One of the most important forms of communication--intuition--is often overlooked or misunderstood by many people. In *The Gift Within Us*, author Mary Ann Bohrer explores the subject of intuition through interviews with scientists, paranormal researchers and 33 highly gifted intuitives from around the world who share their stories in individual profile chapters. Ultimately, we learn that every individual has access to this amazing divine wisdom simply by listening to our own inner voice. The process is simple, but the rewards are profound. According to research, people are increasingly identifying themselves as "spiritual but not religious," yet they don't know how to satisfy their yearning for greater spiritual connection and understanding. In this insightful and groundbreaking book, the author outlines six simple steps to accessing our own inner voice, so that each and every one of us can tap into this incredibly powerful form of communication and divine guidance, *The Gift Within Us*. About The Author

Mary Ann Bohrer is a PR professional, communications specialist and intuition advocate who has interviewed some of the most gifted intuitives in the world. She has also interviewed top scientists, psi researchers, academicians and even a leading Catholic Archbishop regarding the topic of intuition, and shares her findings in *The Gift Within Us* that each and every one of us--regardless of religious affiliation, or whether they identify as religious at all--has access to this amazing and life-changing gift, simply by listening to our own inner voice. Editorial Reviews "In *The Gift Within Us*, Mary Ann really captures what it's like to be a psychic medium, and this book shows us how to listen to our own inner voice. This intelligent book will help many people appreciate and access the spiritual world." James Van Praagh, Spiritual medium and author of *Talking to Heaven*, *Adventures of the Soul*, and *The Power of Love* "This direct connection has always been available to all of us. Some receive this guidance through prayer, some through meditation, and others by simply listening to their inner voice. We all have access to divine wisdom - it's just a matter of knowing and trusting that we are loved and worthy of receiving that guidance." Archbishop Harry J. Flynn, former Archbishop Emeritus of the Archdiocese of St. Paul and Minneapolis "The evidence is in - intuition is real and it exists within all of us to various degrees. Mary Ann has written a powerful and engaging book that documents real life evidence for this precious gift, and underscores the benefits of listening to our own inner voice." Gary E. Schwartz, PhD, Professor of Psychology, Medicine, Neurology, Psychiatry and Surgery, University of Arizona and Author of *Super Synchronicity*, *The Afterlife Experiments* and *The Sacred Promise* "Most people have had one or more extraordinary intuitive or transcendent experiences, but we quickly learn not to talk about them. They feel strange and otherworldly, so we're concerned how others will react if we tell them our stories.

This is why Mary Ann Bohrer's *The Gift Within Us* is such a gift. It helps to break the paradox of common experiences that no one wants to talk about, and it reminds us that these experiences are real, normal, and valuable. Highly recommended!" Dean Radin, PhD, Chief Scientist at the Institute of Noetic Sciences (IONS) and Author of *The Conscious Universe*, *Supernormal* and *Real Magic*

Financial Risk Management and Derivative Instruments offers an introduction to the riskiness of stock markets and the application of derivative instruments in managing exposure to such risk. Structured in two parts, the first part offers an introduction to stock market and bond market risk as encountered by investors seeking investment growth. The second part of the text introduces the financial derivative instruments that provide for either a reduced exposure (hedging) or an increased exposure (speculation) to market risk. The fundamental aspects of the futures and options derivative markets and the tools of the Black-Scholes model are examined. The text sets the topics in their global context, referencing financial shocks such as Brexit and the Covid-19 pandemic. An accessible writing style is supported by pedagogical features such as key insights boxes, progressive illustrative examples and end-of-chapter tutorials. The book is supplemented by PowerPoint slides designed to assist presentation of the text material as well as providing a coherent summary of the lectures. This textbook provides an ideal text for introductory courses to derivative instruments and financial risk management for either undergraduate, masters or MBA students.

Now Steven Raichlen's written the bible behind the Barbecue! Bible. A full-color, photograph-by-photograph, step-by-step technique book, "How to Grill" gets to the core of the grilling experience by showing and telling exactly how it's done. With more than 1,000 photographs

and lively writing, here are over 100 techniques, from how to set up a three-tiered fire to how to grill a prime rib, a porterhouse, a pork tenderloin, or a chicken breast. There are techniques for smoking ribs, cooking the perfect burger, rotisserieing a whole chicken, barbecuing a fish; for grilling pizza, shellfish, vegetables, tofu, fruit, and s'mores. Bringing the techniques to life are over 100 all-new recipes -- Beef Ribs with Chinese Spices, Grilled Side of Salmon with Mustard Glaze, Prosciutto-Wrapped, Rosemary-Grilled Scallops -- and hundreds of inside tips. This report describes the Act and states the reasons for our conclusion that the Act should be repealed. It also contains the text of the Act, describes the survey conducted of members of the legal profession regarding their views on the Act, and summarizes the most frequently expressed reasons for retaining the Act, and states why it was concluded that those reasons were overborne by those in favour of repeal. Finally, it describes some approaches that could be taken to reforming rather than repealing the Act.

