

## Christopher Gabbitas Choir

One of the rarest country songbooks, it contains 222 pieces, mostly folktune settings, dating from the time between the Revolution and the Civil War. This facsimile reprinting has appendices useful for the study of its sources and an introduction that throws light on the men who wrote for nineteenth-century American songsters.

A solo, for French Horn, composed by Camille Saint-Saëns.

Vols. 1-26 include a supplement: The University pulpit, vols. [1]-26, no. 1-661, which has separate pagination but is indexed in the main vol.

Success does not usually equate with death-- unless you happen to be novelist Charlie Forte. When Charlie receives the largest book advance of his career, he comes to two conclusions: He is a shit, and he is going to kill himself. But, a stone garden wall and twenty-four women cause him to experience what he likes to call *planus interruptus*. Charlie experiences the women in his life through the music he associates with them. The Music of Women is a cautionary tale for all men who would be seduced by the ageless siren song of women.

Exercises are drawn from the Conducting Primer: Seven Principles of Choral Conducting

Following the success of Horace's Odes and the Mystery of Do-Re-Mi in which he proposed that Horace's Odes were truly *carmina* (songs), Stuart Lyons further explores the orality of the Odes in both the Augustan Age and their early medieval reception. Challenging the perception of the Odes as purely literary works and drawing on extensive evidence in Horace and other ancient sources, Lyons argues that Horace's objective was to produce a unique type of performance art, a Latin re-interpretation of Greek lyric song to entertain the Roman elite. In post-Carolingian manuscripts, there are several instances of musical notation for the Odes. Some was to help students articulate their Latin, but other notation records performance works. Lyons shows that the arrangement for the Ode to Phyllis in the Montpellier manuscript and Guido d'Arezzo's do-re-mi mnemonic share a common ancestor. The long-hidden St Petersburg codex is a virtual songbook with sixteen melodies reflecting secular as well as monastic traditions. These and other manuscripts provide persuasive evidence that Horace was sung for entertainment as well as teaching. While there is no provable link between early medieval performance and Horace's own practice, Lyons argues that the Horace of the Odes was a musical innovator, songwriter and entertainer, as well as a literary craftsman, and sang much of his lyric poetry to the accompaniment of his own lyre. With 50 illustrations, 12 colour plates and a comprehensive set of indexes this book will stimulate and inform both classicists and musical historians. Stuart Lyons was senior Classics scholar at King's College, Cambridge.

(String Solo). The expressive, personal music of John Harbison has been highly acclaimed and his style is a fitting match for the rich resonance of the unaccompanied cello. This 4-movement suite was written in 1994 and first performed at the PAC at SUNY in September of that year.

This work has been selected by scholars as being culturally important and is part of the knowledge base of civilization as we know it. This work is in the public domain in the United States of America, and possibly other nations. Within the United States, you may freely copy and distribute this work, as no entity (individual or corporate) has a copyright on the body of the work. Scholars believe,

and we concur, that this work is important enough to be preserved, reproduced, and made generally available to the public. To ensure a quality reading experience, this work has been proofread and republished using a format that seamlessly blends the original graphical elements with text in an easy-to-read typeface. We appreciate your support of the preservation process, and thank you for being an important part of keeping this knowledge alive and relevant.

**THE STORY:** When Henrietta Leavitt begins work at the Harvard Observatory in the early 1900s, she isn't allowed to touch a telescope or express an original idea. Instead, she joins a group of women "computers," charting the stars for a renowned astronomer who calculates projects in "girl hours" and has no time for the women's probing theories. As Henrietta, in her free time, attempts to measure the light and distance of stars, she must also take measure of her life on Earth, trying to balance her dedication to science with family obligations and the possibility of love. The true story of 19th-century astronomer Henrietta Leavitt explores a woman's place in society during a time of immense scientific discoveries, when women's ideas were dismissed until men claimed credit for them. Social progress, like scientific progress, can be hard to see when one is trapped among earthly complications; Henrietta Leavitt and her female peers believe in both, and their dedication changed the way we understand both the heavens and Earth.

