

## Christopher Columbus Mariner

This historic book may have numerous typos and missing text. Purchasers can usually download a free scanned copy of the original book (without typos) from the publisher. Not indexed. Not illustrated. 1917 edition. Excerpt: ... (6) Columns for Discount on Purchases and Discount on Notes on the same side of the Cash Book; (c) Columns for Discount on Sales and Cash Sales on the debit side of the Cash Book; (d) Departmental columns in the Sales Book and in the Purchase Book. Controlling Accounts.--The addition of special columns in books of original entry makes possible the keeping of Controlling Accounts. The most common examples of such accounts are Accounts Receivable account and Accounts Payable account. These summary accounts, respectively, displace individual customers' and creditors' accounts in the Ledger. The customers' accounts are then segregated in another book called the Sales Ledger or Customers' Ledger, while the creditors' accounts are kept in the Purchase or Creditors' Ledger. The original Ledger, now much reduced in size, is called the General Ledger. The Trial Balance now refers to the accounts in the General Ledger. It is evident that the task of taking a Trial Balance is greatly simplified because so many fewer accounts are involved. A Schedule of Accounts Receivable is then prepared, consisting of the balances found in the Sales Ledger, and its total must agree with the balance of the Accounts Receivable account shown in the Trial Balance. A similar

Schedule of Accounts Payable, made up of all the balances in the Purchase Ledger, is prepared, and it must agree with the balance of the Accounts Payable account of the General Ledger." The Balance Sheet.--In the more elementary part of the text, the student learned how to prepare a Statement of Assets and Liabilities for the purpose of disclosing the net capital of an enterprise. In the present chapter he was shown how to prepare a similar statement, the Balance Sheet. For all practical...

A Taino Indian boy on the island of San Salvador recounts the landing of Columbus and his men in 1492.

The voyage of discovery, 1942. This book represents a great historian's final word on his lifelong hero.

Columbus left Spain in 1492 thinking that he could reach China by sailing west across the Atlantic Ocean. When he reached land after five weeks, he thought he had discovered a new route to the East Indies. It was not until much later that people realized

Rethinking Columbus: the next 500 years, edited by Bill Bigelow and Bob Peterson is a resource guide for teachers and community activists which includes 90 essays, poems, short stories, interviews, historical vignettes, and lesson plans that re-evaluate the legacy of Columbus.

The story of an uncovered voyage as colorful and momentous as any on record for the Age of Discovery--and of the Black mariner whose stunning accomplishment has been until now lost to history It began with a secret mission, no expenses spared. Spain, plotting to break

Portugal's monopoly trade with the fabled Orient, set sail from a hidden Mexican port to cross the Pacific--and then, critically, to attempt the never-before-accomplished return, the *vuelta*. Four ships set out from Navidad, each one carrying a dream team of navigators. The smallest ship, guided by seaman Lope Martín, a mulatto who had risen through the ranks to become one of the most qualified pilots of the era, soon pulled far ahead and became mysteriously lost from the fleet. It was the beginning of a voyage of epic scope, featuring mutiny, murderous encounters with Pacific islanders, astonishing physical hardships--and at last a triumphant return to the New World. But the pilot of the fleet's flagship, the Augustine friar mariner Andrés de Urdaneta, later caught up with Martín to achieve the *vuelta* as well. It was he who now basked in glory, while Lope Martín was secretly sentenced to be hanged by the Spanish crown as repayment for his services. Acclaimed historian Andrés Reséndez, through brilliant scholarship and riveting storytelling--including an astonishing outcome for the resilient Lope Martín--sets the record straight.

For the past three decades, many history professors have allowed their biases to distort the way America's past is taught. These intellectuals have searched for instances of racism, sexism, and bigotry in our history while downplaying the greatness of America's patriots and the achievements of "dead white men." As a result, more emphasis is placed on Harriet Tubman than on George Washington; more about the internment of Japanese Americans during World War II than about D-Day or Iwo Jima; more on the dangers we faced from Joseph McCarthy than those we faced from Josef Stalin. *A Patriot's History of the United States* corrects those doctrinaire biases. In this groundbreaking book, America's discovery, founding, and development are reexamined with an appreciation for the elements of public virtue,

personal liberty, and private property that make this nation uniquely successful. This book offers a long-overdue acknowledgment of America's true and proud history.

In this Second Edition of this radical social history of America from Columbus to the present, Howard Zinn includes substantial coverage of the Carter, Reagan and Bush years and an Afterword on the Clinton presidency. Its commitment and vigorous style mean it will be compelling reading for under-graduate and post-graduate students and scholars in American social history and American studies, as well as the general reader.

