Every one will have his feeling about Moorish architecture; mine is that a little goes a long way, and that it is too monotonous to compete with the Gothic in variety, while it lacks the dignity of any form of the Greek or the Renaissance.-from "Sevillian Aspects and Incidents"William Dean Howells was one of the most influential critics and editors of the 19th century, his championing of writers such as Mark Twain, Henry James, Emily Dickinson, and Stephan Crane shaping the course of American literature. That powerful personality comes to the fore in this 1913 travelogue, in which Howells' journeys in Spain-informed by his daunting historical and literary erudition-become the stuff of an intelligent and opinionated narrative investigating the beauty, mysteries, and paradoxes of a romantic nation and its passionate people. A classic of travel writing, this portrait of Spain a century ago continues to enrapture armchair adventurers today.American writer and editor WILLIAM DEAN HOWELLS (1837-1920) served as editor of the Atlantic Monthly from 1871 to 1881. Among his more than one

hundred books are the novels *A Modern Instance* (1881) and *The Rise of Silas Lapham* (1885).

This volume brings together cutting-edge research on modern Spanish women as writers, activists, and embodiments of cultural change, and simultaneously honors Maryellen Bieder's invaluable scholarly contribution to the field. The essays are innovative in their consideration of lesser-known women writers, focus on women as political activists, and use of post-colonialism, queer theory, and spatial theory to examine the period from the Enlightenment until World War II. The contributors study women as agents and representations of social change in a variety of genres, including short stories, novels, plays, personal letters, and journalistic pieces.

Canonical authors such as Emilia Pardo Bazán, Leopoldo Alas "Clarín," and Carmen de Burgos are considered alongside lesser known writers and activists such as María Rosa Gálvez, Sofía Tartilán, and Caterina Albert i Paradís. The critical analyses are situated within their specific socio-historical context, and shed new light on nineteenth- and early twentieth-century Spanish literature, history, and culture. Published by Bucknell University Press. Distributed worldwide by Rutgers University Press.

This study of a northern Spanish community shows how the residents of Santa MarÁa del Monte have acted together at critical times to ensure the survival of their traditional forms of social organization. The survival of these forms has allowed the villagers, in turn, to weather demographic, political, and

economic crises over the centuries. Originally published in 1991. From being a dirt farmer in South America to the heights of California Society, from a promiscuous lifestyle to the peace of Christian life, this is the story of the first thirty-four years of my life. While some sought money, fame, or education, or some other goal, I sought the experience of life, and to the best of my ability, I was a seeker of the Supreme Power in that experience. This story is factual according to the perceptions I've encountered and remembered. In a phrase, my father, Howard Orville Caldwell, lived the Grapes of Wrath. He was born in Oklahoma, and during the Great Depression, when his father's job at the local zinc smelter ended, the family moved to South California: Grandpa, Grandma and the three children. That was in the thirties. Dad grew up, went to school, and worked in South California when Los Angeles had only a few hundred thousand people. There was a definite division between rich and poor. Marlon Brando, then Bud Brando, was in the same public speaking class as my father in junior high school. Marlon was one of the rich, Dad was of the poor. This story begins there.

Strap on your motorcycle helmet, slip on your leather jacket, boots and gloves. Join the Gasoline Tramp on the first and wildest motorcycle ride around the world. Described as the "longest, most difficult and most perilous motorcycle journey ever attempted," this book recounts the 1912-1913 motorcycle ride around the world by Carl Stearns Clancy. After he completed his record setting global circumnavigation he compiled his notes and magazine articles in two long lost notebooks. 100 years after Clancy's 'round the world motorcycle adventure his work has been published as The Gasoline Tramp. Whether the reader is a history buff or motorcycling enthusiast, Clancy's view of the world from atop a motorcycle was never seen before, and likely will never be again. Bad roads, guns, sickness, a crashed and broken motorcycle, corrupt officials and wild animals, Clancy faced them all. He rode his 1912 Henderson motorcycle where no man had ever ridden before. Clancy left his home in America as admittedly a 21 year-old boy. 18,000 miles and 10 months later he returned as a self-described man. He crossed America, Europe, Africa and Asia on his journey. His ride around the world truly defines what motorcycle adventure means.

In the growing field of address research, Spanish emerges as one of the most complex Indo European languages. Firstly, it presents second person variation in its nominal, pronominal, and verbal systems. Moreover, several Spanish varieties have more than two address variants, which compete and mix in intricate ways. Forms of Address in the Spanish of the Americas showcases current research into this unique

linguistic situation, by presenting the original research of twelve scholars from a variety of theoretical and methodological perspectives. The articles cover diachronic change and regional variation, pragmatics, dialect contact, attitudes, and identity. The contributions are contextualized through an introduction and the responses of three established experts, while a conclusion delineates a research agenda for the future. This collection in English is meant to reach scholars beyond the confines of Hispanic linguistics. It should be of interest to Romance linguists and specialists on second person variation across languages.

This text is a compilation of articles on different aspects of Spanish grammar in the areas of current theoretical syntax and semantics. Topics covered include: the syntax and semantics of clitics and clitic doubling; the structure of noun phrases, with special attention to adjectives; the position of subjects; tense and causation. The approaches fall within generative grammar, broadly understood, with some contributions cast in the perspective of the minimalist program. Thus, the book attempts to offer a balanced picture of state of the art research in these areas. Luis Silva-Villar is Assistant Professor of Hispanic Linguistics at Mesa State College, USA.

Hoping to rediscover his deeper purpose, Rijumati, an English Buddhist teacher and businessman, embarked on a journey into the unknown: a round-the-world trip by land and sea that became a kind of pilgrimage. Months - and many crises - later he returned with new reverence for ordinary people and places, a sense of veneration for nature's wonders and a profound gratitude for being human. Part travel diary and part record of a spiritual journey,

these pages evoke the sacred, remote places encountered in the outer world alongside the 'inner terrain' that unfolded along the way. If you have ever felt the call of the open road, longed to travel as a form of self-discovery, or just wanted to know how to stay sane whilst getting a visa stamp in Kazakhstan, then Pilgrimage to Anywhere is for you.
