Nancy's boyfriend, Ned, has recently started his own podcast called NedTalks and he just got his big break. Up and coming comedian Brady Owens has agreed to sit down for an interview. And this isn't just any interview; it's the first interview Brady has given since a video of him lashing out at an audience member went viral. Now people are protesting his shows and calling him violent. Nancy agrees to help out with the technical stuff so Ned can focus on the hard-hitting questions. But when they go to meet the interviewee they find Brady's hotel room trashed—and no comedian in sight. Luckily, they find Brady unhurt and nothing of monetary value is missing from the room. Only his notebook of new material is gone. Brady says he knows it's the people who've seen the video of him yelling. They think he's dangerous and doesn't deserve a platform. He wishes it would all blow over. Nancy disagrees with Brady. She thinks he should apologize to the crowd and admit that he crossed a line. But she recognizes a person in need of help when she sees one and agrees to get to the bottom of this sabotage anyway. Complex social media charts, undercover outfits, and intense button study send Nancy, Bess, George, and Ned on a wild ride through River Heights to uncover the truth. But nothing is what it seems in this game of comedic timing. Can Nancy find the culprit before it's too late?

Building upon the theoretical and practical foundation outlined in their previous book, *Educating English Learners*, the authors show classroom teachers how to develop a repertoire of instructional techniques that address K–12 English learners (ELs) at different English proficiency and grade levels, and across subject areas. *Show, Tell, Build* is organized around two decision maps for planning and implementing differentiated instruction for ELs: the Academic Subjects Protocol (for teachers of academic subjects) and the Language Arts Protocol (for teachers of language arts). The instructional tools and techniques described in each chapter help teachers provide communication support for ELs through showing and telling, and develop their language proficiency through building their skills. The book also discusses the demands that academic language poses for ELs and ways to assess students' proficiency in English. *Show, Tell, Build* provides classroom teachers, English language development specialists, literacy coaches, and school leaders with valuable knowledge and skills to support ELs' academic success.

This introductory 2005 text on air-breathing jet propulsion focuses on the basic operating principles of jet engines and gas turbines. Previous coursework in fluid mechanics and thermodynamics is elucidated and applied to help the student understand and predict the characteristics of engine components and various types of engines and power gas turbines. Numerous examples help the reader appreciate the methods and differing, representative physical parameters. A capstone chapter integrates the text material into a portion of the book devoted to system matching and analysis so that engine performance can be predicted for both on- and off-design conditions. The book is designed for advanced undergraduate and first-year graduate students in aerospace and mechanical engineering. A basic understanding of fluid dynamics and thermodynamics is presumed. Although aircraft propulsion is the focus, the material can also be used to study ground- and marine-based gas turbines and turbomachinery and some advanced topics in compressors and turbines.

Although it was influential for several hundred years after it first appeared, doubts about the authenticity of the Platonic *Alcibiades I* have unnecessarily impeded its interpretation ever since. It positions itself firmly within the Platonic and Socratic traditions, and should therefore be approached in the same way as most other Platonic dialogues. It paints a vivid portrait of a Socrates in his late thirties tackling the unrealistic ambitions of the youthful Alcibiades, urging him to come to know himself and to care for himself. François Renaud and Harold Tarrant re-examine the drama and philosophy of *Alcibiades I* with an eye on those interpreters who cherished it most. Modern scholars regularly play down one or more of the religious, erotic, philosophic or dramatic aspects of the dialogue, so ancient Platonist interpreters are

given special consideration. This rich study will interest a wide range of readers in ancient philosophy.

Over twenty-five years in the making, this much-anticipated commentary promises to be the standard study of Proverbs for years to come. Written by eminent Old Testament scholar Bruce Waltke, this two-volume commentary is unquestionably the most comprehensive work on Proverbs available. Grounded in the new literary criticism that has so strengthened biblical interpretation of late, Waltke's commentary on Proverbs demonstrates the profound, ongoing relevance of this Old Testament book for Christian faith and life. A thorough introduction addresses such issues as text and versions, structure, authorship, and theology. The detailed commentary itself explains and elucidates Proverbs as "theological literature." Waltke's highly readable style -- evident even in his original translation of the Hebrew text -- makes his scholarly work accessible to teachers, pastors, Bible students, and

general readers alike.
