Based on the communicative approach, Dos mundos stresses the use of engaging activities in a natural and spontaneous classroom atmosphere. In this research-based approach to learning language, the development of communicative language skills is the central goal, with formal grammar presentation and practice at the service of communication.

Dos mundos, a best-selling program for Introductory Spanish known for its exceptional progressive activities, made its name as an innovative pioneer in Beginning Spanish. Today, it has maintained the spirit of innovation through many successful editions and continues to be implemented in numerous beginning Spanish language classes across the nation with outstanding results. Based on the communicative approach, Dos mundos stresses the use of engaging activities in a natural and spontaneous classroom atmosphere. The Actividades de comunicacion play a primary role in Dos mundos, since the core of the program is communication. These activities include fresh, practical ideas from the field of second-language teaching. In this research-based approach to learning language, the development of communicative language skills is the central goal, with formal grammar presentation and practice at the service of communication. To this end, the grammar explanations and exercises on the blue pages at the end of each chapter are designed for quick reference and ease of study. Additionally, cultural content is integrated throughout each chapter. The new Conozca section on each chapter opener gives an introduction of the country or region of focus, including information about holidays, foods, famous people, and important cities. Ventanas culturales readings focus on community, customs, and daily life while Ventanas al pasado readings focus on aspects of the social, cultural, or political history of the Spanish-speaking world The Enlace readings explore literature, music, and cinema, and the Lecturas present topics such as sports and leisure activities. Dos mundos is available with CENTRO a portal learning management system through which various digital components, including Quia™ Workbooks and Laboratory Manuals and interactive e-books can be purchased. This McGraw-Hill exclusive system offers a single log-in authentication for students and a single gradebook for instructors.

The science of climate change is a complex subject that balances the physical record and scientific fact with politics, policy, and ethics - and is of particular importance to the geosciences. This thoughtfully crafted new text and accompanying media encourage non-science majors to practice critical thinking, analysis, and discourse about climate change themes. Taking a cross-disciplinary approach, acclaimed educator and researcher, David Kitchen, examines not only the physical science, but the social, economic, political, energy, and environmental issues surrounding climate change. His goal: to turn knowledge into action, equipping students with the knowledge and critical skills to make informed decisions, separate facts from fiction, and participate in the public debate.

1984 is George Orwell's terrifying vision of a totalitarian future in which everything and everyone is slave to a tyrannical regime lead by The Party. Winston Smith works for the Ministry of Truth in London, chief city of Airstrip One. Big Brother stares out from every poster, the Thought Police uncover every act of betrayal. When Winston finds love with Julia, he discovers that life does not have to be dull and deadening, and awakens to new possibilities. Despite the police helicopters that hover and circle overhead, Winston and Julia begin to question the Party; they are drawn towards conspiracy. Yet Big Brother will not tolerate dissent - even in the mind. For those with original thoughts they invented Room 101. . .

The philosophy of this best-selling introductory Spanish text is to emphasize communicative proficiency. When a meteorite lands in Surrey, the locals don't know what to make of it. But as Martians emerge and begin killing bystanders, it quickly becomes clear—England is under attack. Armed soldiers converge on the scene to ward off the invaders, but meanwhile, more Martian cylinders land on Earth, bringing reinforcements. As war breaks out across England, the locals must fight for their lives, but life on Earth will never be the same. This is an unabridged version of one of the first fictional accounts of extraterrestrial invasion. H. G. Wells's military science fiction novel was first published in book form in 1898, and is considered a classic of English literature.

Esta propuesta nace de una estrecha interacción entre la práctica y la teoría, buscando contribuir a que los videojuegos comerciales se conviertan en un instrumento educativo. Con ellos se puede pensar apasionadamente. El libro es el resultado de casi diez años explorando estos objetos digitales, aprendiendo a jugar, conversando con sus diseñadores y distribuidores y, además, trabajando fuera y dentro de las aulas con familias, niños, niñas, jóvenes y el profesorado. Se ha buscado ir más allá de algunos estereotipos: El primero, los videojuegos son una pérdida de tiempo y, además, son violentos. No, porque los objetos como tales no son ni buenos ni malos, depende del modo en que se utilizan. El segundo, es difícil saber qué juego elegir. Sí, son grandes desconocidos y seleccionar uno u otro es importante para tener experiencias gratificantes, para ello esta obra aporta información sobre ellos pero también incluye cómo acceder a vídeos de presentación, blogs, foros y más lugares relacionados con cada videojuego. El tercero, los videojuegos son demasiado absorbentes. Sí lo son, sin duda, como también sucede con la ciencia o la literatura. Como siempre en la vida, la pasión y el pensamiento interactúan y modulan nuestras actividades y, por qué no también, las relaciones con los videojuegos.

This book develops the communication and literacy skills of heritage Spanish speakers with exercises that are designed to improve oral and written proficiency in the language. A caballo entre la autobiografía y el ensayo cultural, el pensamiento crítico de Noemi se sitúa sobre dos momentos fundacionales del cambio de época en Chile y el mundo: las violencias de 1989 y 2001. La primera desplaza el eje de las hegemonías autoritarias de la Guerra Fría hacia democracias funcionales al capital y la segunda moviliza el horizonte de sentido hacia una Guerra Global material y simbólica. Lúcidamente el autor construye un modelo de análisis en que las metáforas de la tecnología y la velocidad le sirven para reflexionar sobre las representaciones del tiempo, del espacio y del sujeto. Cuidadosamente escrito, el ensayo interroga a una imprescindible selección de novelas para indagar sobre los imaginarios de Latinoamérica, sus nuevas fronteras y la manera en la que la literatura documenta la memoria del acontecer.

MONEY, BANKING AND FINANCIAL MARKETS is an upper-level undergraduate text that was written with the idea that the money and banking course should be the most interesting and timely course in an economics curriculum. It provides in-depth coverage of the fundamental topics, principles and issues found in a money and banking course: the nature and functions of money, financial institutions and markets, and banking structure and regulation. The nature and structure of the Federal Reserve System is thoroughly covered in this new text, along with instruments of central bank policy, determinants of the level and term structure of interest rates, stock prices, foreign exchange rates, and the nation's money supply.
