The year 1996 in Italian politics was a year rich in novelty. After the "stalled transition" of 1995, the political atmosphere had begun to change. Most obvious was the end of Dini's unelected government of technocrats, supported by a heterogeneous group in Parliament, and its replacement with Romano Prodi's government, a coalition of the parties that had won the general election on April 21, 1996. But an even more important change and one more likely to be remembered was a new climate of dialogue amongst the main political forces that emerged from this period of transition between two republics. In 1996, despite the general elections, cooperation again became part of the political game.

Who are "intellectuals"? What do they think their role and function in contemporary society is? Are they on the endangered-species list? Is equating conservatism with conservation becoming their dominant survival strategy? This book is a collection of essays that examines some of the changes in the activities, role, function and self-perception of Italian intellectuals since World War II (two major divides are considered to be the crisis of 1956–7 and the fall of the Berlin Wall). The first section examines some of the most influential figures in the early decades, the second the activities of

contemporary intellectuals, a third gives voice to some contemporary writers, a fourth contains some comparative essays about the role of intellectuals in influential contemporary Western cultures and a final section is devoted to some cross-disciplinary forays and reflections on the relevance and possible future directions of these inquiries.

This book is a complete reworking and update of Marga Cottino-Jones' popular A Student's Guide to Italian Film (1983, 1993) . This guide retains earlier editions' interest in renowned films and directors but is also attentive to the popular films which achieved box office success among the public.

This book examines the responsibility of States and international organizations for complicity (aid or assistance) in an internationally wrongful act. Despite the recognition of responsibility for complicity as a rule of customary international law by the International Court of Justice, this book argues that the effectiveness and utility of this form of responsibility is fraught with systemic and operational limits. These limits include a lack of clarity in its constituent elements, its co-existence with primary rules prohibiting complicity and the obligations of due diligence, its implementation and the underlying causal tests, its uncertain relationship to other forms of shared and indirect responsibility, and its potential as a form of attribution of conduct. This book submits that the content and elements of this form of responsibility need adjustments to respond more effectively to the phenomenon of complicity in international affairs. Basato su un fatto reale, Cronaca di una morte annunciata è un romanzo magistrale che sa fondere i toni della tragedia antica con il ritmo di una detective story in una grandiosa allegoria dell'assurdità della vita, l'apoteosi della fatalità. This insightful book analyses the role that EU general principles have taken in the protection of fundamental rights within the EU since the Lisbon Treaty. In particular, the author focuses on the relationship between written law (the Charter of Fundamental Rights) and unwritten law (the general principles) within the institutional framework of the EU. The book demonstrates that due to their complementary and autonomous function toward the protection of fundamental rights, the general principles still play a key role within the Union despite the binding force of the Charter.

Italy from Crisis to Crisis seeks to understand Italy's approach to crises by studying the country in regional, international, and comparative context. Without assuming that the country is abnormal or unusually crisis-prone, the authors treat Italy as an example from which other countries might learn. The book integrates the analysis of domestic politics and foreign policy, including Italy's approach to military interventions, energy security, economic relations with the European

Union (EU), and to the NATO alliance, and covers a number of issues that normally receive little attention in studies of "high politics," such as information policy, national identity, immigration, youth unemployment, and family relations. Finally, it puts Italy in a comparative perspective – with other European states, naturally – but also with Latin America, and even the United States, all countries that have experienced similar crises to Italy's and similar – often populist – responses. This text will be of key interest to scholars and students of, and courses on, Italian politics and history, European politics and, more broadly, comparative politics and democracy.

Italy is more strongly influenced by the experiences of migrants than many other European countries. This includes an historically ongoing internal migration from the south to the north, which is strongly echoed in neo-realism; a mass emigration mainly to western Europe and North and South America that is connected with mafia films, among others, in Italy's collective imaginary; as well as a more recent immigration influx from the southwestern Mediterranean, which is dealt with at a film level...

some 600 entries on all aspects of Italian literary culture. It includes analytical essays on authors and works, from the most important figures of Italian literature to little known authors and works that are influential to the field. The Encyclopedia is distinguished by substantial articles on critics, themes, genres, schools, historical surveys, and other topics related to the overall subject of Italian literary studies. The Encyclopedia also includes writers and subjects of contemporary interest, such as those relating to journalism, film, media, children's literature, food and vernacular literatures. Entries consist of an essay on the topic and a bibliographic portion listing works for further reading, and, in the case of entries on individuals, a brief biographical paragraph and list of works by the person. It will be useful to people without specialized knowledge of Italian literature as well as to scholars.

