

Cost Accounting Maheshwari Mittal Ebook

Financial Accounting provides a comprehensive coverage to course requirements of students appearing in the paper Financial Accounting at BCom, BCom (Hons) examinations of different Indian universities and Foundation Examination (NS) of the Institute of Company Secretaries of India. The book is divided into four sections: Section I explains the fundamental principles necessary for understanding the subject. It covers the entire accounting cycle—from recording of financial transactions to the preparation of final accounts. Section II deals with accounting problems related to certain specific types of business transactions. Section III deals with partnership accounts. Section IV provides suggested answers to recent examinations' questions.

A comprehensive and authentic Text Book on ADVANCED MANAGEMENT ACCOUNTING (Cost Management) * An authentic, simple and crisp presentation of the subject matter. * Theoretical questions are given at the end of respective chapters in chronological order. * Fully solved problems are given at the end of respective chapters. This will help students in self-preparation. * The Book takes accounts of recent developments on the subject with special emphasis on Responsibility Accounting, Transfer Pricing, Total Quality Management, Activity Based Costing, Life Cycle Costing, Capacity Management, Just in Time, Target Costing etc. * Point-wise presentation of Text portion with bullets to understand and memorise the subject matter. * Examination orientation makes the book more student friendly. * Concepts are explained with number of illustrations and also number of diagrams are given for clear understanding of subject matter. * The language of the Book is simple and treatment of the subject lucid. Both theory and practice are given equal importance. * All topics, illustrations, problems, tables and diagrams are distinctively numbered for easy location. * The Book will also be of interest to Practising Professionals, Business and Government officials for efficient discharge of their functions.

Accounting: Text & Cases, by Anthony, Hawkins, and Merchant covers both financial and managerial accounting as well as broader managerial issues. Chapters 1 -14 cover financial accounting, while Chapters 15-21 cover management accounting, and Chapters 22-28 focus on broader issues of control and corporate strategy. The approximately 120 cases that make up most of the end of chapter material are a combination of classic Harvard style cases and extended problems, with 10 completely new cases added to the 13th edition. Accounting: Text and Cases is a product of lifelong dedication to the discipline of accounting, and users of the book benefit from a breadth of experience that is sure to enrich your course and your students.

The book provides comprehensive coverage of the course-content requirements of the students appearing in the paper 'Management Accounting' at the B.Com, M.Com, BBA, and MBA Examinations of different Indian Universities. The book has been divided into THREE Convenient Sections. Each section covers a different aspect of 'Management Accounting' with the subject divided into chapters covering different topics systematically and concisely. The unique features of this book lie in its simplicity of style and systematic presentation of theory and graded practical illustrations which have made it user-friendly mainly for the students. This book's other main strengths are exhaustive text plentiful illustrative examples and end-of-the-chapter exercises with answers. NEW FEATURES IN THIS EDITION Updated position regarding, IFRSs and steps for their convergence in India. Certain new concepts viz. Target Costing, Kaizen Costing, and Balanced Scorecard have been incorporated in Chapter 3 (Section A) and Appendix 1 of the book. Schedule III regarding the presentation of financial statements as per the Companies Act, 2013 has been incorporated as Appendix 5 to the book.

On account of the growing importance of the subject of cost accounting, it has been included as a special subject in all commerce and management courses, conducted by different Indian universities and professional institutes. The present volume, Cost Accounting-Theory & Problems, has been written to meet in full measure the requirements of the students preparing for these courses. The entire books has been divided into Five sections. Section ONE explains the fundamental concepts which are necessary for the understanding of the subject. Section TWO deals with the principles of costing as applicable to certain specific industries. Section THREE explains the accounting methods. In this section besides others, intricate topics of the cost control accounts and integrated accounts have been discussed with complete clarity and simplicity of exposition. Section FOUR refers to costing as a special tool for managerial control. Adequate space has been given to this recent function of cost accounting. And here topics of budgetary control, standard costing, marginal costing and break even analysis have been elaborately discussed. Section FIVE contains revisionary problems.

Strategic Financial Management has been prepared to meet the requirements of students pursuing CMA Final. This book is also useful for students pursuing CA final, MBA, CFA, PGDBM and other courses in Finance. This book has been designed to solve the problems of students pursuing CMA Final. This book has been written according to the syllabus and study material. It contains previous year examination questions of CMA Final new syllabus 2016. It contains simple and detailed explanation of theories of portfolio management, foreign exchange, derivatives, mutual funds and investment analysis. SALIENT FEATURES: -Comprehensive and systematic coverage of new syllabus of CMA Final.-Self study approach.-Simplified and detailed explanation of theories.-Division of four parts of syllabus into 23 chapters for easy understanding.-Maintains flow of chapters. -Step wise solutions for questions with detailed explanations.-Examination questions of new syllabus of CMA Final.-Problem solving techniques for questions.-Memory tips for formulas and others as per requirement.

