The biennial Southeast Conference on Foreign Languages, Literatures, and Film (SCFLLF), supported by a generous grant from the College of Arts and Sciences at the University of South Florida and the administrative support of the USF Department of World Languages, convened for the 21st time on February 21-22, 2014. The conference, which has been held in various locations throughout Florida since 1983, featured 60 speakers from the US and abroad who shared their research on various topics related to literature, film, culture, language learning, and linguistics. The conference did not feature a specific theme in order to encourage the sharing of a wide array of topics, interests, investigations, and formats that stimulate productive conversations and discussions among divergent fields, languages, and historical periods, resulting in collaborations and connections that continue beyond the conference meeting. In the spirit of showcasing eclectic scholarship and fostering interdisciplinarity, the 21st SCFLLF featured 20 sessions that focused on cultural and linguistic output in languages as diverse as Arabic, Japanese, Chinese, French, Gaelic, German, Italian, Latin, Russian, and Spanish.

When the federal government transferred 1700 acres around Deception Pass to Washington State Parks in 1922, Deception Pass State Park was barely an idea. Lacking the funds and manpower to develop the site, citizens could only dream of the area's enormous potential as a future park. The spark that finally made Deception Pass a reality came during the Great Depression in the form of federal legislation. To fight massive national unemployment, the Civilian Conservation Corps was created in 1933. The program put young men to work restoring and developing the nation's natural resources and recreational lands. Deception Pass was home to two CCC camps. For nearly a decade members built trails, roads, picnic shelters, restrooms, bathhouses, and other features that remain visible and useful in the park to this day. Lacking modern machinery and financial resources, most of their work was completed using little more than basic tools and their own hands. Through photographs from public and private collections this book documents that work and honors the achievements of the men of the CCC in creating the developed landscapes of Deception Pass State Park.

2021-22 BPSC & JPSC AE SOLVED PAPERS

The study of language in written texts and transcripts of speech is greatly helped by a student's ability to identify and describe those prominent features of the grammar which make one variety of English different from another. A Course Book in English Grammar looks at many of the problems encountered by students and encourages them to find their own answers and to assess hypotheses about grammatical description. There are activities at each step, using authentic written and spoken data. Using 'real' texts avoids the faking of evidence to be found in some traditional grammar books, and interesting problems of analysis that arise in such texts are a source of useful discussion. The book has been thoroughly revised and expanded for this second edition, which contains additional chapters and material. A new opening chapter discusses the concept of 'grammatically correct English' and the differences between descriptive, prescriptive and proscriptive approaches to the writing of grammar books. The book is a systematic description of Standard English, and examples of contemporary spoken dialectal grammar are introduced and analysed to illustrate the differences between standard and

nonstandard usage. A Course Book in English Grammar will prove invaluable to all students of English Language.

It has, improbably, been called uncommonly lucid, even riveting by The New York Times, and it was a finalist for the 2004 National Book Awards nonfiction honor. It is a literally chilling read, especially in its minute-by-minute description of the events of the morning of 9/11 inside the Twin Towers. It is The 9/11 Commission Report, which was, before its publication, perhaps one of the most anticipated government reports of all time, and has been since an unlikely bestseller. The official statement by the National Commission on Terrorist Attacks Upon the United States—which was instituted in late 2002 and chaired by former New Jersey Governor Thomas Kean—it details what went wrong on that day (such as intelligence failures), what went right (the heroic response of emergency services and self-organizing civilians), and how to avert similar future attacks. Highlighting evidence from the day, from airport surveillance footage of the terrorists to phone calls from the doomed flights, and offering details that have otherwise gone unheard, this is an astonishing firsthand document of contemporary history. While controversial in parts—it has been criticized for failing to include testimony from key individuals, and it completely omits any mention of the mysterious collapse of WTC 7—it is nevertheless an essential record of one of the most transformational events of modern times.

This book provides a comprehensive overview of Hispanic applied linguistics, allowing students to understand the field from a variety of perspectives and offering insight into the ever-growing number of professional opportunities afforded to Spanish language program graduates. The goal of this book is to re-contextualize the notion of applied linguistics as simply the application of theoretical linguistic concepts to practical settings and to consider it as its own field that addresses language-based issues and problems in a real-world context. The book is organized into five parts: 1) perspectives on learning Spanish 2) issues and environments in Spanish teaching 3) Spanish in the professions 4) the discourses of Spanish and 5) social and political contexts for Spanish. The book's all-inclusive coverage gives students the theoretical and sociocultural context for study in Hispanic applied linguistics while offering practical information on its application in the professional sector.

