spinners Putting your car on a diet, because lighter means faster Basic power bolt-ons and more expensive power adders Installing roll bars and cages to enhance safety Adding aero add-ons, including front “chin” spoilers, rear spoilers, side skirts, and canards Detailing, down to the best cleaners and waxes and cleaning under the hood Using OBD (on-board diagnostics) for troubleshooting Getting advice from general Internet sites and specific message boards and forums for your car’s make or model, whether it’s a Chevy pick-up or an Alfa Romeo roadster Whether you want to compete at drag strips or on road courses or simply accelerate faster on an interstate ramp, if you want to improve your car’s performance, Car Hacks & Mods for Dummies is just the boost you need.

Bubble Head is a Crested Polish Banty – One Slick Chick – and a strange-looking chicken that takes on a crafty fox in the first part of this children’s adventure book. “I happen to be a stunning chicken. I allow these humans to pet my lovely feathers and tell me I’m one hot chicken, but of course I know this. It’s obvious I’m a chicken worth pick-en.” Whether she’s strange-looking or lovely, this hip chick will delight young readers as she takes on some worthy adversaries, including a killer fox, and a large snapping spider that appears on Halloween (and if it bites, you become the spider). Does Bubble Head come out on top?

Als Thomas met zijn familie verhuist naar een afgelegen plaatsje, gebeuren er geheimzinnige dingen. Volgens een oude voorspelling moeten Thomas en zijn jongere broers en zussen als 'De Vijf' de stad Raveleijn

bevrijden. Vanaf ca. 9 jaar.

The evolution of the automotive transmission has changed rapidly in the last decade, partly due to the advantages of highly sophisticated electronic controls.

This evolution has resulted in modern automatic transmissions that offer more control, stability, and convenience to the driver. Electronic Transmission Controls contains 68 technical papers from SAE and other international organizations written since 1995 on this rapidly growing area of automotive electronics. This book breaks down the topic into two sections. The section on Stepped Transmissions covers recent developments in regular and 4-wheel drive transmissions from major auto manufacturers, including Daimler Chrysler, General Motors, Toyota, Honda, and Ford. Technology covered in this section includes: smooth shift control automatic transmission efficiency mechatronic systems fuel saving technologies shift control using information from vehicle navigation systems fuzzy logic control. The section on Continuously Variable Transmissions presents papers that demonstrate that CVTs offer better efficiency than conventional transmissions. Technologies covered in this section include: powertrain control fuel consumption improvement development of a 2-way clutch system internal combustion engines with CVTs in passenger cars control and shift strategies CVT application to hybrid powertrains. The book concludes with a chapter on the future of electronic transmissions in automobiles.

“My book ... details the living hell that was my experience with concussions. The majority of this story was kept

from even my closest relationships. It wasn't easy, but it's time to tell it." – Dale Jr. It was a seemingly minor crash at Michigan International Speedway in June 2016 that ended the day early for Dale Earnhardt Jr. What he didn't know was that it would also end his driving for the year. He'd dealt with concussions before, but concussions are like snowflakes—no two are the same. And recovery can be brutal—and lengthy. As a third-generation driver in a family forever connected to the sport of stock-car racing, how could Dale Earnhardt Jr. sit on the sidelines and watch everyone else take their laps? It was one of the toughest seasons of his life—one that changed him forever. In this gripping narrative from one of professional sports' most beloved figures, Dale Jr. shares stories from his journey: how his career and his injury have transformed him, how he made the decision to retire at the end of the 2017 season after eighteen years behind the wheel, and what lies ahead for him in the next chapter of his life. There's no second-guessing and no regrets from Driver #88. He simply wants to go out on his own terms and make the rest of his life off the racetrack count. Junior says, "I don't want these last races to be just about me but rather the people who made my success possible: my fans, the folks who pack the grandstands rain or shine, my teammates and crew members through the years, industry colleagues, track volunteers, friends, family, sponsors. They've all played a role. I couldn't have done it without them." Phil Edmonston, Canada's automotive "Dr. Phil," pulls no punches. He says there's never been a better time to buy a new car or truck, thanks to a stronger Canadian

Are you worried about being different. Don't be. The main character in the book was different. He was adopted when he was 4 months old. He celebrated that adoption story throughout his life, along with his biological and adopted family. As an adult, the main character and his wife share their own family adoption story. Their son was adopted when he was four years old. He is different. He has his own wonderful story to tell. We are all different! It is more than okay to be different. Enjoy The Purple Turkey story about being different. It is a true story but it belongs to all of us.

