There is nothing wrong with Alice. She is attractive, even beautiful. Then her father announces that as she is no Marilyn Monroe, she "must be nice to men." Wounded right to the depths of her being, Alice starts to fill that emptiness with food.

Once a pristine, natural paradise, CHIMA has become a battle ground for eight animal tribes. Best friends are now enemies. The animals fight for control of a natural resource called CHI, a powerful element that is both a source of life and potential destruction. Only a few brave heroes in CHIMA understand the true nature of CHI, and the possible downfall of CHIMA that will result from its misuse. Their stories, and the stories of those who seek to destroy them, are known as... THE LEGENDS OF CHIMA. The third volume in the hit series continues the adventures of Laval and his fellow members of the Lion tribe as they fight against Prince Cragger & the Crocodile tribe to preserve the balance of the mysterious force known as Chi.

Solar Heating and Cooling Systems: Fundamentals, Experiments and Applications provides comprehensive coverage of this modern energy issue from both a scientific and technical level that is based on original research and the synthesis of consistent bibliographic material that meets the increasing need for modernization and greater energy efficiency to significantly reduce CO2 emissions. Ioan Sarbu and Calin Sebarchievici present a comprehensive overview of all major solar energy technologies, along with the fundamentals, experiments, and applications of solar heating and cooling systems. Technical, economic, and energy saving aspects related to design, modeling, and operation of these systems are also explored. This reference includes physical and mathematical concepts developed to make this publication a self-contained and up-to-date source of information for engineers, researchers, and professionals who are interested in the use of solar energy as an alternative energy source. Includes learning aims, chapter summaries, problems and solutions to support the theories presented Puts a specific emphasis on the practical application of the technologies in heating and cooling systems Contains calculating equations for the energy and economic index of solar systems

In color throughout, Illustrated Manual of Injectable Fillers clearly evaluates the uses, limitations, and compositions of the growing variety of available fillers involved in face and body rejuvenation. It includes detailed techniques for the facial analysis and diagnosis of aging conditions. This resource helps you provide your patients with safe, reliable, and aesthetically pleasing results, including preventing and properly treating potential complications of filler usage. Clearly organized by anatomy, the book discusses the specific analysis, diagnosis, and treatment for the upper face, midface, lower face and neck, hands, and the torso (after liposuction). It is an excellent introduction for novices performing volume restoration procedures and an invaluable guide to novel techniques and advanced procedures for experienced physicians.

There are over 2000 registered historic buildings in Shanghai, with hundreds more waiting to be added. Most are pre-War structures and are either Western buildings, or Chinese-style buildings with a distinct Western influence. These include villas, offices, apartment buildings and shikumen (a house of both wood and brick). Structures were selected for this book because of the interesting stories behind them or because they were related to a topical news event.

60-80% of Java developers require only simple Java Web applications. For these advanced, specialized users, the optimal deployment tool for simple Java-based Web applications is the open source Tomcat Web application server, which has graduated from Jakarta to become a topline Apache project, Apache Tomcat. Pro Apache Tomcat 6 fills an important need in the very large, very under-served Tomcat tech market. Unlike beginner manuals, this book wastes no time on Java or JSP introductions, and discusses JSP and Java code minimally. Instead, it gets right to the point and teaches you to use the newest Tomcat, version 6.

Watching the kite ascend higher into the sky, ten-year-old Raghav felt butterflies run deep down his gut, inflating his desire to fly high in a supersonic jet. His kite, entangled with another, crashed onto the ground. The flight took off smoothly from the runway of her heart, only to be hit by turbulence and thunderstorms smashing the plane into an abandoned sea full of gloominess. There he saw a lighthouse, a ray of hope. She became his lifeguard and taught him to swim through the storm. Like a guiding angel, she enlightened him towards the path of self-discovery leading to his journey to the island called 'Bollywood.' Raghav rode on a roller coaster encompassing love, passion, and conflicts. Hopping from one town to another in search of his purpose, he landed in the city of love and lights, Paris, where he saw the horizon, an illusion of his world merging with hers. But just like the two poles on Earth never meet, so was his destiny. On one side, he had Diya whom he could never get, and on the other side was Niharika whom he could never lose, and in the midst of all the chaos, he found his treasure. Come along with him to discover his hidden treasure. Who knows! You might find yours too.
