

# Business Ethics Questions And Answers

A growing number of higher education institutions in Asia are now integrating ethics courses in their curricula. But the challenge remains to develop courses that can effectively reach their objectives, and to create and use teaching materials appropriate to the particular profile of the students and executives in different regions and cultures. In this context, enhancing awareness for ethical dilemmas, proposing frameworks and models to help managers handle difficult choices and demanding decisions - while not being moralistic and imposing values - , and presenting alternative approaches through recent and relevant cases are the main objectives of this book. It examines teaching methods, learning tools and pedagogical methods effective in the teaching of ethics within the particular context of the rich diversity of Asian cultures, and discusses ethics courses curricula, aiming at developing the capacity to deal with a number of issues such as corruption, intellectual property protection, whistle blowing and consumer rights. The relevance and limits of Asian philosophical and spiritual traditions and how their underlying values can be a meaningful aspect in the teaching of ethics to managers and business leaders are explored, as are the benefits and limits of corporate codes of conduct and ways to enhance their effectiveness. A similar approach is taken to the introduction of “oaths” and “ethics pledges” among business students, which has been promoted in some business schools.

This work provides a critical look at business practice in the early 21st century and suggests changes that are both practical and normatively superior. Several chapters present a reflection on business ethics from a societal or macro-organizational point of view. It makes a case for

## Download Ebook Business Ethics Questions And Answers

the economic and moral superiority of the sustainability capitalism of the European Union over the finance-based model of the United States. Most major themes in business ethics are covered and some new ones are introduced, including the topic of the right way to teach business ethics. The general approach adopted in this volume is Kantian. Alternative approaches are critically evaluated.

Filled with real-world case studies and examples of ethical dilemmas, *Understanding Business Ethics, Third Edition* prepares students and managers alike to make ethical decisions in today's complex, global environment. Bestselling authors Peter A. Stanwick and Sarah D. Stanwick explain the fundamental importance of ethical leadership, decision making, and strategic planning while examining emerging trends in business ethics such as the developing world, human rights, environmental sustainability, and technology. In addition to presenting information related to the Association to Advance Collegiate Schools of Business (AACSB), the text's 26 real-world cases profile a variety of industries, countries, and ethical issues in a way that is relevant and meaningful to students' lives. The Third Edition features new cases from well-known companies such as Disney and General Motors, new coverage of emerging topics such as big data and social media, expanded coverage of corporate social responsibility, and more. Using an applied approach, this text helps students understand why and how business ethics really do matter!

This book addresses an essential need felt by many who seek to promote best business practices in China and East Asia – namely the need for culturally appropriate instructional materials (basic information, case studies and ethical perspectives) that will allow managers and entrepreneurs to understand and embrace the challenge of moral leadership in business.

## Download Ebook Business Ethics Questions And Answers

In an era characterized by globalization and the increasing importance of the economies of China, India, Japan and SE Asia, international business ethics must reflect the concerns of the people living and working in this area, the moral and spiritual traditions that have nurtured them and their specific contributions to sustainable development. This book presents twenty important case studies, taken from newsworthy events of the past few years, in which Asians and others have attempted to respond to this challenge. Each case study has been selected and shaped in order to highlight various aspects of doing business in Asia, starting with basic principles and moving on to the specific responsibilities that businesses have towards their various stakeholders. The authors contend that the best way to appreciate the relevance of Asian moral and spiritual traditions is to determine their specific contribution to virtue ethics, where the ancient traditions of both East and West converge in their focus on the qualities of moral leadership that form the basis of best business practice. Exploring the case studies will enable readers to appreciate the continued relevance of these ethical perspectives in Asian business. Best business practice clearly involves learning to do business and playing the game according to the rules; but the necessity of playing by the rules is not likely to become clear until one takes up the path that leads to a virtuous life in business, developing a moral character chiefly based on integrity.