Elements of Cost Accounting Cost Accounting - Principles & Practice Cost Accounting- Theory & Problems

This pocket manual is a practically oriented guide to abdominal and gastrointestinal emergencies in acute care surgery. It covers the most common injuries to the entire area, offering careful descriptions of diagnostic procedures, surgical techniques and non-operative management. The guide stems from collaboration with the World Society of Emergency Surgery (WSES) and aims to provide general surgeons, residents and trainees with a comprehensive and up-to-date overview of the most relevant operative techniques and with useful "tips and tricks" applicable in for their daily clinical practice. A second volume on other surgical emergencies, which also includes chapters on antibiotic management, nutrition and interventional radiology in acute care surgery, is also available.

It's no secret that certain social groups have predominated India's business and trading history, with business traditionally being the preserve of particular 'Bania' communities. However, the past four or so decades have seen a widening of the social base of Indian capital, such that the social profile of Indian business has expanded beyond recognition, and entrepreneurship and commerce in India are no longer the exclusive bastion of the old mercantile castes. In this meticulously researched book ? acclaimed for being the first social history to document and understand India's new entrepreneurial groups ? Harish Damodaran looks to answer who the new 'wealth creators' are, as he traces the transitional entry of India's middle and lower peasant castes into the business world. Combining analytical rigour with journalistic flair, India's New Capitalists is an essential read for anyone seeking to understand the culture and evolution of business in contemporary South Asia.

Bringing together the classic and the contemporary aspects of the field, this comprehensive introduction to network flows provides an integrative view of theory, algorithms, and applications. It offers in-depth and self-contained treatments of shortest path, maximum flow, and minimum cost flow problems, including a description of new and novel polynomial-time algorithms for these core models. For professionals working with network flows, optimization, and network programming.

Financial Accounting provides a comprehensive coverage of course requirements for students studying to appear in the Financial Accounting paper of B.Com examinations under different Indian universities, including those that have adopted the CBCS system. It also meets the requirements of students appearing in the accounting paper at the Foundation Examinations of Institute of Chartered Accountants of

India, the Institute of Company Secretaries of India and the Institute of Cost Accountants of India.

The book provides a comprehensive coverage of the course-content requirements of the students appearing in the paper 'Management Accounting' at the MBA and MCom examinations of different Indian Universities and those of professional institutions. The book has been divided into five convenient sections. Each section covers a different aspect of 'Management Accounting' with the subject divided into chapters covering different topics in a systematic and concise manner. The unique features of this book lie in its simple and systematic presentation of theory, which would enable the students to solve practical problems with ease. The other main strengths of this book are: plentiful illustrative examples and end-of-the-chapter exercises with answers.

This text covers all aspects of the current diagnosis and treatment of acute cholecystitis. Different diagnostic tests are discussed as well as the preoperative evaluation needed to initiate treatment. Other sections include the management of acute cholecystitis in the critically ill and elderly patients, recent advances in operative strategies that have further altered the treatment of acute cholecystitis, and the utilization of routine intraoperative cholangiography and its relative merits. Primarily intended for general surgeons and residents training in general surgery, Acute Cholecystitis will also serve as a comprehensive reference material for other health care providers, including primary care providers, mid-level nurse practitioners, emergency room physicians and medical students.

