How did a major corporation manage to turn itself around while Wall Street and others continued to predict its slow death? The answer may surprise you, and it provides a model for corporate transformation for any company or government agency operating in a world of accelerating change. The company is General Motors, and this book tells how it was able to change the way important decisions were made, leading to resurgence in business across its many product lines. At the beginning of the 1990s, GM was perceived by nearly everyone as falling behind its competitors at an alarming rate. By the beginning of the twenty-first century, though, the company had come storming back with successful new automobiles and new business concepts that captured new markets, while simultaneously holding on to many of its existing customers. What GM did is not just the story of a single automaker, but rather a compelling insight

into an approach for any business organization that is faced with the need for a true transformation. As many companies have discovered, efforts at transformation too often fail. GM's successful transformation illustrates the importance of management's ability to change its mindset and make the tough decisions that revitalize business with bold new products and business concepts. At the heart of successful transformation is the imagination, courage and leadership required to visualize the kind of company an organization wants to become and then work toward that goal. With the destination set and understood by those who will need to implement the changes, decision-makers find it less difficult to overcome impediments to achieving their goal while finding creative ways of doing what may seem impossible. The lessons from GM's turnaround can help any business organization change and keep pace with today's turbulent marketplace.

[...] it didn't matter, because one word, "sure" in the context of motorcycle ownership, gave Pete permission to buy one. All he had to do now was earn the money. [...] When Ms. Strickland answered the door she looked at the stoop and noticed that it had been shoveled. Since they were both holding shovels, the first thing she said in a rhetorical tone was "Did you guys do that? Thank you!" Before they could get a word out, she continued with "I guess you are here to shovel my drive! Or did you do that too and now you want your money?" Without missing a beat, Mel replied, "Yup! Twenty bucks!" In a scolding almost frantic tone she replied with, "Well I'm not paying. I have the lawn service under contract. Not very smart business boys. You can't just ask people to pay for a service they didn't request!" Pete just stood there in shock when Mel said, "OK, we'll put it back." She paused for a moment with a look of horror on her face until she realized Mel was joking and started laughing. She

Boys!? Wait!” Mel and Pete exchanged glances wondering what now? “Come back! I changed my mind! You can shovel my drive!” Pete jokingly said to Mel, “It looks like we’re both gonna make \$20 on this drive since our price just doubled!”

In 2012 I had a life upgrade. It was nowhere near Hollywood status but people were beginning to know about me. My business was growing and as an added service I had to go to my clients' homes. One day I asked myself how I wanted to present to my clients. I believe at some point in time we have to make those types of decisions, and I had to ask myself if I seriously wanted to be pulling up to a client's beautiful home in a pickup truck or a Cadillac Escalade? I CHOSE ESCALADE!!! My truck was paid off and an Escalade was NOT cheap! I really wanted the Escalade and put it on my radar. But how was I going to pay for it without payments? I decided that I would manifest it using the Twelve Transmutable Laws of Attraction. Don't roll your eyes, IT WORKED!!! Since so many people have asked where I came up with the money to buy an Escalade in a year, I decided to write this book about my journey. Ask yourself how will you feel driving the car of your dreams? How will you feel showing up with the most beautiful car, the sexiest car, the power car, the envy of all of your

friends car, the car that screams ... I HAVE ARRIVED!!! How will you FEEL? I am writing this book to tell you how I did it and perhaps if you follow the laws that I did, you too will be driving the car of your dreams! So just buy the book already, don't delay, do it now! As for me and my next manifesting journey, I am manifesting a new house! I'll write a book about that when it shows up. Thank You, Thank You, Thank You!

One of Literary Hub's Most Anticipated Books of 2021 Stories that capture our times by “a young author who has already established himself as a unique American voice” (Elle). Said Sayrafiezadeh has been hailed by Philip Gourevitch as “a masterful storyteller working from deep in the American grain.” His new collection of stories—some of which have appeared in *The New Yorker*, *the Paris Review*, and *the Best American Short Stories*—is set in a contemporary America full of the kind of emotionally bruised characters familiar to readers of Denis Johnson and George Saunders. These are people contending with internal struggles—a son’s fractured relationship with his father, the death of a mother, the loss of a job, drug addiction—even as they are battered by larger, often invisible, economic, political, and racial forces of American society. Searing, intimate, often slyly funny, and always marked by a deep imaginative sympathy, *American Estrangement* is a testament to our addled times. It will cement Sayrafiezadeh’s reputation as one of the essential twenty-first-century American writers.

This book *Billion Dollar Man* is about how 3 US men go out to make money to be happy and rich.
