Aboriginal rights do not belong to the broader category of universal human rights

because they are grounded in the particular practices of aboriginal people. So argues Peter Kulchyski in this provocative book from the front lines of indigenous people's struggles to defend their culture from the ongoing conquest of their traditional lands. Kulchyski shows that some differences are more different than others, and he draws a border between bush culture and mall culture, between indigenous people's mode of production and the totalizing push of state-led capitalism. *Aboriginal Rights Are Not Human Rights* provides much needed conceptual and historical analysis of aboriginal and treaty rights in Canada, and offers concrete suggestions to transform the current policy paradigm into one that supports and invigorates indigenous cultures in a contemporary context.

This exciting and groundbreaking fiction anthology showcases a number of new and emerging 2SQ (Two-Spirit and queer Indigenous) writers from across Turtle Island. These visionary authors show how queer Indigenous communities can bloom and thrive through utopian narratives that detail the vivacity and strength of 2SQness throughout its plight in the maw of settler colonialism's histories. Here, readers will discover bio-engineered AI rats, transplanted trees in space, the rise of a 2SQ resistance camp, a primer on how to survive Indigiqueerly, virtual reality applications, motherships at sea, and the very bending of space-time continuums queered through NDN time. *Love after the End* demonstrates the imaginatively queer Two-Spirit futurisms we have all been dreaming of since 1492. Contributors include Darcie Little Badger, Mari Kurisato, Kai Minosh Pyle, David Alexander Robertson, and jaye simpson.

The Papago Indians of the American Southwest say butterflies were created to gladden the hearts of children and chase away thoughts of aging and death. How the Butterflies Came to Be is one of twenty-four Native American tales included in *Native American Animal Stories*. The stories, coming from Mohawk, Hopi, Yaqui, Haida and other cultures, demonstrate the power of animals in Native American traditions. Parents, teachers and children will delight in lovingly told stories about "our relations, the animals." The stories come to life through magical illustrations by Mohawk artists John Kahionhes Fadden and David Fadden. "The stories in this book present some of the basic perspectives that Native North American parents, aunts and uncles use to teach the young. They are phrased in terms that modern youngsters can understand and appreciate ... They enable us to understand that while birds and animals appear to be similar in thought processes to humans, that is simply the way we represent them in our stories. But other creatures do have thought processes, emotions, personal relationships... We must carefully accord these other creatures the respect that they deserve and the right to live

A hands-on introduction to coding that teaches you how to program bots to do cool things in the game you love--Minecraft! This book takes the robotic "turtle" method, and extends it to the 3D, interactive world of Minecraft. You've mined for diamonds, crafted dozens of tools, and built all sorts of structures--but what if you could program robots to do all of that for you in a fraction of the time? In *Coding with Minecraft®*, you'll create a virtual robot army with Lua, a programming language used by professional game developers. Step-by-step coding projects will show you how to write programs that automatically dig mines, collect materials, craft items, and build anything that you can imagine. Along the way, you'll explore key computer science concepts like data types, functions, variables, and more. Learn how to:

- Program robots that make smart decisions with flow control
- Reuse code so that your robots can farm any crop you want, including wheat, sugar cane, and even cacti!
- Program a factory that generates infinite building supplies
- Design an algorithm for creating walls and buildings of any size
- Code yourself a pickaxe-swinging robotic lumberjack!
- Create a robot that digs mine shafts with stairs so you can explore safely

Bonus activities in each chapter will help you take your coding skills to the next level. By the end of the book, you'll understand how powerful coding can be and have plenty of robots at your beck and call.

Loyalty to the community is the highest value in Native American cultures, argues Jace Weaver. In *That the People Might Live*, he explores a wide range of Native American literature from 1768 to the present, taking this sense of community as both a starting point and a lens. Weaver considers some of the best known Native American writers, such as Leslie Marmon Silko, Gerald Vizenor, and Vine Deloria, as well as many others who are receiving critical attention here for the first time. He contends that the single

thing that most defines these authors' writings, and makes them deserving of study as a literature separate from the national literature of the United States, is their commitment to Native community and its survival. He terms this commitment "communitism"--a fusion of "community" and "activism." The Native American authors are engaged in an ongoing quest for community and write out of a passionate commitment to it. They write, literally, "that the People might live." Drawing upon the best Native and non-Native scholarship (including the emerging postcolonial discourse), as well as a close reading of the writings themselves, Weaver adds his own provocative insights to help readers to a richer understanding of these too often neglected texts. A scholar of religion, he also sets this literature in the context of Native cultures and religious traditions, and explores the tensions between these traditions and Christianity. Seventh-grader John "Crash" Coogan has always been comfortable with his tough, aggressive behavior, until his relationship with an unusual Quaker boy and his grandfather's stroke make him consider the meaning of friendship and the importance of family.

