Following Ford and Chevrolet, Pontiac entered the pony car market in 1967 and came up with one of the best and most successful muscle cars ever produced. Though based on the Camaro chassis, the Firebird offered unique features and high performance, and over its nearly 40 years of production it continued to wow drivers--as it does today. This book details the Firebird's long and illustrious career. With high-quality, detailed color photographs of some of the finer models--both originals and faithful restorations--the book is at once a unique history and a restoration guide to all four generations of the Firebird. Pictures and text profile the correct parts, finishes, options, and trim pieces for various models. The book also covers the vehicle's wide variety of engine options, along with all special editions and model variations from the Firebird's introduction in 1967 to the final model in 2002.

In Information Rules, authors Shapiro and Varian reveal that many classic economic concepts can provide the insight and understanding necessary to succeed in the information age. They argue that if managers seriously want to develop effective strategies for competing in the new economy, they must understand the fundamental economics of information technology. Whether information takes the form of software code or recorded music, is published in a book or magazine, or even posted on a website, managers must know how to evaluate the consequences of pricing, protecting, and planning new versions of information products, services, and systems. The first book to distill the economics of information and networks into practical business strategies, Information Rules is a guide to the winning moves that can help business leaders navigate successfully through the tough decisions of the information economy.

Set in the 1980s against a backdrop of the AIDS crisis, deindustrialization and the Reagan era, this book tells the story of one individual's defiant struggle against his community--the city of Kokomo, Indiana. At the same time as teenage AIDS patient Ryan White bravely fought against the intolerance of his hometown to attend public school, one of Kokomo's largest employers, Continental Steel, filed for bankruptcy, significantly raising the stakes of the fight for the city's livelihood and national image. This book tells the story of a fearful time in our recent history, as people in the heartland endured massive layoffs, coped with a lethal new disease and discovered a legacy of toxic waste. Now, some 30 years after Ryan White's death, this book offers a fuller accounting of the challenges that one city reckoned with during this tumultuous period.