The Oxford Handbook of Business Ethics is a comprehensive treatment of the field of business ethics as seen from a philosophical approach. The volume consists of 24 essays that survey the field of business ethics in a broad and accessible manner, covering all major topics about the relationship between ethical theory and business ethics.

With recent changes in technology, media, and the communication landscape, the journey to ethics has become more complicated than ever before. This book aims to answer ethical questions, from applying ethics and sound judgment through your organization and communication channels to taking your ethics and values into every media interview. With the understanding of how personal and professional ethics align, business leaders, managers, and students will maneuver their way around this new landscape showcasing their values in ethical

## Download Ebook Business Ethics Questions And Answers

conduct. This book is divided into eight important areas based on where and why a breakdown in ethical behavior is likely to occur, and delivers advice from experts on the frontlines of business communications who know what it means to face the inherent changes and challenges in this field. With more than 80 questions and answers focused on guiding marketing, PR and business professionals, readers will uncover situations where ethics are challenged, and their values will be tested. This straightforward Q&A guidebook is for professionals who realize ethics are a crucial part of decision-making in their communications and who want to maintain trust with the public and their positive brand reputations in business. Readers will receive answers to pressing ethical questions to help them apply best practice guidelines and good judgment in their own situations, based on the stories, theories, and practical instruction from the author's 30 years of experience as well as the thought leaders featured in this book.

The 46 original case studies featured in this book demonstrate that in many business sectors, local people and foreigners are responding to the challenges of achieving business success while competing with integrity. Cases are divided into eight sub-topics discussing internet and social media issues, labor issues, corporate social responsibility, product and food safety, Chinese suppliers and production, environmental issues, corporate governance, as well as business and society in China. Each case is followed by a discussion section, with questions to prompt reflection. This book is a valuable resource for students of International Business and Management, as well as entrepreneurs and business managers working and doing business in China.

CONTEMPORARY ISSUES IN BUSINESS ETHICS, 6E introduces readers to business ethics

by focusing on the influence of market mechanisms and social values on workplace norms. And because business is increasingly a global enterprise, this edition emphasizes the role of ethics both at home and abroad. CONTEMPORARY ISSUES IN BUSINESS ETHICS, 6E also takes time to look at ethics from the unique perspectives of either employee or employer. Along the way, readers also learn about such topics as ethical relativism, ethics and the law, virtue ethics, and ethical decision-making. ### Case Study, 25. Project Analysis

Gabriel Flynn and Patricia H. Werhane This book points to a necessary relationship between ethics and business; the success of such an alliance depends directly on sound business leadership. Without the sort of leadership that upholds the dignity and rights of employees and clients, as well as the interests of shareholders, even the most meticulously prepared ethics statements are destined to founder, as evidenced at Enron and elsewhere. Over the past 30 years or so, since business ethics became established as a discipline in its own right, much progress has been made in the ethical conduct of business at all levels. In short, business people, like politicians, doctors and church leaders, have come to realize that it is not possible to avoid involvement in ethics, for much of what business people do and cannot do may be subject to ethical evaluation. While the history of business ethics as currently practised may be traced to the medieval and ancient periods; our principal concern is with developments in the field over recent decades. A consideration of how the topic has been treated by the Harvard Business Review, the business world's leading professional journal, provides helpful insights into past progress and present challenges. In 1929, just as business ethics was beginning to evolve, Wallace B.

What special problems arise for managers and employees of companies when they do business in countries and cultures other than their own? The essays in this book identify universal principles of business ethics and spell out minimal legal and ethical absolutes in foreign trade. They examine human rights and analyze the cross-cultural aspects of two sexual harassment cases filed against Mitsubishi in America.