Since 1958 the Maritime Administration has continuously conducted instructions in use of collision avoidance radar for qualified U.S. seafaring personnel and representatives of interested Federal and State Agencies. Beginning in 1963, to facilitate the expansion of training capabilities and at the same time to provide the most modern techniques in training methods, radar simulators were installed in Maritime Administration's three region schools. It soon became apparent that to properly instruct the trainees, even with the advanced equipment, a standardize up-to-date instruction manual was needed. The first manual was later revised to serve both as a classroom textbook and as an onboard

reference handbook. This newly updated manual, the fourth revision, in keeping with Maritime Administration policy, has been restructured to include improved and more effective methods of plotting techniques for use in Ocean, Great Lakes, Coastwise and Inland Waters navigation. In this outrageous and delectable new volume, the Man Who Ate Everything proves that he will do anything to eat everything. That includes going fishing for his own supply of bluefin tuna belly; nearly incinerating his oven in pursuit of the perfect pizza crust, and spending four days boning and stuffing three different fowl—into each other-- to produce the Cajun specialty called “turducken.” It Must’ve Been Something I Ate finds Steingarten testing the virtues of chocolate and gourmet salts; debunking the mythology of lactose intolerance and Chinese Food Syndrome; roasting marrow bones for his dog, and offering recipes for everything from lobster rolls to gratin dauphinois. The result is one of those rare books that are simultaneously mouth-watering and side-splitting.

"Staff from smaller airports typically lack specialized expertise in the negotiation and development of airport property or the resources to hire consultants. ACRP Research Report 213 provides airport management, policymakers, and staff a resource for developing and leasing airport land and improvements, methodologies for determining market value and appropriate rents, and best practices for negotiating and re-evaluating current lease agreements. There are many factors that can go into the analysis, and

this report reviews best practices in property development."--Foreword.

An accessible, comic book-like, illustrated introduction to how the internet works under the hood, designed to give people a basic understanding of the technical aspects of the Internet that they need in order to advocate for digital rights. The internet has profoundly changed interpersonal communication, but most of us don't really understand how it works. What enables information to travel across the internet? Can we really be anonymous and private online? Who controls the internet, and why is that important? And... what's with all the cats? *How the Internet Really Works* answers these questions and more. Using clear language and whimsical illustrations, the authors translate highly technical topics into accessible, engaging prose that demystifies the world's most intricately linked computer network. Alongside a feline guide named Catnip, you'll learn about:

- The "How-What-Why" of nodes, packets, and internet protocols
- Cryptographic techniques to ensure the secrecy and integrity of your data
- Censorship, ways to monitor it, and means for circumventing it
- Cybernetics, algorithms, and how computers make decisions
- Centralization of internet power, its impact on democracy, and how it hurts human rights
- Internet governance, and ways to get involved

This book is also a call to action, laying out a roadmap for

using your newfound knowledge to influence the evolution of digitally inclusive, rights-respecting internet laws and policies. Whether you're a citizen concerned about staying safe online, a civil servant seeking to address censorship, an advocate addressing worldwide freedom of expression issues, or simply someone with a cat-like curiosity about network infrastructure, you will be delighted -- and enlightened -- by Catnip's felicitously fun guide to understanding how the internet really works!

A legendary painting by Rembrandt forms the centerpiece of this exploration of self-portraits by leading artists of the twentieth and twenty-first centuries. Published to commemorate an exhibition presented by Gagosian in partnership with English Heritage, this stunning volume centers on Rembrandt's masterpiece *Self-Portrait with Two Circles* (c. 1665), from the collection of Kenwood House in London. The painting is considered to be Rembrandt's greatest late self-portrait and is accompanied here by examples of the genre from leading artists of the past one hundred years. These include works by Francis Bacon, Jean-Michel Basquiat, Lucian Freud, and Pablo Picasso, as well as contemporary artists such as Georg Baselitz, Glenn Brown, Urs Fischer, Damien Hirst, Howard Hodgkin, Giuseppe Penone, Richard Prince, Cindy Sherman, and Rudolf Stingel, among others. Also featured is a new work by Jenny Saville, created in response to

Rembrandt's masterpiece. Full-color plates of the works, generous details, and installation views of the exhibition accompany an expansive essay by art historian David Freedberg that provides a close look at the self-portraits created by Rembrandt throughout his life and considers the role of the Dutch master as the precursor of all modern painting.
