Based on extensive analysis of real-time, authentic crisis encounters collected in the UK and US, *Crisis Talk: Negotiating with Individuals in Crisis* sheds light on the relatively hidden world of communication between people in crisis and the professionals whose job it is to help them. The crisis situations explored in this book involve police hostage and crisis negotiators and emergency dispatchers interacting with individuals in crisis who threaten suicide or self-harm. The practitioners face various communicative challenges in

these encounters, including managing strong emotions, resistance, hostility, and unresponsiveness. Using conversation analysis, Crisis Talk presents evidence on how practitioners deal with the interactional challenge of negotiating with people in crisis and how what they say shapes outcomes. Each chapter includes recommendations based on the detailed analysis of numerous cases of actual negotiation. Crisis Talk shows readers how every turn taken by negotiators can exacerbate or solve the communicative challenges created by crisis situations, making it a unique and invaluable text for academics in psychology, sociology, linguistic sciences, and related fields, as well as for practitioners engaging in crisis negotiation training or fieldwork.

Blast Your Way to Conversation Success!ESL Conversation Rocket helps students build a solid foundation for conversational English using grammar skills. This book was written by a teacher specifically for beginners and low-level learners. Throughout the book, students use their understanding of simple grammar points, as well as their personal life experiences, to have real, authentic conversations in English. The problem with many other ESL conversation books is that there is no scaffolding. Students are expected to just "talk." Now, imagine teaching a child to ride a bike without training wheels; the experience would be frustrating and painful. Herein lies the key to effective English conversation instruction: scaffolding! Just as children need training wheels to ride a bike, students need scaffolding to master conversation. Each unit of ESL Conversation Rocket is scaffolded using a simple and easily accessible grammar skill as a starting point. From there, students utilize an understanding of this grammar skill to build competence in conversation. Each unit is equipped with six student-centered exercises which gradually build in difficulty. The units

The updated edition of the bestselling book that has changed millions of lives with its insights into the growth mindset "Through clever research studies and engaging writing, Dweck illuminates how our beliefs about our capabilities exert tremendous influence on how we learn and which paths we take in life."—Bill Gates, *GatesNotes*

After decades of research, world-renowned Stanford University psychologist Carol S. Dweck, Ph.D., discovered a simple but groundbreaking idea: the power of mindset. In this brilliant book, she shows how success in school, work, sports, the arts, and almost every area of human endeavor can be dramatically influenced by how we think about our talents and abilities. People with a fixed mindset—those who believe that abilities are fixed—are less likely to flourish than those with a growth mindset—those who believe that abilities can be developed. *Mindset* reveals how great parents, teachers, managers, and athletes can put this idea to use to foster

outstanding accomplishment. In this edition, Dweck offers new insights into her now famous and broadly embraced concept. She introduces a phenomenon she calls false growth mindset and guides people toward adopting a deeper, truer growth mindset. She also expands the mindset concept beyond the individual, applying it to the cultures of groups and organizations. With the right mindset, you can motivate those you lead, teach, and love—to transform their lives and your own. This book is packed with more than 1,000 conversation questions spanning 100 topics and is targeted towards intermediate or advanced ESL or EFL students. It is designed with one goal in mind, to provide you with a wealth of easy to use conversation questions for ESL and EFL teachers.

In the vein of *The Glass Castle*, *Breaking Night* is the stunning memoir of a young woman who at age fifteen was living on the streets, and who eventually made it into Harvard. Liz Murray was born to loving but drug-addicted parents in the Bronx. In school she was taunted for her dirty clothing and lice-infested hair, eventually skipping so many classes that she was put into a girls' home. At age fifteen, Liz found herself on the streets. She learned to scrape by, foraging for food and riding subways all night to have a warm place to sleep. When Liz's mother died of AIDS, she decided to take control of her own destiny and go back to high school, often completing her assignments in the hallways and subway stations where she slept. Liz squeezed four years of high school into two, while homeless; won a New York Times scholarship; and made it into the Ivy League. *Breaking Night* is an unforgettable and beautifully written story of one young woman's indomitable spirit to survive and prevail, against all odds.

Students regularly comment on how useful the dialogues are and always request more, which is why there are more dialogues on the way.

The purpose of this study was to identify what were Taiwanese University English as a Foreign Language (EFL) learners' perceptions about learning communication strategies. This study collected qualitative data about students' beliefs and attitudes as they learned communication strategies. The

research question guiding the study was: What are Taiwanese University EFL learners' perceptions about learning communication strategies? Twenty-four university students were trained for 10 weeks to use strategies in Faerch and Kasper's (1983a) taxonomy, and seven volunteers were interviewed. None of the students majored in English but were enrolled in a required Basic English course in a Freshman English Non-Majors' (FENM) program in Agriculture College at Tunghai University. In the middle and at the end of the training period, participants were interviewed and videotaped for 90 minutes. The results were displayed clearly with details in Chapter four. In Chapter five, significant themes associated with topic avoidance (1.), message abandonment (2.), meaning replacement (3.), interlanguage (4.), and cooperation (5.) strategies, mentioned by seven participants were revealed through the constant method of analysis. They were comprehension, politeness, intentionality, native language, face-saving (losing-face), interlanguage system, time-saving, and keywords. Chapter six includes a summary of this study, further discussions for the important issues mentioned by previous studies of this field and by participants of this research, and at the end, several important issues recommended as topics for further studies. The issues suggested to readers for future researches were variables in the learners and

trainers, students' acceptance level of non-native like language, training pedagogies, the relationship between English proficiency and using strategy, the correlation between gender and strategy, communication strategy in a working situation, and examples through the interlanguage strategy.

teacher. The structure of the lessons is modular, with clear and obvious steps to take. Everything starts with the teacher's preparation work. Depending on the students' ability, topics might need a quick worksheet or short classroom activity at the start of the lesson, and you will need to set aside time to devise this. The purpose of each lesson is for students to gain confidence and increase their vocabulary by talking about different topics. If they are unsure about what to do, this might mean introductory work is needed first. I have taught classes with anything up to twenty students using these materials. The lessons are easy to adapt depending on your classroom size and level. For example, with a large class you can encourage smaller groups to discuss topics together and then ask students to share their ideas with the whole class. Be aware of students' sensitivities. Some students may be a little nervous about expressing their opinions and emotions in front of the class. However, over time, they will come to realize that everyone else feels the same and their confidence will improve.

Written by a team of experienced English teachers, this book expands upon the popular communicative techniques used in prior Compelling Conversations books and focuses on the specific needs of Japanese English language learners. This title is the fourth book in the critically-acclaimed Compelling Conversations series and the third book created for English language learners inside a country (United States, Vietnam). The three authors have taught English to college students and working professionals for a total of over 40 years, including 17 years inside Japan.