Francesco Rosi is one of the great realist artists of post-war Italian, indeed post-war world cinema. In this book, author Gaetana Marrone explores the rich visual language in which the Neapolitan filmmaker expresses the cultural icons that constitute his style and images. Over the years, Rosi has offered us films that trace an intricate path between the real and the fictive, the factual and the imagined. His films show an extraordinarily consistent formal balance while representing historical events as social emblems that examine, shape, and reflect the national self. They rely on a labyrinthine narrative structure, in which the sense of an enigma replaces the unidirectional path leading ineluctably to a designated end and solution. Rosi's logical investigations are

conducted by an omniscient eye and translated into a cinematic approach that embraces the details of material reality with the panoramic perspective of a dispassionate observer. This book offers intertextual analyses within such fields as history, politics, literature, and photography, along with production information gleaned from Rosi's personal archives and interviews. It examines Rosi's creative use of film as document, and as spectacle). It is also a study of the specific cinematic techniques that characterize Rosi's work and that visually, compositionally, express his vision of history and the elusive "truth" of past and present social and political realities.

Cinema has been long associated with France, dating back to 1895, when Louis and Auguste Lumi_re screened their works, the first public viewing of films anywhere. Early silent pioneers Georges MZli_s, Alice Guy BlachZ and others followed in the footsteps of the Lumi_re brothers and the tradition of important filmmaking continued throughout the 20th century and beyond. In Encyclopedia of French Film Directors, Philippe Rège identifies every French director who has made at least one feature film since 1895. From undisputed masters to obscure one-timers, nearly 3,000 directors are cited here, including at least 200 filmmakers not mentioned in similar books published in France. Each director's entry contains a brief biographical summary, including dates and places of birth and death; information on the individual's education and professional training; and other pertinent details, such as real names (when the filmmaker uses a pseudonym). The entries also provide complete filmographies, including credits for

feature films, shorts, documentaries, and television work. Some of the most important names in the history of film can be found in this encyclopedia, from masters of the Golden Age_Jean Renoir and RenZ Clair_to French New Wave artists such as Fran_ois Truffaut and Jean-Luc Godard.

As a writer, Carlo Levi has had the misfortune to be known as the author of one book, *Christ Stopped at Eboli*, the account of his years of internal banishment by the Fascist authorities to a remote village in the south of Italy. That book was recognised as a masterpiece of anti-Fascist literature and as a sensitive investigation of the way of life of a people at the margins of European civilisation. It enjoyed enormous success in the post-war period not only in Italy but also in Britain and the USA, and has been continuously in print since its first publication. However, Levi was also a painter of some repute, a novelist, a journalist, a critic of art and society, a political commentator, and above all, a wholly idiosyncratic travel writer whose reports on the countries and regions he visited, including Sicily, Sardinia, Germany, the USSR and India, were also reflections on Italy. This book attempts to assess the totality of Levi's achievement.

Come scrittore, Carlo Levi ha avuto la sfortuna di essere celebrato come autore di un libro solo, *Cristo si è fermato ad Eboli*, la narrativa dei suoi anni di confino nel Mezzogiorno sotto il regime fascista. Sin dal momento della sua pubblicazione nel primo dopoguerra, questo libro è stato riconosciuto come capolavoro della letteratura

anti-fascista e come indagine penetrante della cultura di un popolo ai margini della civiltà europea. Comunque, Levi fu anche pittore di grande talento, romanziere, critico d'arte, critico della società, commentatore politico e viaggiatore-scrittore di libri di viaggi sui generis. I suoi articoli, che poi divennero libri, sui paesi e sulle regioni che visitò - la Sicilia, la Sardegna, la Germania e l'India - si rivelarono anche riflessioni sulla condizione dell'Italia. Questa raccolta di saggi è una rivalutazione della totalità delle opere di Carlo Levi.

This book examines the interrelation between language and society in contemporary Italy. It aims to provide an up to date account of linguistic diversity, social variation, special codes and language varieties within Italian society, and in situations of language contact both within and outside Italy.

Illegal immigrants constitute a major issue in southern European countries. This book is the first piece of published research in this area and gives a comparative analysis of southern European immigration policies. Detailed accounts of each country's pattern of informal immigrant employment are located within a broader setting of contemporary immigration controls.