Koji Kondo's Super Mario Bros. (1985) score redefined video game music. With under three minutes of music, Kondo put to rest an era of bleeps and bleeps-the sterile products of a lab environment-replacing it with one in which game sounds constituted a legitimate form of artistic expression. Andrew Schartmann takes us through the various external factors (e.g., the video game crash of 1983, Nintendo's marketing tactics) that coalesced into a ripe environment in which Kondo's musical experiments could thrive. He then delves into the music itself, searching for reasons why our hearts still dance to the "primitive" 8-bit tunes of a bygone era. What musical features are responsible for Kondo's distinct "Mario sound"? How do the different themes underscore the vastness of Princess Peach's Mushroom Kingdom? And in what ways do the game's sound effects resonate with our physical experience of the world? These and other questions are explored within, through the lens of Kondo's compositional philosophy-one that would influence an entire generation of video game composers. As Kondo himself stated, "we [at Nintendo] were trying to do something that had never been done before." In this book, Schartmann shows his readers how Kondo and his team not just succeeded, but heralded in a new era of video games.

When Peterhouse School opened in 1955, the British Empire in Africa was still intact and the Federation of Rhodesia and Nyasaland had just come into being. It was a boarding school founded on the British model, but with the intention that it would 'adapt all that is best in the Public School tradition to African conditions'. The story of Peterhouse is not only about work and sport, music and drama, chapel and syllabus changes. It is set in the context of educational development and political changes in a Southern Africa country. The school became a pioneering multi-racial institution in 'white Rhodesia'; shared the sufferings of the country during the 'bush war'; expanded greatly in the new Zimbabwe, survived the contradictions of a black 'Marxist' government, and has kept its firm commitment to being a 'Church School'. Despite the uncertainties and challenges of the new century, this is a story of faith and vision.

Here is what the experts are saying:"Donald Brinegar's deeply scholarly, highly original "Pitch Perfect" is the result of his life-long study and practice of choral tuning. His decades of workshops on this topic have become legendary and his book details numerous areas of theoretical

