Worship is always a choice. During peaceful and pain - free times, the choice to respond to God in thanksgiving and praise may be relatively easy. But at other painful or confusing times in our lives, the choice to worship is a costly act of devotion. In the life of every worshiper there will come times when worship meets with suffering. In Blessed Be Your Name, Matt and Beth Redman use the words of their inspiring song to explore how to stand in the place of praise even in the face of hardship and pain. Focusing on

the Psalms, many of which were written out of struggle, the Redmans share from their own experience and show how painful circumstances and our choices can either propel us toward God or away from Him, build up our faith or break it. Learn how to ride out the storms of life saying "Blessed be Your name, Lord" and mean it.

A beacon of creativity with boundless energy, Chase Jarvis is well known as a visionary photographer, director, and social artist. In *The Best Camera Is The One That's With You*, Chase reimagines, examines, and redefines the intersection of art and popular culture through images shot with his iPhone. The pictures in the book, all taken with Chase's iPhone, make up a visual notebook—a photographic journal—from the past year of his life. The book is full of visually-rich iPhone photos and peppered with inspiring anecdotes. Two megapixels at a time, these images have been gathered and bound into a book that represents a stake in the ground. With it, Chase underscores the idea that an image

can come from any camera, even a mobile phone. As Chase writes, "Inherently, we all know that an image isn't measured by its resolution, dynamic range, or anything technical. It's measured by the simple—sometimes profound, other times absurd or humorous or whimsical—effect that it can have upon us. If you can see it, it can move you." This book is geared to inspire everyone, regardless of their level of photography knowledge, that you can capture moments and share them with our friends, families, loved ones, or the world at the press of a button. Readers of *The Best Camera Is The One That's With You* will also enjoy the iPhone application Chase Jarvis created in conjunction with this book, appropriately named *Best Camera*. *Best Camera* has a unique set of filters and effects that can be applied at the touch of a button. Stack them. Mix them. Remix them. *Best Camera* also allows you to share directly to a host of social marketing sites via www.thebestcamera.com, a new online community that allows you to contribute to a living, breathing gallery of the best iPhone photography from around the globe. Together, the book, app, and website, represent a first-of-its-kind ecosystem dedicated to encouraging creativity through picture taking with the camera that you already have. *The Best Camera Is The One That's With You—shoot!*

During the 5,000-year period from -1999 to +3000 (2000 BCE to 3000 CE), Earth will experience 12,064 eclipses of the Moon. The eclipses are distributed as follows: 4,378 penumbral eclipses, 4,207 partial eclipses, and 3,479 total eclipses. The "Five Millennium Catalog of Lunar Eclipses: -1999 to +3000" contains an individual figures and maps for each eclipse showing the geographic regions of visibility for each phase (penumbral, partial, and total). The uncertainty in Earth's rotational period expressed in DT and its impact on the geographic visibility of eclipses in the past and future is discussed. The statistics of the lunar eclipse distribution over 5,000 years are examined in detail. This includes eclipse types by month and by century, eclipse frequency in the calendar year, extremes in eclipse magnitude for all eclipse types, maximum durations of penumbral, partial, and total eclipses, and eclipse duos (two eclipses within 30 days of each other). Finally, the periodicity of lunar eclipses is investigated with particular attention to the Saros cycle. Tables list the start and end dates, number, and type of eclipses of every Saros series in progress during the 5,000-year period covered by the Five Millennium Catalog. The Catalog serves as a supplement to the 2-volume "Five Millennium Canon of Solar Eclipses" which contains a map of every eclipse. The Catalog and the Canon both use the same solar and lunar ephemerides as well as the same value of T . This 1-to-1 correspondence between them enhances the value of each.

Sex. Race. Scripture. Sovereignty. The book of Ruth entails them all. So readers shouldn't be fooled by its age, says Pastor John Piper. Though its events happened over 3,000 years ago, the story holds astounding relevance for Christians in the twenty-first century. The sovereignty of God, the sexual nature of humanity, and the gospel of God's mercy for the undeserving—these massive realities never change. And since God is still sovereign, and we are male or female, and Jesus is alive and powerful, *A Sweet and Bitter Providence* bears a message for readers from all walks of life. But be warned, Piper tells his audience: This ancient love affair between Boaz and Ruth could be dangerous, inspiring all of us to great risks in the cause of love.