The key to teaching business ethics successfully, says Sims, is to start with clear goals and a

## Download Ebook Business Ethics Questions And Answers

sensible expectation of outcomes, and with a true knowledge and appreciation of how people actually learn. Proceeding with the conviction that open communications between teacher and student before, during, and after the teaching experience is vital, Sims identifies key teaching processes, gives practical advice on designing and planning the curriculum, and offers guidance on how to develop a climate conducive to effective learning. He also emphasizes learning styles and experiential learning theory as cornerstones of teaching business ethics, an approach unlike any in the literature. An important guide for those who are new to teaching this essential subject, Sims' book will also help more experienced teachers who wonder why their own methods do not always work, or do not work as well as they think they should.

Spans the relationships among business, ethics, and society by including numerous entries that feature broad coverage of corporate social responsibility, the obligation of companies to various stakeholder groups, the contribution of business to society and culture, and the relationship between organizations and the quality of the environment.

This volume sets the agenda for business ethics and corporate responsibility in the future. It brings together ideas, challenges, and proposed solutions for thinking about--and implementing--effective ethics programs in business schools and business organizations.

Combining readings and case studies, this text asserts that business ethics is primarily about the ethics of individuals and challenges students to reconcile their personal value systems with standard business practice. With a unique focus on the personal dimension of ethics, this is a practical overview of the ethical issues students are most likely to face in the workforce.

100 Questions (and Answers) About Research Ethics by Emily E Anderson and Amy Corneli is an essential guide for graduate students and researchers in the social and behavioral

## Download Ebook Business Ethics Questions And Answers

sciences. It identifies ethical issues that individuals must consider when planning research studies as well as provides guidance on how to address ethical issues that might arise during research implementation. Questions such as assessing risks, to protecting privacy and vulnerable populations, obtaining informed consent, using technology including social media, negotiating the IRB process, and handling data ethically are covered. Acting as a resource for students developing their thesis and dissertation proposals and for junior faculty designing research, this book reflects the latest U.S. federal research regulations to take effect mostly in January 2018.

*Business Ethics: New Challenges in a Globalized World* provides a comprehensive account of the challenges facing businesses as they pursue global business activities. The importance of business ethics as an academic subject and business priority has increased significantly, as companies have increasingly been placed in the moral spotlight by shareholders, consumers, employees and governments. The growing complexities of the global economy demand a broader and a deeper view of business ethics than that offered by current management approaches that focus on reforming corporate behaviour. This book places business ethics in a richer contextual setting, focusing on the challenges that business must now confront, such as inequality, financial risk, migrant labour, climate change and human rights, and exploring how these challenges can be met by a rethinking of business models, goals and strategies. Key benefits:

- Up-to-date overview of ethical issues in an international business context
- Includes lively cases and examples from emerging economies which bring the subject to life
- Encourages critical thinking skills in students

Janet Morrison, now retired, was a senior lecturer in strategic and international management at Sunderland University Business School, UK

## Download Ebook Business Ethics Questions And Answers

'Business Ethics: New Challenges in a Globalised World offers a practical look at the issues under consideration, and will contribute to a student gaining real insight and entering into critical dialogue on the topic of ethics in international business. Students using this text will be reminded of the fact that ethical issues are broader and deeper than we would like to think, and are encouraged to work out for themselves what they might do, or what they think others should do, in less than clear-cut situations.' – Andrea McLachlan, University of Waikato, New Zealand 'This book discusses the legal, social, political and international issues that set the context for some of the great ethical challenges we face in the world today. The integration of real life case studies and ethical theory provides practical application that will enable students to gain a much broader understanding of the issues involved.' - Carole Parkes, Aston University, UK 'Introducing a topic as complex and as widely discussed as business ethics is a very difficult task. However, Morrison succeeds in presenting a concise and well-written account of the field and its current issues. The book is a particularly good read for undergraduate students who want to be introduced to the field of business ethics.' – Berend van der Kolk, University of Groningen, The Netherlands 'This is an expertly written textbook. I am impressed by the international outlook of the book, the clear writing style and the excellent contemporary cases and examples' Marianna Fotaki, Warwick Business School, UK