Italian cinema is one of the most glorious and energetic celebrations of the medium that any nation has ever offered. For many years, this astonishing legacy was largely unseen, but the DVD revolution is making virtually everything available, from Steve Reeves' muscle epics to long-unseen Italian art house movies. The one characteristic that most of the great (and not so great) Italian movies have in common is the sheer individualism of the directors. This applies to

populist moviemakers and the giants of serious cinema. While Fellini, Visconti and Antonioni have rightly assumed their places in the pantheon, so have such talented popular auteurs as Sergio Leone, who was doing something with the Western that no American director would dare do. All the glory of Italian cinema is celebrated here in comprehensive essays, along with every key film in an easy-to-use reference format.

A collection for laypersons and experts alike, this authoritative work includes biographies of the stars, producers, directors, writers, technical information, and more

AVAILABLE FOR THE FIRST TIME IN eBOOK! General Simon Bolivar, “the Liberator” of five South American countries, takes a last melancholy journey down the Magdalena River, revisiting cities along its shores, and reliving the triumphs, passions, and betrayals of his life. Infinitely charming, prodigiously successful in love, war and politics, he still dances with such enthusiasm and skill that his witnesses cannot believe he is ill. Aflame with memories of the power that he commanded and the dream of continental unity that eluded him, he is a moving exemplar of how much can be won—and lost—in a life.

Discusses renowned masters including Roberto Rossellini and Federico Fellini, as well as directors lesser known outside Italy like Dino Risi and Ettore Scola. The author examines overlooked Italian genre films such as horror movies, comedies, and Westerns, and he also devotes attention to neglected periods like the Fascist era. He illuminates the epic scope of Italian filmmaking, showing it to be a powerful cultural force in Italy and leaving no doubt about its enduring influence abroad. Encompassing the social, political, and technical aspects of the craft, the author recreates the world of Italian cinema.

dell'umano e i profili politico-filosofici (Machiavelli, Rousseau, Vico, Kant, Hegel, Simmel, Benjamin, Horkheimer, Adorno, Habermas, Honneth, Rawls, Heller, Arendt, Lefort, Ricoeur, Masullo) ivi discussi criticamente esprimono il bisogno di analizzare e valutare il ruolo, la funzione pubblica e il tenore immanente della contraddizione prossemica entro e oltre l'ethos del moderno nelle morfologie assunte dalla filosofia contemporanea della normatività. Un atto interpretativo in cui è implicito l'agire politico connesso dialetticamente alla vita e alla metamorfica costituzione della soggettività nella faglia disegualitaria tra individualità e società. Attraverso l'interrogazione "paradigmatica" dei classici moderni, le riflessioni svolte nel libro nella forma di Lezioni problematizzano la scelta esistenziale che pervade la relazione contingente tra agire umano, vita quotidiana, libertà, valori e norme, nella dialettica della modernità. Ritratti filosofici della condizione umana, o, meglio, del destino umano nell'ontologia politica del vivente, che performano l'umano come permeato dal "vivere in tensione" tra l'essere e il dover essere, dove gli attori umani, nel loro agire, tra colpevolezza e innocenza, disvelano l'oscurità ultima, tra bene e male, tra ragione e virtù, tra ethos, conflitto e politica, del "teatro storico" delle maschere della vita. L'Epilogo (in forma di Appendice) segue alla persuasione (manifestata nella penultima Lezione) che le "ragioni della filosofia" possano ancora affrontare, nelle condizioni dell'eticità post-tradizionale, una difficile eredità generazionale, che si oggettiva, tra teoria critica, filosofia e politica, nel passaggio ai contemporanei, dai maestri agli allievi, per la libertà, la comunicazione intersoggettiva e il riconoscimento interumano, e, dunque, nella paticità e socialità che intrama, nell'arte del vivere e del conflitto, l'enigmatica vincolatezza dell'umano, dell'irriducibile soggettività tra essere e politica, tra realtà e pensiero.

Il mondo della contemporaneità si trova davanti a una sfida epocale. La scelta è quella se respingere le tentazioni offerte dalla tecnologia e dalle diverse forme di intelligenza artificiale o aprirsi al nuovo patto con la modernità. Le scienze cognitive sembrano suggerire che il cervello umano è una macchina che difficilmente può dirsi libera. L'intelligenza artificiale può risultare l'alleato vincente per assicurare le decisioni migliori? Altri settori decisivi della cognizione umana, come la medicina, paiono più pronti ad allearsi con le nuove istanze tecniche, rispetto al campo della giustizia. In questo saggio, l'autore, avvocato penalista, tratta il rapporto tra diritto, giustizia, neuroscienze e intelligenza artificiale.
