Carlos Castaneda takes the reader into the very heart of sorcery, challenging both imagination and reason, shaking the very foundations of our belief in what is "natural" and "logical." In 1961, a young anthropologist subjected himself to an extraordinary apprenticeship with Yaqui Indian spiritual leader don Juan Matus to bring back a fascinating glimpse of a Yaqui Indian's world of "non-ordinary reality" and the difficult and dangerous road a man must travel to become "a man of knowledge." Yet on the brink of that world, challenging to all that we believe, he drew back. Then in 1968, Carlos Castaneda returned to Mexico, to don Juan and his hallucinogenic drugs, and to a world of experience no man from our Western civilization had ever entered before.

Millions of readers worldwide have treasured the visionary brilliance of Carlos Castaneda, who first explore the world of the Yaqui Indian sorcerer in *The Teachings of don Juan*. Now, at last, don Juan returns in *The Power of Silence* -- wise, infuriating, capable of working miracles and playing practical jokes, but always seeking the wisdom of the warrior. *The Power of Silence* is Castaneda's most astonishing book to date -- a brilliant flash of knowledge that illuminates the far reaches of the human mind. Through don Juan's mesmerizing stories, the true meaning of sorcery and magic is finally revealed. Honed in the desert of Sonora, the visions of don Juan give us the vital secrets of belief and self-realization that are transcendental and valid for us all. It is Castaneda's unique genius to show us that all wisdom, strength, and power lie within ourselves -- unleashed with marvelous energy and imaginative force in the teachings of don Juan -- and in the writings of his famous pupil, Carlos Castaneda

Explains the science behind the practice of nei kung, the elemental nature of yin and yang energy--the two components of ch'i, and how learning to control the yang energy in our ch'i can result in the release of dynamic energy. • Establishes the existence and understanding of nei kung in the practices of many of the world's ancient cultures. • Includes a step-by-step guide to the meditation that forms the basis of the practice of nei kung. • By Kosta Danaos, author of *The Magus of Java* and apprentice to an immortal of the Mo-Pai tradition. In 1994 Kosta Danaos was accepted as a student by John Chang, a Chinese-Javanese Taoist in the Mo-Pai tradition and a master of nei kung, the practice of harnessing and controlling our body's bioenergy, or ch'i. *Nei Kung: The Secret Teachings of the Warrior Sages* describes the practice of nei kung and how learning to control our ch'i can result in the release of dynamic energy that can be used for healing, pyrogenesis, telekinesis, levitation, telepathy, and more. Danaos suggests that both components of ch'i--yin and yang energy--are fundamental to the earth and to life and were recognized and used in many of the world's ancient cultures. Though we have forgotten how to access them, these components are in fact elemental parts of us. The author explains that we first must open our minds to the fact that the power of ch'i is real. Next, in learning to control our ch'i as a whole, we must learn to channel our yang energy in productive ways--a potential we all possess. To help readers understand their capacity to connect with this inner elemental power, the author offers a fascinating blend of teachings that include sound scientific theories explaining much of the "magic" of nei kung. He also offers historical, linguistic, artistic, and literary proof of the presence and understanding of nei kung throughout the ages and a step-by-step introduction to several types of simple meditation--fundamental to directing one's ch'i. With his engaging storytelling and disarming humor, his physics-based explanations for seemingly mystical phenomena, and his reassurances that he's really no different from the rest of us, Kosta Danaos shows us that once we remember our capacity to harness our yang energy, we can change ourselves and our world.

Could our deepest hurts reveal the key to a powerful form of prayer that was lost 17 centuries ago? What can we learn today from the great secret of our most cherished traditions? "There are beautiful and wild forces within us." With these words, the mystic St. Francis described what ancient traditions believed was the most powerful force in the universe – the power of prayer. For more than 20 years, Gregg Braden has searched for evidence of a forgotten form of prayer that was lost to the West following the biblical edits of the early Christian Church. In the 1990s, he found and documented this form of prayer still being used in the remote monasteries of central Tibet. He also found it practiced in sacred rites throughout the high deserts of the American Southwest. In this book, Braden describes this ancient form of prayer that has no words or outward expressions. Then, for the first time in print, he leads us on a journey exploring what our most intimate experiences tell us about our deepest beliefs. Through case histories and personal accounts, Braden explores the wisdom of these timeless secrets, and the power that awaits each of us . . . just beyond our deepest hurt!

