In 1327 the London Goldsmith's Company was incorporated and undertook the responsibility from that time for the assay and marking of plate. To further safeguard the public against poor quality wares and to revise and consolidate the existing legislation, dating back to the fourteenth century, parliament set up a Select Committee to investigate this trade in 1856. The resultant report and evidence provides an invaluable account of the operation of the assay system in England, Scotland and Ireland, and detailed appendices of trade statistics. Later in the century other Select Committees investigated the effects of duties on gold and silver wares trade and the value of compulsory assay and marking. A special feature of the report is the evidence dealing with the origins and functions of the Goldsmith's Company. -- Publisher's catalogue.

What has happened to the news? Over the past decade, there has been a major shift in newspaper coverage. Many newspaper executives, paring costs and badly misreading public appetites, have cut back dramatically on all types of public-affairs reporting. Fewer reporters than ever are assigned to the statehouse or the White House, to city hall or foreign capitals. Too often celebrity gossip and movie tips take the place of serious journalism instead of existing alongside it. Newspapers once operated under a mandate to provide the kinds of news that citizens need to function in a democratic society, but many corporations have changed that mandate. For more than two years, legendary editor Gene Roberts led a group of journalists in an unprecedented study of the newspaper industry for the American Journalism Review. This is the second volume of their findings. The first, Leaving Readers Behind: The Age of Corporate Newspapering, documented the storm of buying, selling, and consolidation that is transforming the American press. This second volume explores the consequences of these changes for ordinary communities and for the nation, arguing that they place democracy itself in peril. Contributors include Peter Arnett, Mary Walton, Charles Layton, John Herbers, James McCartney, Carl Sessions Stepp, Lewis M. Simons, Chip Brown and Winnie Hu.

This book focuses on the KMT's reputation for economic management, democratization, and good leadership that made its return to power in 2008 possible. The opposition Democratic Progressive Party's corruption was also a factor. The KMT seems ready to continue to rule for some time suggesting short turnovers in ruling parties unlikely."