Automotive retail is at crossroads--either it gets better or becomes extinct. Consumers are dissatisfied with the sales process in brick and mortar dealerships and that is the driving force behind the rise of Carvana and other industry disrupters. However, it is not too late to fix the way car dealerships operate and improve their reputation. Car Business 101 highlights irrational and counterproductive behavior that car dealers engage in on a daily basis. If you own or work in a car dealership it will be easy to recognize insanity that goes on in Sales, F&I, BDC, HR, and Parts & Service departments. This book offers a fresh perspective and plenty of practical solutions that should be implemented as soon as possible. It is informative and entertaining at the same time. It is a must read for dealer principals, dealership employees, and vendors that service car dealers.

No other Hollywood star has been so closely linked with cars and bikes, from the 1968 Ford Mustang GT Fastback he drove in Bullitt (in the greatest car chase of all time) to the Triumph motorcycle of The Great Escape.

McQueen's Machines gives readers a close-up look at the cars and motorcycles McQueen drove in movies, those he owned, and others he raced. With a foreword by Steve's son, Chad McQueen, and a wealth of details about of the star's racing career, stunt work, and car and motorcycle collecting, McQueen's Machines draws a fascinating picture of one outsized man's driving passion. Now in paperback.

372 royalty-free, black-and-white designs, ranging from 1" x 2" to 2" x 5." Frame messages and other graphics in ads, newsletters, greetings cards, and more in such eye-catching styles as Art Nouveau, classical, Art Deco, Op Art, and calligraphic. These lovely frames will add a decorative touch to almost any project.

"Bradley is sharp and rueful, and a voice for a more seasoned, constructive vision of our international relations with East Asia." --Christian Science Monitor  
James Bradley introduces us to the prominent Americans--including FDR's grandfather, Warren Delano--who in the 1800s made their fortunes in the China opium trade. Meanwhile, American missionaries sought a myth: noble Chinese peasants eager to Westernize. The media propagated this mirage, and FDR believed that supporting Chiang Kai-shek would make China America's best friend in Asia. But Chiang was on his way out and when Mao Zedong instead came to power, Americans were shocked, wondering how we had "lost China." From the 1850s to the origins of the Vietnam War, Bradley reveals how American misconceptions about China have distorted our policies and led to the avoidable deaths of millions. The China

Mirage dynamically explores the troubled history that still defines U.S.-Chinese relations today.

Brutified is a collection of poetry written by the author Robert Benefiel. The poems contained within it are from a larger cache of poems written in 2019. The pieces themselves range from narrative to abstract, bibliographical to fictionalized, allowing for a fuller range of expression and voice. What each piece carries is the idea of surviving the brutality of the world, others, and even one's self, in hopes of gaining insight and retaining one's compassion. Whether the piece is addressing the idea of finding one's own art at a junk store, or stumbling across a love note written before, but after, a lover has left them, or even watching a young midget be chased through the mall, the author never ceases to try and present the emotion and meaning at the core of each piece in a blatant yet subtle way.