Business Ethics—Faith That Works, 2nd Edition shows how faith forms the foundation for the theory and practice of business ethics and how ethical leadership results in long-term success in business. It challenges readers to understand their own beliefs and actively base the ethics they practice in business on those beliefs for building an ethical culture that can lead to a sustainable competitive advantage. The book begins by covering business ethics basics,

## Download Ebook Business Ethics Questions And Answers

highlighting how ethics are good for business. Ruddell then analyses the Scriptural teaching about business ethics as a model for how faith can (and indeed must) integrate with business ethics and then contrasts with other, secular, views of business ethics. He continues by reviewing steps for solving ethical problems in business and how to set up and carry out an effective ethics program inside the business and how companies can extend those ethics to those around them through effective social outreach programs, and to the environment by being good stewards of our resources.

“Morten: And what are we going to do, when you have made liberal-minded and high-minded men of us? Dr. Stockman: Then you shall drive all the wolves out of the country, my boys!” (Ibsen, *An Enemy of the People*, Act V) The theoretical and empirical research of this book describes how the traditional safeguards of the rights of minority shareholders have failed in their duty and how those shareholders have remained practically without any protection against the arbitrariness of the companies and majority shareholders. The law, the SEC, society, boards of directors, independent directors, auditors, analysts, underwriters and the press have remained in many cases worthless panaceas. Nevertheless, in the Ethics of 2000 new vehicles have been developed for the protection of minority shareholders, mainly the Internet, transparency, activist associations and ethical funds. Those vehicles give the shareholders at least the chance to understand the pattern and methods that are utilized to wrong them and give them a viable alternative for investment in ethical funds. The new vehicles will prevent minority shareholders from using the Armageddon weapon, by ceasing to invest in the stock exchange and causing the collapse of the system, that discriminates against them.

Cases in Business Ethics provides the opportunity for students not only to discuss the application of ethical theories in managerial situations, but also to apply judgment and make decisions in a real-world context. This collection of cases focuses on business decision-making, and includes both short and long, more complex cases that highlight the practicalities of business practice and ethical theory. A beneficial feature of Cases in Business Ethics is the variety of ways in which the cases can be organized to fit the course curriculum.

Revised edition of A catechism for business, 2014.

There's no such thing as business ethics. How can that be? Because a single standard applies to both your business and personal life-and it's one we all know and trust: the Golden Rule. Now bestselling author John C. Maxwell shows you how this revered ideal works everywhere, and how, especially in business, it brings amazing dividends. There's No Such Thing As "Business" Ethics offers: \* Stories from history, business, government, and sports that illustrate how talented leaders invoked this timeless principle \* Examples of difficult business decisions-layoffs, evaluations, billing clients, expansion-and how the Golden Rule applies to each \* The five most common reasons people compromise their ethics-and how you can prevail over such moral obstacles \* How applying the Golden Rule to business builds morale, increases productivity, encourages teamwork, lowers employee turnover, and keeps clients coming back. John C. Maxwell not only reveals the many ways the Golden Rule creates the perfect environment for business success, but does it with great wisdom, warmth, and humor. Backed by flawless research and the ideas of history's best thinkers, this engaging book brilliantly demonstrates how doing the right thing fosters a winning situation for all, with positive results for employees, clients, investors, and even your own state of mind. Business runs much more smoothly, profits increase, and you know that you've set the groundwork for years of future prosperity...and it's all thanks to the tried-and-true Golden Rule.

Take a seat in the boardroom. What will you decide? Corporations make difficult decisions about the right thing to do every day, but as an organization made up of people with different perspectives and values, how can a business behave ethically? This is Business Ethics offers a dynamic and engaging introduction to the study of corporate morality. Offers real-world practical advice for navigating ethical dilemmas in business, developed and explained through illustrative high-profile case studies like the Ford Pinto case, Enron, Walmart and British Petroleum. Explores how ethical theory informs business policy and practice. Presents unresolved contemporary case studies for consideration, inviting readers to participate in the decision-making and offer their own recommendations. The latest in the This is Philosophy series, This is Business Ethics features supplemental online resources for instructors and students at [www.thisisphilosophy.com](http://www.thisisphilosophy.com).

