The ghoulfriends' new GFF, Wydowna Spider, starts to clear the cobwebs about the mysterious threat to Monster High. The previous generation of monsters formed a secret society that seems bent on turning the school into something that's more like a prison! But when Rochelle Goyle, Rebecca Steam, and Venus McFlytrap uncover a second ancient group of monsters...the fate of the student disembodied is in their hands!

This book constitutes the thoroughly refereed post-conference proceedings of the 4th International Conference on Mobile, Secure, and Programmable Networking, held in Paris, France, in June 2018. The 27 papers presented in this volume were carefully reviewed and selected from 52 submissions. They discuss new trends in networking infrastructures, security, services and applications while focusing on virtualization and cloud computing for networks, network programming, software defined networks (SDN) and their security.
