Adele touches the hearts of millions of people who love her for her music and share the real and honest emotion she brings to each and every song. In a cynical age, she is a phenomenon. In Adele, bestselling biographer Sean Smith talks to those close to her as he follows her astonishing journey to fame that began on the gritty streets of Tottenham. Through compelling new research and interviews, he reveals that there is far more to Adele than the superstar we all think we know. He uncovers the story of her complex family relationships; the ill-starred love affair between her mother and father; her devastation at the untimely death of her grandfather; and her seemingly unpromising future in a gang-ravaged area of South London. She found salvation at the BRIT School before a series of unhappy love affairs provided the inspiration for her record-breaking albums. He describes how she conquered America and how it all could have been ended by a dramatic vocal injury. Instead, she has made an amazing comeback and found personal happiness in a new relationship and becoming a mum. Intimate and revealing, Adele is the uplifting story of the woman with the most glorious voice in the world.

This book examines one of the most contested issues facing feminists, human rights activists and governments around the globe – the international sex trade. For decades, the liberal left has been conflicted as to whether pro-prostitution activists or abolitionists hold the correct view, and debates are ongoing as to who holds the key to the solutions facing the women and girls involved. Over the course of two years, Bindel conducted 250 interviews in almost 40 countries, cities and states, traveling around Europe, Asia, North America, Australia, New Zealand, and East and South Africa. Visiting legal brothels all around the world, Bindel got to know pimps, pornographers, survivors of the sex trade, and the women being sold by men classed as 'business entrepreneurs'. Whilst meeting feminist abolitionists, pro-prostitution campaigners, police and government officials, and the men who drive the demand, Bindel uncovered the lies, mythology and criminal activity that shroud this global trade, and suggests here a way forward for the women seeking to abolish the oldest oppression. Informed by the lived human experience of those interviewed, this book will be of great interest to feminists, students, criminal justice advocates, criminologists and human rights activists.
