

Curious George And The Rocket

Rocket loves books and he wants to make his own, but he can't think of a story. Encouraged by the little yellow bird to look closely at the world around him for inspiration, Rocket sets out on a journey. Along the way he discovers small details that he has never noticed before, a timid baby owl who becomes his friend, and an idea for a story. This irresistible sequel to the New York Times bestseller *How Rocket Learned to Read*—complete with audio narration—is sure to appeal to kids, parents, teachers, and librarians. This ebook includes Read & Listen audio narration.

This lively story captures George's adventure of becoming the first space monkey from the classic *Curious George Gets a Medal*.

George and Marco are curious about the celebrations going on in Chinatown. Luckily, their new friend Lily tells them all about Chinese New Year, and even asks for their help practicing the dragon dance for the big parade. But getting around in the dragon costume is hard work, and before they know it, their costume is in need of repair! Will they be able to fix it in time for the parade? This picture book, based on the Emmy Award-winning *Curious George* PBS TV show, includes bonus information about Chinese New Year traditions and fun crafts to celebrate with. ball behind on the night of the bowling championship, George works hard to get it to him before the competition starts.

A classic for all ages—the “wonderful” guide to the night sky by the creator of Curious George (Horn Book).

Containing star charts, a guide to the constellations, and details about seasons and the movement of the objects we see in the sky, this classic book makes H. A. Rey’s passion for astronomy evident on every page. New updates concentrate on the planetary and solar system information in the latter part of the book. Facts and figures for each planet have been revised, and new scientific information has been added, such as Pluto’s reclassification as a dwarf planet. There’s also a brand-new online resource that allows readers to track the positions of the planets in the night sky till the year 2100. “An excellent introduction to the heavens, to satisfy and stimulate a child’s interest...a very useful book.”—Kirkus Reviews “Persuades the reader that astronomy is not only easy—it’s fun.”—The New York Times “Excellent.”—Saturday Review

After creating a mess at the local fire station while taking a tour, George is swept along with the firefighters to the scene of a fire. Although he isn’t able to help put out the fire, George brings his own set of special monkey talents to the situation and proves that maybe a fire dog shouldn’t be the only animal allowed to come along for the ride. This new English/Spanish edition includes highly readable text.

George helps a little boy with his paper route and gets into all sorts of trouble.

This illustrated book gives young readers “a breathtaking and entirely original insight” into the complex systems that exist underneath modern cities (Kirkus, starred review). Caldecott Medal-winning author and illustrator David Macaulay takes readers on a visual journey through a city's various support systems—the many tunnels, pipes, walls, and other structures that help sustain the bustling life above. In *Underground*, Macaulay exposes a typical section of this intricate underground network and explains how it works. Along with his beautiful illustrations, Macaulay presents “a straightforward yet fascinating description of the labyrinth beneath the feet of any city dweller. And what a complex covered world [he] reveals! He invents an intersection of two streets and proceeds to show what we all might find if we dared to descend through that Alice-in-Wonderland manhole” (The New York Times).

Curious George explores his neighborhood in a story with lift-the-flap illustrations that also introduce basic concepts.
