Within the Frame is a book about finding and expressing your photographic vision, specifically where people, places, and cultures are concerned. A personal book full of real-world wisdom and incredible images, author David duChemin (of pixelatedimage.com) shows you both the how and the why of finding, chasing, and expressing your vision with a camera to your eye.

Vision leads to passion, and passion is a cornerstone of great photography. With it,

photographs draw the eye in and create an emotional experience. Without it, a photograph is often not worth—and can't capture—a viewer's attention. Both instructional and inspirational, *Within the Frame* helps you on your photographic journey to make better images of the places and people you love, whether they are around the world or in your own backyard. duChemin covers how to tell stories, and the technology and tools we have at our disposal in order to tell those narratives. Most importantly, he stresses the crucial theme of vision when it comes to photographing people, places, and cultures—and he helps you cultivate and find your own vision, and then fit it within the frame.

The first monograph bringing together all the projects of this now leading architectural firm. 5+1 Architetti Associati was founded in Genoa in 1995. Having gradually built up an interdisciplinary team around the central importance of the project, this architecture practice faces the challenges of the city—its obsolescence and renewed vitality—by tackling the transformation of the real. This involves pursuing unusual actions such as dialoguing with the banal and the ugly or exploring the aesthetics of poverty and the ethics of perception. Their focus on the public and the social, its contemporary languages and related crossovers, creates horizons in which architecture is often expressed as a bringing together of actions and responses, all aimed at experimenting with the real. Special attention is paid to the subtle boundaries separating public and private, open space and enclosure, regional area becoming city and city lost in outskirts.

Three great novels in one volume from the worldwide bestseller, Michael Connelly. The Overlook sees Harry Bosch plunged into the dangerous world of international terrorism. When a physicist is murdered in LA it seems the killer has no fear of publicity, leaving the body on The Mulholland overlook, a site with a stunning view over the city. And when it's discovered that the victim turned over a quantity of a lethal chemical to his killer before he died, Harry knows he has more than just a single death to worry about. Alongside the forces of Homeland Security, Harry realizes he must solve the murder or face unimaginable consequences. In Nine Dragons, the shooting of a Chinese liquor store owner in LA brings Harry Bosch back to the Rodney King riots and the moment a stranger gave a young cop sanctuary. Now, the debt must be repaid, and Harry soon discovers the old man's death was no ordinary holdup. Homing in on clues disregarded by the cops on the scene, Harry builds a picture of corruption and intimidation, with the local Triads at the heart of it. But as he tries to build a case and breach the impenetrable wall of silence in the local community, he finds he is taking a dragon by the tail - a dragon whose talons reach well beyond LA, and even the States. Suddenly the most precious thing in Harry's life is under threat, and he will need to leave the familiarity of his home turf, alone and without backup, if he is going to stop his worst nightmare from happening. Harry Bosch is facing the end of the line in The Drop. He's been put on the Deferred Retirement Option Plan - and given three years before his retirement is enforced. Seeing the end of the mission coming, he's anxious for cases. He doesn't have to wait long. First a cold case gets a DNA hit for a rape and murder which points the finger at a 29-year-old convicted rapist who was only eight at the time of the murder. Then a city councilman's son is found dead

- fallen or pushed from a hotel window - and he insists on Bosch taking the case despite the two men's history of enmity. The cases are unrelated but they twist around each other like the double helix of a DNA strand. One leads to the discovery of a killer operating in the city for as many as three decades; the other to a deep political conspiracy that reached back into the dark history of the police department.

On a warm September night in 2002, former acquaintances Alexis Maybank and Alexandra Wilkis reconnected at a mixer for new students at Harvard Business School. Alexis had just ended a four-year run at eBay during the dotcom boom and bust. Alexandra had just spent three years as an investment banker at Merrill Lynch. Now they were entering the country's top training ground for future titans of Wall Street and the Fortune 500. Little did either suspect that five years later, they'd become famous not in finance or consulting or corporate management, but at the bleeding-edge intersection of fashion and technology. Gilt Groupe – launched by Alexis, Alexandra, and three colleagues in 2007 – is one of the most

fascinating startups of recent years, with a valuation of more than \$1 billion. And it all began with one bold idea: to bring sample sales online and change the way millions shop. As Alexis and Alexandra write about the day Gilt.com went live: “We had created a website that could potentially change the rules of retail, for both shoppers and brands. If shopping was traditionally a slow, leisurely activity that might consume an entire day, it would now be competitive, addictive, urgent, thrilling—a rush delivered at the same time each day. Shopping would become not just easier, but so much fun.” But turning that vision into reality wasn’t easy. Designers had long controlled their own sample sales by staging them in anonymous, makeshift locations and strictly limiting invitations. Those lucky enough to hear about a Marc Jacobs or Hermès sample sale would drop everything and run for dramatic, fleeting bargains. Why should elite brands support a new startup trying to replicate the experience online? And even if brands like Valentino, Christian Louboutin, and Zac Posen got on board, would shoppers embrace such a website? Would the kind of people who love high-end fashion really visit a new online sale each day? Was “accessible luxury” a breakthrough idea or an absurd oxymoron? Alexis and Alexandra share their perspective in this dramatic story of Gilt’s birth, rise, and evolution. They show how they juggled the conflicting needs of their suppliers, engineers, marketers,

and potential investors. They explain how they blended their individual strengths and weaknesses and managed their rapidly growing team. They cover the growing pains of expanding into new categories like housewares, travel, and menswear. And they take us through the darkest moments of the recession when Gilt might easily have died. As you'll learn from the true story of Gilt, anything is possible for those with the creativity to recognize a new opportunity and the perseverance to make it real.