This volume is the final output of a project started in 2013 on the occasion of the fortieth anniversary of the Scandinavian Section of the University of Milan. A group of scholars working on different European and non-European cultural and literary traditions come together here to discuss the relationships between their areas of study and the Nordic countries. The range of the contributions expands over time and space, from the Middle Ages to the present day, from Poland in the east to the United States in the west, across various European countries. Through various kinds of expertise and different perspectives, this intercultural discourse deals with diverse themes, including the perception of Nordic culture(s) by foreign writers as well as the image of other cultures in Scandinavian works. In particular, the literary and cultural interchange of models and ideas between the North and other areas is investigated in a number of essays devoted to numerous authors, including, among others, Klaus Bödl, Carmen de Burgos, Carlo Emilio Gadda, Gerhart Hauptmann, Henrik Ibsen, Stieg Larsson, Carl von Linné, Rainer Maria Rilke, J.D. Salinger,

Henryk Sienkiewicz, Mme de Staël, August Strindberg, and Tomas Tranströmer.

Fire from Within is the author's most brilliant thought-provoking and unusual book, one in which Castaneda, under the tutelage of don Juan and his "disciples," at last constructs, from the teachings of don Juan and his own experiences, a stunning portrait of the "sorcerer's world" that is crystal-clear and dizzying in its implications. Each of Carlos Castaneda's books is a brilliant and tantalizing burst of illumination into the depths of our deepest mysteries, like a sudden flash of light, like a burst of lightning over the desert at night, which shows us a world that is both alien and totally familiar -- the landscape of our dreams.

10 ways to tap into your social genius

Sorcerer's Apprentice opens with Amy Wallace's first meeting with Carlos Castaneda, the infamous anthropologist-turned-shaman, whose books described meetings with Yaqui Indian spiritual teacher don Juan. Castaneda's rise was meteoric in the late 1960s as he wrote massive bestsellers, inspired many to experiment with psychedelics, and was dubbed "the Godfather of the New Age." The possibility that Castaneda's experiences may have been fabricated did little to compromise his legend. As the daughter of best-selling novelist Irving Wallace, Amy was rarely shy around famous people. When her father insisted she meet Castaneda, she at first demurred. Little did she know that a delightful first meeting would begin a 20-year friendship, followed by her descent into the dramatic and deeply troubled affair chronicled in this book. Sorcerer's Apprentice unblinkingly reveals the inner workings of the "Cult of Carlos," run by a charismatic authoritarian in his sixties who controlled his young female followers through emotional abuse, mind games, bizarre rituals, dubious teachings, and sexual excess. Wallace's story is both specific and universal, a captivating cautionary tale about the dangers of giving up one's power to a tyrant—and about surviving assaults on body and spirit.

For us to perceive any of the worlds that exist beside our own, not only do we have to covet them but we need to have sufficient energy to seize them. In this revolutionary book, Carlos Castaneda offers readers the key to this energetic conditioning for the first time, revealing a series of body positions and physical movements that enabled various sorcerers, and their apprentices, to navigate their own sorceric journeys. By sharing this centuries-old wisdom, Carlos Castaneda makes it possible for readers to travel to some of these other realms, which are as real, unique, absolute, and engulfing as our own world. Castaneda offers both a philosophical history of magical passes and an innovative, easy-to-understand instructional format, complete with more than 450 computer-generated illustrations. Written with humor, clarity, and authority, Magical Passes further illuminates the true meaning of sorcery and magic.

In 1980, Michael Harner blazed the trail for the worldwide revival of shamanism with his seminal classic *The Way of the Shaman*. In this long-awaited sequel, he provides new evidence of the reality of heavens. Drawing from a lifetime of personal shamanic experiences and more than 2,500 reports of Westerners' experiences during shamanic ascension, Harner highlights the striking