By combining provocative prose with photo-essay, *Time and the Suburbs* explores the disappearance of cities in North America under the weight of suburban, exurban, and other forms of development that are changing the way we live and do politics. Drawing on social theory from Henri Lefebvre and Guy Debord to Antonio Negri, this book reconceptualizes the tasks facing activists and social movements. This is both a provocative essay and introduction to important social theory for anyone interested in cities and urban development.

Created in response to requests from parents, preschool teachers, and childcare providers, this book belongs everywhere young children are. Includes tips for parents and caregivers.

In her debut collection of short stories, *Islands of Decolonial Love*, renowned writer and activist Leanne Simpson vividly explores the lives of contemporary Indigenous Peoples and communities, especially those of her own Nishnaabeg nation. Found on reserves, in cities and small towns, in bars and curling rinks, canoes and community centres, doctors offices and pickup trucks, Simpson's characters confront the often heartbreaking challenge of pairing the desire to live loving and observant lives with a constant struggle to simply survive the historical and ongoing injustices of racism and colonialism. Told with voices that are rarely recorded but need to be heard, and incorporating the language and history of her people, Leanne Simpson's *Islands of Decolonial Love* is a profound, important, and beautiful book of fiction.

Indigenous lands, halted the expansion of tar sands extraction and the pipeline construction at Standing Rock, and demanded justice for murdered and missing Indigenous women. In *As We Have Always Done*, Leanne Betasamosake Simpson locates Indigenous political resurgence as a practice rooted in uniquely Indigenous theorizing, writing, organizing, and thinking. Indigenous resistance is a radical rejection of contemporary colonialism focused around the refusal of the dispossession of both Indigenous bodies and land. Simpson makes clear that its goal can no longer be cultural resurgence as a mechanism for inclusion in a multicultural mosaic. Instead, she calls for unapologetic, place-based Indigenous alternatives to the destructive logics of the settler colonial state, including heteropatriarchy, white supremacy, and capitalist exploitation.

Considered by many to be mentally retarded, a brilliant, impatient fifth-grader with cerebral palsy discovers a technological device that will allow her to speak for the first time.

This remarkable collection of essays by leading Indigenous scholars focuses on the themes of freedom, liberation and Indigenous resurgence as they relate to the land. They analyze treaties, political culture, governance, environmental issues, economy, and radical social movements from an anti-colonial Indigenous perspective in a Canadian context. Editor Leanne Simpson (Nishnaabekwe) has solicited Indigenous writers that place Indigenous freedom as their highest political goal, while turning to the knowledge, traditions, and culture of specific Indigenous nations to achieve that goal. The authors offer frank and political analysis and commentary of the kind not normally found in mainstream books, journals, and magazines.

"The twenty-two contributors to this book demonstrate that focusing on everyday actions can be an important emancipatory site for highlighting the relational, experiential and dynamic nature of Indigenous resurgence. Overall, these daily acts of resurgence, at the community, family and personal levels, can be critical sites of resistance, education, and transformative change" -- Back cover.

Picking up where her modern classic *The Bean Trees* left off, Barbara Kingsolver's bestselling *Pigs in Heaven* continues the tale of Turtle and Taylor Greer, a Native American girl and her adoptive mother who have settled in Tucson, Arizona, as they both try to overcome their difficult pasts. Taking place three years after *The Bean Trees*, Taylor is now dating a musician named Jax and has officially adopted Turtle. But when a lawyer for the Cherokee Nation begins to investigate the adoption—their new life together begins to crumble. Depicting the clash between fierce family love and tribal law, poverty and means, abandonment and belonging, *Pigs in Heaven* is a morally wrenching, gently humorous work of fiction that speaks equally to the head and the heart. This edition includes a P.S. section with additional insights from Barbara Kingsolver, background material, suggestions for further reading, and more.

into a bizarre world of eccentric and unusual creatures. Lewis Carroll's prominent example of the genre of "literary nonsense" has endured in popularity with its clever way of playing with logic and a narrative structure that has influenced generations of fiction writing.