First introduced in 1985, this fifth edition of the Camaro White Book has been updated and expanded to include all Camaros from the first 1967s to the last models built in 2002. It includes thousands of Camaro facts, window-sticker prices, options and option codes, exterior and interior colors and codes, production volumes, and compilations of those little details that make each model unique. Presented in a precise, year-to-year format, this book puts real expertise at the fingertips of Camaro enthusiasts. This latest Camaro White Book has increased from 128 to 160 pages and is nearly an inch taller, yet retains a convenient back-pocket or glove box size.

find themselves in such deep water they are unable to cope. Fortunately for both groups there are men and women worldwide whose job it is to extend a friendly hand. When young James Shea decided to write a book about his father's assistance work as EU representative on the paradisiacal tropical island of Jasmine he discovered that there is a world of crime and corruption very close to home. Pedro Rey, alias "the snake", is the villain. The prominent and successful businessman heads a dangerous criminal organization. Rey becomes increasingly unhappy as James' father keeps getting in his way and upsetting his plans. Gathering material for his book James finds himself plunged into Rey's world. Events escalate, featuring smuggling, kidnapping and murder.

We all want to live healthier, happier and longer lives, but too many of us are charmed by charlatans, misled by marketing or scammed by sciencey-sounding salespeople. Dr Brad McKay, Australian GP and science communicator, has seen the rise of misinformation permeate our lives and watched as many of us have turned away from health experts. Too often, we place our trust in online influencers, celebrities and Dr Google when it comes to making important health decisions. Fake Medicine explores the potential dangers of wellness warriors, anti-vaxxers, fad diets, dodgy supplements, alternative practitioners and conspiracy theories. This book is an essential tool for debunking pseudoscience and protecting you and your loved ones from the health scams that surround us. Protect your mind, body and wallet by fighting fake medicine.

A legend in the car industry reveals the philosophy that's starting to turn General Motors around. In 2001, General Motors hired Bob Lutz out of retirement with a mandate to save the company by making great cars again. He launched a war against penny pinching, office politics, turf wars, and risk avoidance. After declaring bankruptcy during the recession of 2008, GM is back on track thanks to its embrace of Lutz's philosophy. When Lutz got into the auto business in the early sixties, CEOs knew that if you captured the public's imagination with great cars, the money would follow. The car guys held sway, and GM dominated with bold, creative leadership and iconic brands like Cadillac, Buick, Pontiac, Oldsmobile, GMC, and Chevrolet. But then GM's leadership began to put their faith in analysis, determined to eliminate the "waste" and "personality worship" of the bygone creative leaders. Management got too smart for its own good. With the bean counters firmly in charge, carmakers (and much of American industry) lost their single-minded focus on product excellence. Decline followed. Lutz's commonsense lessons (with a generous helping of fascinating anecdotes) will inspire readers at any company facing the bean counter analysis-paralysis menace.

This volume presents realistic estimates for the level of fuel economy that is achievable in the next decade for cars and light trucks made in the United States and Canada. A source of objective and comprehensive information on the topic, this book takes into account real-world factors such as the financial conditions in the automotive industry, costs and benefits to consumers, and marketability of high-efficiency vehicles. The committee is composed of experts from the fields of science, technology, finance, and regulation and offers practical evaluations of technological improvements that could contribute to increased fuel efficiency. The volume also examines potential barriers to improvement, such as

high production costs, regulations on safety and emissions, and consumer preferences. This practical book is of considerable interest to car and light truck manufacturers, policymakers, federal and state agencies, and the public. This compendium of everything that's new in cars and trucks is packed with feedback from Canadian drivers, insider tips, internal service bulletins, and confidential memos to help the consumer select what's safe, reliable, and fuel-frugal.

Lemon-Aid New Cars and Trucks 2010 Dundurn

Based on recent research, this timely study analyzes projects and policies that might reduce greenhouse gas emissions and lessen the impact of automobiles on the environment. More than 20 transportation policy scenarios are studied, including the cost of parking, freeways, and fuel taxes; the deregulation of land-use policies; investment in public transportation, ride-sharing, and high-occupancy vehicle lanes; accommodation for bicycles; workplace and commuter choices; intelligent transportation systems; and new policies for heavy-duty vehicles.

This lecture attempts to tell stories through music and about music, and about the music of several cultures and times, about its effect on human experience, about the instruments and their makers in order to try and connect the present time with some of music's own roots, a cause for much reflection on the part of the lecturer.

Examines the formidable challenges facing the middle class, calling for fundamental changes while surveying the extent of the problem and identifying the people and agencies most responsible.