Relates how Columbus lobbied in three countries for financial support for his journey to find a route to Asia and changed the course of history when he encountered the New World

The life and times of one of the world's greatest navigators. Join Columbus on his famous voyage as he struggles against muddled maps, mutiny, his sailors' fear of sea monsters, and the common belief that the world was flat and that he and his crew were going to "sail over the edge".

Twenty-one works from "one of the most brilliant, innovative, and eloquent writers on earth," including the award-nominated novella *Mefisto* in *Onyx* (Publishers Weekly). Harlan Ellison celebrates four decades of writing and publishes his seventieth book, this critically acclaimed, wildly imaginative, and outrageously creative collection. The Edgar Award-nominated novella *Mefisto* in *Onyx* is the centerpiece, surrounded by screenplays, an introduction by the author, interspersed segments of autobiographical narrative, and such provocatively titled entries as "The Man Who Rowed Columbus

Ashore,” “Anywhere But Here, With Anybody But You,” “Crazy As a Soup Sandwich,” “Chatting With Anubis,” “The Dragon on the Bookshelf,” (written in collaboration with Robert Silverberg), “The Dreams a Nightmare Dreams,” “Pulling Hard Time,” and “Midnight in the Sunken Cathedral.”

Documents a 2002 underwater expedition during which a pair of German journalists and amateur divers analyzed the oldest shipwreck ever found in the western hemisphere, a ship believed to be one used by Christopher Columbus on a western-route voyage to the New World. Reprint.

CHBiographies

The Year is 1500. Christopher Columbus, stripped of his title Admiral of the Ocean Seas, waits in chains in a Caribbean prison built under his orders, looking out at the colony that he founded, nurtured, and ruled for eight years. Less than a decade after discovering the New World, he has fallen into disgrace, accused by the royal court of being a liar, a secret Jew, and a foreigner who sought to steal the riches of the New World for himself. The tall, freckled explorer with the aquiline nose, whose flaming red hair long ago turned gray, passes his days in prayer and rumination, trying to ignore the waterfront gallows that are all too visible from his cell. And he plots for one great escape, one last voyage to the ends of the earth, one final chance to prove himself. What follows is one of history's most epic -- and forgotten -- adventures. Columbus himself would later claim that his fourth voyage was his greatest. It was without doubt his most treacherous. Of the four ships he led into the unknown, none returned. Columbus would face the worst storms a European explorer had ever encountered. He would

battle to survive amid mutiny, war, and a shipwreck that left him stranded on a desert isle for almost a year. On his tail were his enemies, sent from Europe to track him down. In front of him: the unknown. Martin Dugard's thrilling account of this final voyage brings Columbus to life as never before—adventurer, businessman, father, lover, tyrant, and hero.

He knew nothing of celestial navigation or of the existence of the Pacific Ocean. He was a self-promoting and ambitious entrepreneur. His maps were a hybrid of fantasy and delusion. When he did make land, he enslaved the populace he found, encouraged genocide, and polluted relations between peoples. He ended his career in near lunacy. But Columbus had one asset that made all the difference, an inborn sense of the sea, of wind and weather, and of selecting the optimal course to get from A to B. Laurence Bergreen's energetic and bracing book gives the whole Columbus and most importantly, the whole of his career, not just the highlight of 1492. Columbus undertook three more voyages between 1494 and 1504, each designed to demonstrate that he could sail to China within a matter of weeks and convert those he found there to Christianity. By their conclusion, Columbus was broken in body and spirit, a hero undone by the tragic flaw of pride. If the first voyage illustrates the rewards of exploration, this book shows how the subsequent voyages illustrate the costs—political, moral, and economic. A noted historian and navigator relates the story of the accomplished seaman who sailed west to the New World.

In *Empire's Crossroads*, Carrie Gibson offers readers a vivid, authoritative and action-packed history of the Caribbean. For Gibson, everything was created in the West Indies: the Europe of today, its financial foundations built with sugar money: the

factories and mills built as a result of the work of slaves thousands of miles away; the idea of true equality as espoused in Saint Domingue in the 1790s; the slow progress to independence; and even globalization and migration, with the ships passing to and fro taking people and goods in all possible directions, hundreds of years before the term 'globalization' was coined. From Cuba to Haiti, from Dominica to Martinique, from Jamaica to Trinidad, the story of the Caribbean is not simply the story of slaves and masters - but of fortune-seekers and pirates, scientists and servants, travellers and tourists. It is not only a story of imperial expansion - European and American - but of global connections, and also of life as it is lived in the islands, both in the past and today.

Sheds new light on the life, times, and legacy of Christopher Columbus, answering questions about his voyages, the myths surrounding him, and his impact on world history

Describes the voyages and discoveries of Christopher Columbus and John Cabot and how their rivalry threatened the diplomatic balance that existed in Europe.
