A Journey through the Jeevitha Nauka by Haridasan T.M., narrates his experiences in life and brings out the importance of the nature driven and man-made evolution of the generation gap and the consequent cultural variations in human life. These changes are essential for our development, and to make this development sustainable, humanity should be ready at different age levels to make self-generated reforms in their mindsets and lifestyles. The author attempts

to reveal how he made his experiments to approach this goal. From non-electrified dwelling in a rural hamlet, his journey to his present day life in a modern apartment in a bustling city met many rough and smooth paths. The various roles in his life, as a child, a dutiful son, a loving husband and father, along with being an affectionate grandparent in the home front, and as a student, teacher, researcher, administrator, social reformer and scientific consultant in the professional front gave him an opportunity to become a humane human being and responsible citizen. His revelations, it is hoped, would generate a sense of a rededication in our youth for shaping a glowing harmonious society.

or legal entity by a state or the functional equivalent of a state such that failure to pay is punishable by law. It is imposition of compulsory levies on individuals or entities by government. Taxes are levied in almost every country of the world, primarily to raise revenue for government expenditures, although they also serve other purposes as well. In modern economies taxes are the most important source of government revenue. Taxes differ from other sources of revenue in that they are compulsory levies and are unrequited—i.e., they are generally not paid in exchange for some specific thing, such as a particular public service, the sale of public property, or the issuance of public debt. While taxes are presumably collected for the welfare of taxpayers as a whole, the individual taxpayer's liability is independent of any specific benefit received.
