Presents a guide to the "inking" process, introducing the techniques and textures that make comics so visually appealing.

The comic book universe is adventurous, mystifying, and filled with heroes, villains, and cosplaying Comic-Con attendees. This book by one of Wired magazine's art directors traverses the graphic world through a collection of pie charts, bar graphs, timelines, scatter plots, and more. Super Graphic offers readers a unique look at the intricate and sometimes contradictory storylines that weave their way through comic books, and shares advice for navigating the pages of some of the most popular, longest-running, and best-loved comics and graphic novels out there. From a colorful breakdown of the DC Comics reader demographic to a witty Venn diagram of superhero comic tropes and a Chris Ware sadness scale, this book charts the most arbitrary and monumental characters, moments, and equipment of the wide world of comics. Plus, this is the fixed format version, which includes high-resolution images. Explore the origin of Batman through DC Comics' Detective Comics covers in this second volume of the miniature art book series. Hold the comic book history of DC Comics' Detective Comics in the palm of your hand with DC Comics: Detective Comics: The Complete Covers Omnibus Vol. 2.
