Life is often referred to as a journey. Without a doubt, every person who uses that analogy does so from at least a different perspective and likely a different reason. Sometimes it is because they have found life hard, and the term journey represents the struggle and its length they have experienced. There is some of that factor in our so titling the book. Other times, it is used to express finding life delivering beyond their expectations, and the experience took them where they never imagined going. There is that factor in our so titling the book also. Sometimes it is because life seems mundane, repetitious, and they feel caught in its cycle. There is nothing of that in our book. There is a poem called "Footprints in the Sand" by Mary Fishback Powers that illustrates the caring hand of God she experienced in hard times of life when she saw only one set of prints. Too often, that is all we look for""help in the parts of life's journey we think we need help with. True, we should look for that, but the promise of God to his children is, "I will never leave nor forsake you;" good or hard times. This book was written to demonstrate the truth and reality of that promise made over 200 times in various wordings of the Bible. This book was written""no, had to be written""so every child of God is alertly looking for what God is doing for them every day in ways they have not considered before. Then experience the amazement of realizing their Journey has been part of the Creator's plan from the beginning, who works all things according to his good and perfect will, so that they can know purpose and blessing in life and not just an aimless Journey.

During Hurricane Katrina, Dr. Louis Cataldie remained in New Orleans in dangerous and often unbearable conditions to attend to the sick, the injured-and the dead. As chief coroner of Baton Rouge, tending to the dead is Cataldie's job. A little town with big-city problems, Baton Rouge means "Red Stick"-and lives up to its bloody name. Cataldie has faced unusual and disturbing cases, from tracking three serial killers on the loose simultaneously while working the scene of a Malvo/ Muhammad Beltway Sniper shooting, to helping apprehend Baton Rouge serial killer Derrick Todd Lee in a controversial case that was featured in an ABC Primetime Live special with Diane Sawyer and Patricia Cornwell. Cataldie's maverick ways have made him a favorite target of the media, but he offers no apologies, and speaks for those who cannot speak for themselves. Graphic and frank, this is his unique, up-close look at his life spent stalking death in the Deep South.

Several encyclopedias overview the contemporary system of criminal justice in America, but full understanding of current social problems and contemporary strategies to deal with them can come only with clear appreciation of the historical underpinnings of those problems. Thus, this five-volume work surveys the history and philosophy of crime, punishment, and criminal justice institutions in America from colonial times to the present. It covers the whole of the criminal justice system, from crimes, law enforcement and policing, to courts, corrections and human services. Among other things, this encyclopedia: explicates philosophical foundations underpinning our system of justice; charts changing patterns in criminal activity and subsequent effects on legal responses; identifies major periods in the development of our system of criminal justice; and explores in the first four volumes - supplemented by a fifth volume containing annotated primary documents - evolving debates and conflicts on how best to address issues of crime and punishment. Its signed entries in the first four volumes--supplemented by a fifth volume containing annotated primary documents--provide the historical context for students to better understand contemporary criminological

debates and the contemporary shape of the U.S. system of law and justice.

Melissa Mitchell is going to be alone at the holidays, at least until her new friend Terri Coleman takes pity and invites her to the family home in rural North Carolina for an old-fashioned family Christmas. It sounds wonderful, and to top it all off, Terri has a single and very eligible brother, Richmond police detective Joe Coleman. Then Terri drops her bomb shell: the Coleman family is old-fashioned in more ways than one, and Terri has recently fallen afoul of her brother, who took care of the situation in the time-honored way. Could it happen again? There are issues unresolved between Terri and her brother, and Terri feels she needs to warn Melissa that no-nonsense Joe just might resort to spanking if he thought the situation warranted it. And that's not all: Terri's other brother and his wife are in a domestic discipline relationship, and are very open about it. As irritated as Melissa is that Terri has dragged her into family drama, Melissa also has a secret of her own: she's been fascinated with tales of old-fashioned over-the-knee-discipline forever, and the idea that that could occur in real life seems too much to believe. For a time, Jimmy spent his days unearthing pre-Colombian artifacts. LA detective, Drew Steele, takes on a new case while still recovering from life-threatening wounds he suffered in an IED explosion in Iraq where he was working for "the company" as a private contractor. The doctors told him he would never walk again, but he proved them wrong. After multiple surgeries, he is able to walk again using a high-tech prosthetic foot (which provides a convenient place to hide a tiny gun). Although he walks with a limp, don't call him a cripple; he's still one of the most successful and sought-after detectives in LA. His first case back in LA seems routine – a missing Las Vegas casino boss - and unrelated to what he was doing in Iraq, but the case turns decidedly dangerous when the missing man turns up dead with a strange message burned into the flesh of his forehead. When the autopsy reveals a grisly surprise in the dead man's stomach, Steele suspects it was put there to suggest the murder is somehow connected to drug trafficking in Crueltown, the criminal hideout in a toxic swamp near the LA-harbor where police are not allowed. But is Crueltown really at the center of this mystery, or is it one of his old enemies trying to draw him into a deadly trap? Crueltown is a Noir murder mystery that pits two brilliant minds against each other in a life and death struggle against a backdrop of the darker side of LA and Vegas.

It has, improbably, been called uncommonly lucid, even riveting by The New York Times, and it was a finalist for the 2004 National Book Awards nonfiction honor. It is a literally chilling read, especially in its minute-by-minute description of the events of the morning of 9/11 inside the Twin Towers. It is The 9/11 Commission Report, which was, before its publication, perhaps one of the most anticipated government reports of all time, and has been since an unlikely bestseller. The official statement by the National Commission on Terrorist Attacks Upon the United States-which was instituted in late 2002 and chaired by former New Jersey Governor Thomas Kean-it details what went wrong on that day (such as intelligence failures), what went right (the heroic response of emergency services and self-organizing civilians), and how to avert similar future attacks. Highlighting evidence from the day, from airport surveillance footage of the terrorists to phone calls from the doomed flights, and offering details that have otherwise gone unheard, this is an astonishing firsthand document of contemporary history. While controversial in parts-it has been criticized for failing to include testimony from key individuals, and it completely omits any mention of the mysterious collapse of WTC 7-it is nevertheless an essential record of one of the most transformational events of modern times.