Plants have to manage a series of environmental stresses throughout their entire lifespan. Among these, abiotic stress is the most detrimental; one that is responsible for nearly 50% of crop yield reduction and appears to be a potential threat to global food security in coming decades. Plant growth and development reduces drastically due to adverse effects of abiotic stresses. It has been estimated that crop can exhibit only 30% of their genetic potentiality under abiotic stress condition. So, this is a fundamental need to understand the stress responses to facilitate breeders to develop stress resistant and stress tolerant cultivars along with good management practices to withstand abiotic stresses. Also, a holistic approach to understanding the molecular and biochemical interactions of plants is important to implement the knowledge of resistance mechanisms under abiotic stresses. Agronomic practices like selecting cultivars that is tolerant to wide range of climatic condition, planting date, irrigation scheduling, fertilizer management could be some of the effective short-term adaptive tools to fight against abiotic stresses. In addition, "system biology" and "omics approaches" in recent studies offer a long-term opportunity at the molecular level in dealing with abiotic stresses. The genetic approach, for example, selection and identification of major conditioning genes by linkage mapping and quantitative trait loci (QTL), production of mutant genes and transgenic introduction of novel genes, has imparted some tolerant characteristics in crop varieties from their wild ancestors. Recently research has revealed the interactions between micro-RNAs (miRNAs) and plant stress responses exposed to salinity, freezing stress and dehydration. Accordingly transgenic approaches to generate stress-tolerant plant are one of the most interesting researches to date. This book presents the recent development of agronomic and molecular approaches in conferring plant abiotic stress tolerance in an organized way. The present volume will be of great interest among research students and teaching community, and can also be used as reference material by professional researchers.

The Present Book Is An Attempt To Unfold The Complexities Of The Subject Matter In A Simple And Lucid Manner To Provide Conceptual Clarity. The Book Is Meant For B.Com. (H) Students Of Indian Universities And For The Students Appearing For Ca, Icwa, Ics Examinations. Each Topic Is Self-Contained And Provides Theoretical Exposition Followed By Illustrations Which Will Help The Students To Master The Numerical Application Of Corporate Accounting Procedures. The Book Seeks To Replace Memorisation With In-Depth Understanding And Application. The Distinguishing Feature Of The Book Is To Provide Multidimensional Illustrations For Each Topic To Enhance The Question Solving Power Of The Students With Ease And Confidence. Besides Students, This Unique Presentation On Corporate Accounting Is An Indispensable Reference Source For All Teachers, Accountants, Corporate Houses And General Readers.

Contributed articles with special reference to India.

This book is the first reference book covering exclusively all aspects of this challenging disease. It is designed to serve as a succinct appropriate resource for neurosurgeons, otorhinolaryngologists, neuroradiologists, researchers and infectious disease specialists with an interest in cranial infection. Cranial Osteomyelitis provides an in-depth review of knowledge of the management of skull osteomyelitis, with an emphasis on risk factors, causative pathogens, pathophysiology of dissemination, clinical presentations, neuroradiological findings and treatment modalities, medical and surgical. Sections on the prognosis and prevention of this illness are also included. The book will help the reader in choosing the most appropriate way to manage this challenging bone infection. In addition, it supplies clinicians and investigators with both basic and more sophisticated information and procedures relating to the complications associated with skull osteomyelitis. It also considers future areas of investigation and innovative therapeutic philosophies. The book is richly illustrated to provide readers with unparalleled access to a comprehensive collection of cranial osteomyelitis images (biological, clinical, neuroradiological, and surgical) taken directly from the author's collection and experience in the field.

Traces India's economic and social transformation into a free-market democracy, sharing the stories of its top players while weaving in the author's own life experiences as a former CEO for Procter & Gamble India. Reprint.

This book introduces a variety of advanced machine learning approaches covering the areas of neural networks, fuzzy logic, and hybrid intelligent systems for the determination and diagnosis of cancer. Moreover, the tactical solutions of machine learning have proved its vast range of significance and, provided novel solutions in the medical field for the diagnosis of disease. This book also explores the distinct deep learning approaches that are capable of yielding more accurate outcomes for the diagnosis of cancer. In addition to providing an overview of the emerging machine and deep learning approaches, it also enlightens an insight on how to evaluate the efficiency and appropriateness of such techniques and analysis of cancer data used in the cancer diagnosis. Therefore, this book focuses on the recent advancements in the machine learning and deep learning approaches used in the diagnosis of different types of cancer along with their research challenges and future directions for the targeted audience including scientists, experts, Ph.D. students, postdocs, and anyone interested in the subjects discussed. .

This book constitutes the refereed proceedings of the 14th International Baltic Conference on Databases and Information Systems, DB & IS 2020, held in Tallinn, Estonia, in June 2020.* The 22 revised papers presented were carefully reviewed and selected from 52 submissions. The papers are centered around topics like architectures and quality of information systems, artificial intelligence in information systems, data and knowledge engineering, enterprise and information systems engineering, security of information systems. *The conference was held virtually due to the COVID-19 pandemic.