Traces Puerto Rican industrialization since the 1950s from the point of view of a young girl, covering incidents that are important to children but often dismissed as trivial by adults

In this provocative book, one of our most eminent political scientists questions the extent to which the American Constitution furthers democratic goals. Robert Dahl reveals the Constitution's potentially antidemocratic elements and explains why they are there, compares the American constitutional system to other democratic systems, and explores how we might alter our political system to achieve greater equality among citizens. In a new chapter for this second edition, he shows how increasing differences in state populations revealed by the Census of 2000 have further increased the veto power over constitutional amendments held by a tiny minority of Americans. He then explores the prospects for changing some important political practices that are not prescribed by the written Constitution, though most Americans may assume them to be so.

The CEFR Companion volume broadens the scope of language education. It reflects academic and societal developments since the publication of the Common European Framework of Reference for Languages (CEFR) and updates the 2001 version. It owes much to the contributions of members of the language teaching profession across Europe and beyond. This volume contains: ? an explanation of the key aspects of the CEFR for teaching and learning; ? a complete set of updated CEFR descriptors that replaces the 2001 set with: - modality-inclusive and gender-neutral descriptors; - added detail on listening and reading; - a new Pre–A1 level, plus enriched description at A1 and C levels; - a replacement scale for phonological competence; - new scales for mediation, online interaction and plurilingual/pluricultural competence; - new scales for sign language competence; ? a short report on the four-year development, validation and consultation processes. The CEFR Companion volume represents another step in a process of engagement with language education that has been pursued by the Council of Europe since 1971 and which seeks to: ? promote and support the learning and teaching of modern languages; ? enhance intercultural dialogue, and thus mutual understanding, social cohesion and democracy; ? protect linguistic and cultural diversity in Europe; and ? promote the right to quality education for all.

Benny Lewis, who speaks over ten languages—all self-taught—runs the largest language-learning blog in the world, Fluent In 3 Months. Lewis is a full-time "language hacker," someone who devotes all of his time to finding better, faster, and more efficient ways to learn languages. Fluent in 3 Months: How Anyone at Any Age Can Learn to Speak Any Language from Anywhere in

the World is a new blueprint for fast language learning. Lewis argues that you don't need a great memory or "the language gene" to learn a language quickly, and debunks a number of long-held beliefs, such as adults not being as good of language learners as children.

"One of the most vital and original novelists of her generation." —Larissa MacFarquhar, *The New Yorker* From the bestselling author of *Americanah* and *We Should All Be Feminists* Fifteen-year-old Kambili and her older brother Jaja lead a privileged life in Enugu, Nigeria. They live in a beautiful house, with a caring family, and attend an exclusive missionary school. They're completely shielded from the troubles of the world. Yet, as Kambili reveals in her tender-voiced account, things are less perfect than they appear. Although her Papa is generous and well respected, he is fanatically religious and tyrannical at home—a home that is silent and suffocating. As the country begins to fall apart under a military coup, Kambili and Jaja are sent to their aunt, a university professor outside the city, where they discover a life beyond the confines of their father's authority. Books cram the shelves, curry and nutmeg permeate the air, and their cousins' laughter rings throughout the house. When they return home, tensions within the family escalate, and Kambili must find the strength to keep her loved ones together. *Purple Hibiscus* is an exquisite novel about the emotional turmoil of adolescence, the powerful bonds of family, and the bright promise of freedom.

This volume comprises cutting edge research on language contact and change. The chapters present a wide scope of settings in which Spanish is in contact with other languages, such as Catalan, English, and Quechua; a large breadth of geographical areas (e.g., United States, Puerto Rico, Colombia, Brazil, Argentina); and varied participant groups, ranging from dialect contacts, second-language learners and heritage speakers to balanced bilinguals and code-switchers. Taken together, the chapters provide rich empirical descriptions of data pertaining to different levels of language, diverse – naturalistic and experimental – methodological approaches to data collection, as well as theoretical implications of the findings. The interdisciplinary perspective adopted by the authors contributes to the linguistic analysis and offers important insights into theoretical linguistics in general, and into theories of sociolinguistics, language variation, bilingualism, and second language acquisition.
