Under* is the captain's story of a tour that exceeded all expectations. It not only reveals what went on behind the scenes as Andrew Strauss and coach Andy Flower put together their team of winners, but also paints a very personal picture of day-to-day life on tour. It is an inspiring tale of how hostile conditions, injury and intimidating reputations were overcome by leadership, planning, a slice of good fortune - and extraordinary performances from the likes of Alastair Cook and Jonathan Trott with the bat, and James Anderson and Chris Tremlett with the ball. Ranging from reverse swing to the sprinkler dance, from referrals to sledging, from despair at Perth to triumph at Sydney, this is the definitive account of a series that will live long in the memory.

In Indigenous North American film Native Americans tell their own stories and thereby challenge a range of political and historical contradictions, including egregious misrepresentations by Hollywood. Although Indians in film have long been studied, especially as characters in Hollywood westerns, Indian film itself has received relatively little scholarly attention. In *Imagic Moments* Lee Schweningen offers a much-needed corrective, examining films in which the major inspiration, the source material, and the acting are essentially Native. Schweningen looks at a selection of mostly narrative fiction films from the United States and Canada and places them in historical and generic contexts. Exploring films such as *Powwow Highway*, *Smoke Signals*, and *Skins*, he argues that in and of themselves these films constitute and in fact emphatically demonstrate forms of resistance and stories of survival as they talk back to Hollywood. Self-representation itself can be seen as a valid form of resistance and as an aspect of a cinema of sovereignty in which the Indigenous peoples represented are the same people who engage in the filming and who control the camera. Despite their low budgets and often nonprofessional acting, Indigenous films succeed in being all the more engaging in their own right and are indicative of the complexity, vibrancy, and survival of myriad contemporary Native cultures.

Draws on interviews with veterans and new primary sources to present a narrative account of the pivotal World War II campaign, chronicling the three-month effort to gain control of Guadalcanal as a battle that taught the U.S. Navy and Marines new approaches to warfare.

These forty-eight biographies by the ancient Greek scholar demonstrate the parallel lives of famous rulers such as Alexander the Great and Julius Caesar. A Greek priest of Delphi who acquired Roman citizenship later in life, Plutarch undertook his *Lives of the Noble Greeks and Romans* to demonstrate the influence of character on the fates of famous men. He also wished to show that the legacy and achievements of his native Greece were no less impressive than those of Rome. Today, the surviving text represents a treasure trove of information and insights into some of the ancient world's most significant personalities. A major source of material for William Shakespeare's history plays, Plutarch's *Lives* draws parallels between Pericles and Fabius Maximus, Alcibiades and Coriolanus, Lysander and Sulla, Demetrius and Mark Antony,; among many others.

Daniel McCool not only chronicles the history of water development agencies in America and the way in which special interests have abused rather than preserved the country's rivers, he also narrates the second, brighter act in this ongoing story: the surging, grassroots movement to bring these rivers back to life and ensure they remain pristine for future generations. The culmination of ten years of research and observation, McCool's book confirms the surprising news that America's rivers are indeed returning to a healthier, free-flowing condition. The politics of river restoration demonstrates how strong grassroots movements can challenge entrenched powers and win. Through passion and dedication, ordinary people are reclaiming the American landscape, forming a "river republic" of concerned citizens from all backgrounds and sectors of society. As McCool shows, the history, culture, and fate of America is tied to its rivers, and their restoration is a microcosm mirroring American beliefs, livelihoods, and an increasing awareness of what two hundred years of environmental degradation can do.

McCool profiles the individuals he calls "instigators," who initiated the fight for these waterways and, despite enormous odds, have succeeded in the near-impossible task of challenging and changing the status quo. Part I of the volume recounts the history of America's relationship to its rivers; part II describes how and why Americans "parted" them out, destroying their essence and diminishing their value; and part III shows how society can live in harmony with its waterways while restoring their well-being—and, by extension, the well-being of those who depend on them.

While white racism has global dimensions, it has an unshakeable lease on life in South African political organizations and its educational system. Donnarae MacCann and Yulisa Maddy here provide a thorough and provocative analysis of South African children's literature during the key decade around Nelson Mandela's release from prison. Their research demonstrates that the literature of this period was derived from the same milieu -- intellectual, educational, religious, political, and economic -- that brought white supremacy to South Africa during colonial times. This volume is a signal contribution to the study of children's literature and its relation to racism and social conditions.

With its focus on 'reasoning through imagery' this book applies aspects of cognitive psychology to a study of key tragic props in order to draw connections between visual imagery and the spectators' intellectual experience of ancient Greek tragedy.