and practical means that form the basis of his approach, including various tuning systems, scales and modes, tetrachords and the medieval hexachordal system, acoustics, text study, rehearsal techniques and many others, all carefully organized through a system of nested hierarchies grouping related topics. Brinegar then applies his theories to a number of specific compositions from the Renaissance to the present day. "Pitch Perfect" is an essential book for the library of all choral conductors, written by an esteemed choral master." -- Dr. Morten Lauridsen, Composer, University Professor, USC, National Medal of Arts Recipient, 2007. "Pitch Perfect brilliantly combines two of Don Brinegar's lifelong loves - teaching and the art of comprehensive score preparation. He connects a wide variety of important technical data, puts it in his "teacher centrifuge," and the result is a unique and fresh new perspective on musical nature, with practical application to conducting, score analysis, and performance. Serious emerging and seasoned conductors need a copy of this book!" Dr. Z. Randall Stroope, Composer and University Professor "My musical life changed when I discovered that the major third my tenors were singing at the final cadence of a Renaissance motet WERE in tune, but it was in tune to a different tuning system than the tempered piano. THANK YOU maestro Brinegar for sharing your tuning system with me more than twenty years ago and codifying it in "Pitch Perfect." The tuning system outlined in this new book (with historical musical examples from major composers) is cellular, functional, historical, lunar, mathematical, musical, natural, over-tonal, partial, philosophical, practical, scientific, solar, spiritual, tetra-chordal, under-tonal, hexa-chordal, and visual. Vocal colors emerge from a natural system of balancing and tuning chords. Functional and helpful conducting gestures suggest themselves from an understanding of the tuning hierarchy. Sharing this tuning system with my singers enabled them to sing more beautifully, more balanced, more resonant, and more expressive than ever before, and has influenced all of my compositions. "Pitch Perfect" WORKS!" Dr. Ronald Kean, Composer and Professor Emeritus. "Don is a master teacher. Over the years many of us have been greatly influenced by his work through his choirs, his choral adjudications, and in his classroom. In this book, Don eloquently and systematically explains his "principles and foundations" for improved intonation through his words and numerous musical examples. This book is a compilation of his lifetime journey of listening, learning, reflecting, and teaching--as if you were sitting in his classroom or speaking to you personally." Dr. J. Edmund Hughes, University Professor of Choral Studies. "I have been singing out of tune with nature. This one idea made me want to dig deeper into this book and not put it down. As a choral singer and a conductor, this book is changing how I hear, how I rehearse, and how I sing. What a journey! Thank you, Don, for sharing your knowledge and your life-long love of choral beauty." Jenny Tisi, Choral Director and Vocalist. "A big thank you to Donald Brinegar for this magnificent gift to the music community. The intellectual rigor of addressing this comprehensive subject is astounding. Professor Sigrig Johnson, Renowned Choral Conductor. Coming Soon!!! The Teacher's Companion to Pitch Perfect A Theory and Practice of Choral Intonation gives step by step lesson plans for the implementation of Pitch Perfect. Lesson plans include material for: Theory classes, Choral Seminars, Choral Rehearsals, Master Classes, and Conference Presentations This is a superbly entertaining overview of the Church of England over the last fifty years. The image of Sung Evensong may seem timeless, but the patterns of Anglican worship have changed continuously. Beginning with the great Victorian modernisers who stamped their taste on music as much as church buildings, we are taken on a memorable and entertaining musical tour that takes in: the impact of the Wesleys, the publication of "Hymns Ancient & Modern", the great organ builders, Willis and Walker, Vaughan Williams and the "English Hymnal", the Royal School of Church Music, The hymn writing explosion and the electronic age. All this and more presented here in Trevor's inimitable and sharply observant style.

This annual publication is the ideal reference for families relocating to the UK, or who would like their child to attend a boarding school there.

Compiled by Gabbitas Educational Consultants, the foremost authority in this field, this is definitive guidance for parents considering private education in Britain. With a fully searchable directory of over 2,200 schools classified by area, religion, sex and special needs, it offers parents expert advice on all stages of education including university entry and careers.

Index ecclesiasticus; or, Alphabetical lists of all ecclesiastical dignitaries in England and Wales since the reformation. Containing 150,000 hitherto unpublished entries from the bishops' certificates of institutions to livings, etc., now deposited in the Public record office, and including those names which appear in Le Neve's 'Fasti.'

'A delight to read' Philip Pullman 'Essential reading ... a genuine landmark publication' Tom Service A BBC Radio 4 'Book of the Week' The music of the British composer Michael Tippett - including the oratorio A Child of Our Time, five operas, and four symphonies - is among the most visionary of the twentieth century. But little has been written about his extraordinary life. In this long-awaited first biography, Oliver Soden weaves a century-spanning narrative of epic scope and penetrating insight. Soden has discovered troves of unpublished letters and manuscripts, and recorded moving interviews with Tippett's friends and colleagues. He paints a portrait of a powerful intellect and infectious personality: charming, stubborn, and great fun. But he also uncovers the sorrows and secrets that Tippett stowed away beneath his cheerfulness, not least the darker reaches of some tempestuous and often tragic love affairs. Soden's achievement is to have enriched our understanding not only of Tippett but of his times. Figures such as T.S. Eliot, E.M. Forster, Barbara Hepworth, and W.H. Auden jostle in the cast list. An Edwardian world of gaslight and empire cedes to turmoil and warfare; one startling revelation is the extent of Tippett's involvement in the fiery left-wing politics of the 1930s. The narrative roves from the mining villages of the north, blighted by unemployment, to a cell at Wormwood Scrubs, where Tippett was imprisoned as a conscientious objector. Later chapters uncover his operas' game-changing attitudes to gay and civil rights, against a backdrop of the Cold War and the Space Race. And singing from the page comes the music, through which Soden charts an exquisitely written course, offering lucid readings of Tippett's most famous works while resuscitating forgotten masterpieces. The result is a landmark in the study of twentieth-century culture, simultaneously an astonishing feat of scholarship and a story as enthralling as in any great novel.