Case Histories in Business Ethics illustrates and extends the role of case histories in the teaching and study of business ethics. Typically, case histories are used to illustrate assertions or arguments, or to stimulate debate about an issue within business ethics. This volume examines that role, illustrating the link between case histories and more general theoretical approaches to business ethics. It also discusses the role of case histories in engaging the wider cognitive and affective capacities of the student and therefore the development of character.

Packed with examples, this book offers a clear and engaging overview of ethical issues

in business. It begins with a discussion of foundational issues, including the objectivity of ethics, the content of ethical theories, and the debate between capitalism and socialism, making it suitable for the beginning student. It then examines ethical issues in business in three broad areas. The first is the market. Issues explored are what can be sold (the limits of markets) and how it can be sold (ethics in marketing). The second is work. Topics in this area are health and safety, meaningful work, compensation, hiring and firing, privacy, and whistleblowing. The third area is the firm in society. Here readers explore corporate social responsibility, corporate political activity, and the set of ethical challenges that attend international business. Issues are introduced through real-world examples that underscore their importance and make them come alive.

Arguments for opposing positions are given fair hearings and students are encouraged to develop and defend their own views. Key Features Introduces each topic with a real-world example, which is referenced regularly in the subsequent argument. Contains a critical evaluation of capitalism and socialism, with a focus on private property, the market system, and the welfare state. Explores the limits of markets and encourages students to ask what should and should not be for sale. Explores the phenomena of corporate political activity and ethical consumerism. Includes initial chapter overviews and – at the end of each chapter – study questions and suggested additional readings. A clear and concise roadmap for ethical business behavior using commonsense moral principles Business Ethics for Better Behavior concisely answers the three most

## Download Ebook Business Ethics Questions And Answers

pressing ethical questions business professionals face: What makes business practices right or wrong?; Why do normal, decent businesspeople of good will sometimes do the wrong thing?; and How can we use the answer to these questions to get ourselves, our coworkers, our bosses, and our employees to behave better? Bad behavior in business rarely results from bad will. Most people mean well much of the time. But most of us are vulnerable. We all fall into moral traps, usually without even noticing. Business Ethics for Better Behavior teaches business professionals, students, and other readers how to become aware of those traps, how to avoid them, and how to dig their way out if they fall in. It integrates the best work in psychology, economics, management theory, and normative philosophy into a simple action plan for ensuring the best ethical performance at all levels of business practice. This is a book anyone in business, from an entry-level employee to CEO, can use.

A clear and accessible introduction to business ethics for students of business and management, this book is a practical guide to a subject directly relevant to business conduct today. It offers a decision model to help in the making of ethical choices, and bases its ethical framework firmly on the nature of business itself.

Business Ethics: What Everyone Needs to Know ® is a succinct, practical survey that explains what ethical lines are, how not to cross them, and what to do when they are crossed. Written in a question-and-answer format, this resource provides engaging and readable introductions to the basic principles of business ethics and an invaluable guide

for dealing with ethical dilemmas.

This volume is a unique collection of inspiring reflections designed to enhance the reader's understanding of both the importance and the relativity of business ethics. It invites experts and specialists of business ethics to explore threads from history, religion, philosophy and biology, but will also appeal to the thoughtful citizen, academic, businessman, banker and lawyer who has chosen to critically reflect upon the value of ethical conduct in today's world. The book draws from a rich mine of academic sources to consider how business ethics relate to today's key concerns, including wealth inequality, the need for effective financial regulations and sustainability—how best to engage with our duties to planet earth. Nourished by the author's life-long practice of international law and his exploration of academic thinking on ethics, this book is neither an analysis nor a sermon. It is an invitation to make the world a better place by engaging in ethical thought.
