Global Hong Kong locates Hong Kong in the contemporary globalizing world. Hong Kong, as the authors argue, is an archetypal place, sitting at the intersection of East and West. It is also a major center for global capital flows and world trade. Moreover, in recent years, the island's global cultural power has become increasingly evident, as Hong Kong popular culture has spread to the West via a booming film industry. While looking at issues of postcoloniality, transnationalism and economic globalization, Wong and McDonogh focus on the new cultures and social formations of contemporary Hong Kong, as well as the transformation of the physical city itself. They also trace the new interconnections - economic, demographic, social and cultural - between Hong Kong and other parts of the world that have been fostered by globalization. Books in this series look at how nations and regions across the world are navigating the tumultuous currents of globalization. Concise, descriptive, interdisciplinary, and theoretically informed, they serve as ideal introductions to the peoples and places of our increasingly globalized world.

This thoroughly researched study provides an invaluable account of Hong Kong's political evolution from its founding as a British colony to the present. Exploring the interplay between colonial, capitalist, communist, and democratic forces in shaping Hong Kong's political institutions and culture, Suzanne Pepper offers a fresh perspective on the territory's development and a gripping account of the transition from British to Chinese rule. The author carries her narrative forward through the lives of significant figures, capturing the personalities and issues central to understanding Hong Kong's political history. Bringing a balanced view to her often contentious subject, she places Hong Kong's current partisan debates between democrats and their opponents within the context of China's ongoing search for a viable political form. The book considers Beijing's increasing intervention in local affairs and focuses on the challenge for Hong Kong's democratic reformers in an environment where ultimate political power resides with the communist-led mainland government and its appointees.

Many police departments report difficulties in creating a workforce that represents community demographics, is committed to providing its employees the opportunity for long-term police careers, and effectively implements community policing.
