

Cessna 310 Flight Manual Cofp

This hornbook delves into the expanding field of products liability law. It focuses on the major issues of products liability law, addressing them in a clear, comprehensive manner. The book starts out with introductory discussions on the nature and history of the law in the USA and abroad. It proceeds with detailed inquiries into the theories of liability, product defectiveness, causation and defences. The book ends with a focus on selected issues.

This volume discusses the substantive law of aviation liability, the damages recoverable, the technical steps involved in aviation litigation, alternative theories & defenses of liability, instructions for investigating the cause of an aircraft accident, & the presentation of expert witnesses.

Lists citations with abstracts for aerospace related reports obtained from world wide sources and announces documents that have recently been entered into the NASA Scientific and Technical Information Database.