Dancing with Butterflies uses the alternating voices of four very different women whose lives interconnect through a common passion for their Mexican heritage and a dance company called *Alegría*. Yesenia, who founded *Alegría* with her husband, Eduardo, sabotages her own efforts to remain a vital, vibrant woman when she travels back and forth across the Mexican border for cheap plastic surgery. Elena, grief stricken by the death of her only child and the end of her marriage, finds herself falling dangerously in love with one of her underage students. Elena's sister, Adriana, wears the wounds of abandonment by a dysfunctional family and becomes unable to discern love from abuse. Soledad, the sweet-tempered illegal immigrant who designs costumes for *Alegría*, finds herself stuck back in Mexico, where she returns to see her dying grandmother. Reyna Grande has brought these fictional characters so convincingly to life that readers will imagine they know them.

Bland Simpson, the celebrated bard of North Carolina's sound country, has blended history, observation of nature, and personal narrative in many books to chronicle the people and places of eastern Carolina. Yet he has spent much of his life in the state's Piedmont, with regular travels into its western mountains. Here, for the first time, Simpson brings his distinctive voice and way of seeing to bear on the entirety of his home state, combining storytelling and travelogue to create a portrait of the Old North State with care and humor. Three of the state's finest photographers come along to guide the journey: Simpson's wife and creative partner, Ann Cary Simpson, professional photographer Scott Taylor, and writer and naturalist Tom Earnhardt. Their photos, combined with Simpson's rich narrative, will inspire readers to consider not only what North Carolina has been and what it is but also what we hope it will be. This book belongs on the shelf of longtime residents, newcomers, and visitors alike.

From its first publication in 1997, *Altered State* established itself as the definitive text on Ecstasy and dance culture. This new edition sees Matthew Collin cast a fresh eye on the heady events of the acid house 'Summer of Love' and the rave scene's euphoric escalation into commercial excess as MDMA became a mass-market narcotic. *Altered State* is the best-selling book on Ecstasy culture, using a cast of memorable characters to track the origins of the scene and its drug through psychedelic subcults, underground gay discos and the Balearic paradise of Ibiza, to the point where Tony Blair was using an Ecstasy anthem as an election campaign song. *Altered State* critically examines the ideologies and myths of the scene, documenting the criminal underside to the blissed-out image, shedding new light on the social history of the most spectacular youth movement of the twentieth century.

The new novel from the author of *As We Have Always Done*, a poetic world-building journey into the power of Anishinaabe life and traditions amid colonialism In fierce prose and poetic fragments, Leanne Betasamosake Simpson's *Noopiming* braids together humor, piercing detail, and a deep, abiding commitment to Anishinaabe life to tell stories of resistance, love, and joy. Mashkawaji (they/them) lies frozen in the ice, remembering the sharpness of unmuted feeling from long ago, finding freedom and solace in isolated suspension. They introduce the seven characters: Akiwenzii, the old man who represents the narrator's will; Ninaatig, the maple tree who represents their lungs; Mindimooyenh, the old woman, their conscience; Sabe, a gentle giant, their marrow; Adik, the caribou, their nervous system; and Asin and Lucy, the humans who represent their eyes, ears, and brain. Simpson's book *As We Have Always Done* argued for the central place of storytelling in imagining radical futures. *Noopiming* (Anishinaabemowin for "in the bush") enacts these ideas. The novel's characters emerge from deep within Abinhinaabeg thought to commune beyond an unnatural urban-settler world littered with SpongeBob Band-Aids, Ziploc baggies, and Fjällräven Kånken backpacks. A bold literary act of decolonization and resistance, *Noopiming* offers a breaking open of the self to a world alive with people, animals, ancestors, and spirits—and the daily work of healing.