Compete in the digital world with pragmatic strategies for success Digital Sense provides a complete playbook for organizations seeking a more engaged customer experience strategy. By reorganizing sales and marketing to compete in today's digital-first, omni-channel environment, you gain newfound talent and knowledge from the resources already at hand. This book provides two pragmatic frameworks for implementing and customizing a new marketing operating system at any size organization, with step-by-step roadmaps for optimizing your customer experience to gain a competitive advantage. The Experience Marketing Framework and the Social Business Strategy Framework break down proven methods for exceeding the expectations

customers form throughout the entirety of the buying journey. Customizable for any industry, sector, or scale, these frameworks can help your organization leap to the front of the line. The evolution of marketing and sales demands a revolution in business strategy, but realizing the irrelevance of traditional methods doesn't necessarily mean knowing what comes next. This book shows you how to compete in today's market, with real-world frameworks for implementation. Optimize competitive advantage and customer experience Map strategy back to business objectives Engage customers with a pragmatic, proven marketing system Reorganize sales and marketing to fill talent and knowledge gaps Today's customer is savvy, with more options than ever before. It's critical to meet them where they are, and engagement is the cornerstone of any cohesive, effective strategy. The technological revolution has opened many doors for marketing and sales, but the key is knowing what lies behind each one—what works for your competitor may not be right for you. Digital Sense cuts through the crosstalk and confusion to give you a solid strategy for success.

FOR B.COM (HONS.) EXAMS , C.A. (FOUNDATION) C.A. (INTER.) C.A. (FINAL) , C.S.(FOUNDATION , C.S. (INTER.) N& OTHER SIMILAR EXAMINATIONS .

This book constitutes the refereed proceedings of the International Conference on Advances in Information Technology and Mobile Communication, AIM 2011, held at Nagpur, India, in April 2011. The 31 revised full papers presented together with 27 short papers and 34 poster papers were carefully reviewed and selected from 313 submissions. The papers cover all current issues in theory, practices, and applications of Information Technology, Computer and Mobile Communication Technology and related topics.

Revision for Company Accounts & Audit ICWA

Produce new breakthroughs in anti-aging products

The book provides a comprehensive coverage of the course-content requirements of the students appearing in the paper 'Management Accounting' at the MBA and MCom Examinations of different Indian Universities and those of professional institutions. The book has been divided into Five Convenient Sections. Each Section covers a different aspect of 'Management Accounting' with the subject divided into chapters covering different topics in a systematic and concise manner. The unique features of this book lie in its simple and systematic presentation of theory, which would enable the students to solve practical problems with ease. The other main strengths of this book are: plentiful illustrative examples and end-of-the-chapter exercises with answers. New in this Edition • Updated position regarding IFRSs and steps for their convergence in India • Two new chapters, namely: 'Human Resource Accounting' and 'Innovative Concepts' in Section II of the book • Section V, relating to Case Problems, to make the study of the subject more interesting and a real value addition to the knowledge of the reader

This book features selected papers presented at the Fourth International Conference on Nanoelectronics, Circuits and Communication Systems (NCCS 2018). Covering topics such as MEMS and nanoelectronics, wireless communications, optical communications, instrumentation, signal processing, the Internet of Things, image processing, bioengineering, green energy, hybrid vehicles, environmental science, weather forecasting, cloud computing, renewable energy, RFID, CMOS sensors, actuators, transducers, telemetry systems, embedded systems, and sensor network applications in mines, it offers a valuable resource for young scholars, researchers, and academics alike.

Financial Accounting for BBA has been written to meet the requirements of undergraduate students, particularly at the BBA level. This book covers the syllabi of major universities across the country, providing basic knowledge of accounting principles and practices in a systematic manner. The topics have been dealt with in a lucid manner to enable better understanding, especially for those students who do not have an accounting background. The text is examination-oriented and is supplemented with relevant solved illustrations for all the topics.

The 18 full and 13 short papers presented were carefully reviewed and selected from 255 submissions. There were organized in topical sections named: Image Processing, Pattern Analysis and Machine Vision; Information and Data Convergence; Disruptive Technologies for Future; E-Governance and Smart World

This book constitutes the refereed proceedings of the Second International Conference on Emerging Technologies in Computer Engineering: Microservices in Big Data Analytics, ICETCE 2019, held in Jaipur, India, in February 2019. The 28 revised full papers along with 1 short paper presented were carefully reviewed and selected from 253 submissions. ICETCE conference aims to showcase advanced technologies, techniques, innovations and equipments in computer engineering. It provides a platform for researchers, scholars, experts, technicians, government officials and industry personnel from all over the world to discuss and share their valuable ideas and experiences.