similarities between their discoveries, indicating that the heavens and spirits they've encountered do indeed exist. He also provides instructions on his innovative core-shamanism techniques, so that readers too can ascend to heavenly realms, seek spirit teachers, and return later at will for additional healing and advice. Written by the leading authority on shamanism, Cave and Cosmos is a must-read not only for those interested in shamanism, but also for those interested in spirituality, comparative religion, near-death experiences, healing, consciousness, anthropology, and the nature of reality. Praise for Michael Harner and *The Way of the Shaman* "What Yogananda did for Hinduism and D. T. Suzuki did for Zen, Michael Harner has done for shamanism—namely, bring the tradition and its richness to Western awareness." —from *Higher Wisdom*, by Roger Walsh and Charles S. Grob "Wonderful, fascinating.... Harner really knows what he's talking about." —Carlos Castaneda, best-selling author of *The Teachings of Don Juan* and *The Active Side of Infinity* "An intimate and practical guide to the art of shamanic healing and the technology of the sacred. Michael Harner is not just an anthropologist who has studied shamanism; he is an authentic white shaman." —Stanislav Grof, author of *The Adventure of Self-Discovery* "Harner has impeccable credentials, both as an academic and as a practicing shaman. Without doubt (since the recent death of Mircea Eliade) the world's leading authority on shamanism." —Nevill Drury, author of *The Elements of Shamanism* "Michael Harner is a great shaman. He also proves that a person can be both a scientist and a shaman." —Bo Bair Rinchinov, Siberian Buryat shaman

Originally drawn to Yaqui Indian spiritual leader don Juan Matus for his knowledge of psychotropic plants, bestselling author Carlos Castaneda immersed himself in the sorcerer's magical world. Ten years after his first encounter with the shaman, Castaneda examines his field notes and comes to understand what don Juan knew all along—psychotropic plants are merely a means to understanding alternative realities that one cannot fully embrace on one's own. Journey to Ixtlan introduces these clear new ideas—omitted from Castaneda's classic volumes *The Teachings of Don Juan* and *A Separate Reality*—to the reader for the first time. Castaneda explores, as he comes to experience it himself, his own final voyage into the teachings of don Juan, and shares with us what it is like to truly "stop the world" and perceive reality on his own terms.

Viaggio a Ixtlan è il capitolo finale della trilogia dedicata agli insegnamenti di don Juan Matus, l'indio yaqui che ha svelato a Castaneda i misteri della sua antica cultura. Un racconto illuminante, che ci permette di ripercorrere l'ultimo apprendistato dell'autore: il viaggio destinato a portarlo - attraverso lezioni, esercizi corporali e spirituali, prove, visioni - a percepire finalmente l'universo quale è, senza il filtro delle convenzioni. È giunto il momento di accostare, e fare proprio, un concetto fondamentale, che sta alla base del cammino verso una comprensione profonda dell'esistenza: la differenza tra il "guardare" quotidiano e il "vedere" del saggio. E, attraverso questo nuovo sguardo, padroneggiare la facoltà di "fermare il mondo", per interrompere il flusso di immagini nel quale scomponiamo il reale e giungere a un istante di totale lucidità. All'apice del lungo percorso intrapreso con coerenza da Castaneda, la via "occidentale" alla sapienza si incarna nella figura del "cacciatore": quell'uomo "senza abitudini, libero, fluido, imprevedibile" proposto come modello di vita a ciascuno di noi.

Analyses by author, title and key word of books published in Italy.

Man is dominated by his archetypes; they mould not only his history but his dreams. But how are we to define and evaluate them? Is it perhaps possible for us to relate more creatively to them? Originally published in 1981, these are some of the questions raised by this title. To answer them the author gathered together a vast amount of material drawn from Eastern and Western traditions, from science, literature, art and poetry. The answers he puts forward are often highly original and will surely challenge many of our most cherished patterns of thought. There emerges from this book what can only be described as a global metaphysical system, yet the author's language is not that of an ordinary metaphysical treatise, and what he writes offered new challenge and hope to those suffering from the despair and cynicism engendered by a great deal in modern society at the time. Zolla does not, however, advocate a return to earlier historical patterns, nor is he proposing a new Utopia, but rather offers us a brilliant series of lessons in the art of centring. In the words of Bernard Wall, writing in the *Times Literary Supplement*, Zolla's 'deep, polymathic probing of the terms of human existence makes it sensible to compare him with Simone Weil, while some of his conclusions about ultimate mysteries – expressed in signs, symbols and sacraments, the sense of which we have lost – will make us think of the later T. S. Eliot'.
