"HELP! My Students Can't Write!" Why You Need a Writing Revolution in Your Classroom and How to Lead It. The Writing Revolution (TWR) provides a clear method of instruction that you can use no matter what subject or grade level you teach. The model, also known as The Hochman Method, has demonstrated, over and over, that it can turn weak writers into strong communicators by focusing on specific techniques that match their needs and by providing them with targeted feedback. Insurmountable as the challenges faced by many students may seem, TWR can make a dramatic difference. And the method does more than improve writing

skills. It also helps: Boost reading comprehension Improve organizational and study skills Enhance speaking abilities Develop analytical capabilities TWR is as much a method of teaching content as it is a method of teaching writing. There's no separate writing block and no separate writing curriculum. Instead, teachers of all subjects adapt the TWR strategies and activities to their current curriculum and weave them into their content instruction. But perhaps what's most revolutionary about the TWR method is that it takes the mystery out of learning to write well. It breaks the writing process down into manageable chunks and then has students practice the chunks they need, repeatedly, while also learning content.

Real Reading and Writing puts both reading skills and writing skills in a real-world context, showing students that good writing, reading, and thinking skills are both achievable and essential to their success in college and beyond. Miriam Moore, a developmental and ESL specialist from Lord Fairfax Community College, collaborated with Susan Anker to provide students with an integrated reading and writing package. Students connect reading and writing with their real lives through practical examples, model writing samples, and readings that are both engaging and relevant to their lives. To keep students from getting overwhelmed, the book focuses first on the most important concepts in each area, such as the Four Basics of the Reading and Writing Process; Four Basics of each rhetorical strategy; the Four Most Serious Errors in the grammar section; and the academic skills of summary, analysis, and synthesis. This edition can be packaged with LaunchPad Solo for Real Reading and Writing, which includes LearningCurve, the adaptive online quizzing program with immediate feedback that 95% of students surveyed recommend to their peers. Additional online multiple-choice grammar exercises offer even more practice on the grammar concepts students find most challenging.