Organ and piano duet teams will appreciate Billie Nastelin's skillful arrangement of the beautiful "How Lovely Is Thy Dwelling Place" from the Brahms Requiem. Each player has opportunities with both melody and accompaniment, and congregations and audiences will request this over and over. Two copies of the music are included. Also arranged for organ/piano duet by Nastelin: "And the Glory of the Lord," from Messiah (GOPD9901),

A Vintage Shorts "Short Story Month" Selection The Wizard, the greatest inventor in history, can make anything. His machines capture light, motion, and sound. So what's going on in The Box, the most secret, most mysterious room in the Wizard's bustling labs? When the staff librarian decides to find out, he stumbles upon a new realm of invention and

sensation that will leave the world irreparably changed. "The Wizard of West Orange" is Pulitzer Prize-winner Steven Millhauser's incantatory reimagining of Thomas Edison's work, from the dazzling collection *Dangerous Laughter*. An eBook short.

World-famous, Estonian-born composer Arvo Pärt is a unique voice in today's music. From his own extensive experience of working with Pärt, Paul Hiller here provides the first full-length study of the composer's music. - ;The music of the Estonian-born composer Arvo Pärt is a unique and powerful voice in the contemporary world. Using a tonal idiom based on a mixture of scales and triads, Pärt created a style that he calls 'tintinnabuli'. Listening to it, one is reminded of the passionate tranquillity of some Russian icon, or of certain memorable scenes in the films of Andrei Tarkovsky. In this book, the first full-length study of Pärt, Paul Hillier explores the tintinnabuli works in considerable depth. He also examines the music of Pärt's earlier, somewhat neglected serial period, and charts the composer's steady evolution towards the 'abstract tonality' of his later years. In addition, a biographical chapter and discussion of topics such as Russian Orthodox spirituality, minimalism, and the influence of early music, combine to make this a substantial introduction to Pärt's music. Hillier also draws on his own experience of working with the composer to offer thoughts on various performance issues. -

No doubt the most well-known of all 16th century madrigals, this easy arrangement includes a supportive optional accompaniment that provides added confidence for ensembles that may find it helpful. Whether sung as part of a madrigal dinner or programmed on a spring concert, this is music that would be a welcome addition to any choral program.

This collection is filled with songs that tell of the pleasures and pains of love, the patterns of the countryside and the lives of ordinary people.

Here are unfaithful soldiers, ghostly lovers, whalers on stormy seas, cuckolds and tricksters. By turns funny, plain-speaking and melancholic, these songs evoke a lost world and, with their melodies provided, record a vital musical tradition. Generations of inhabitants have helped shape the English countryside - but it has profoundly shaped us too. It has provoked a huge variety of responses from artists, writers, musicians and people who live and work on the land - as well as those who are travelling through it. English Journeys celebrates this long tradition with a series of twenty books on all aspects of the countryside, from stargazey pie and country churches, to man's relationship with nature and songs celebrating the patterns of the countryside (as well as ghosts and love-struck soldiers).

British education is recognized worldwide for its excellent academic standards and tradition of welcoming overseas students. This annual publication is the ideal reference for families relocating to the UK, or who would like their child to attend a boarding school there. It provides the detailed information parents need to make a fully informed choice, including: \* Extensive indices for over 2,000 schools, classified by county, religious \* affiliation, sex, provision for dyslexia plus details of specialist schools; \* School fee planning, plus details of scholarships, bursaries and other awards; GCSEs, A Levels, Scottish examinations, GNVQs and the International Baccalaureate Guidance. The guide also includes a parent's guide to the sixth form and beyond, including university entry and careers, detailed profiles of over 200 schools and colleges and useful addresses and associations.
