Many years have now passed since the greatest period of European dominance by any English football club came to an end. Between 1977 and 1984, Liverpool won the European Cup an unprecedented four times and established themselves as the number-one team in Europe. It was during the successful European Cup campaigns of 1981 and 1984 that the unlikely figure of Alan Kennedy came to dominate the headlines. Folk-hero left-back Alan Kennedy - nicknamed 'Barney Rubble' by fans after The Flintstones character due to his straightforward, no-frills approach to the game - scored the winning

goal in the 1981 European Cup final against Real Madrid, as well as the nerve-twanging winning shoot-out penalty against AS Roma in 1984, a feat which secured his position in European football history. Kennedy's Way examines Kennedy's footballing career under manager Bob Paisley (and, later, under Joe Fagan) and provides a retrospective account of Liverpool's dominance during those years. Drawing on Kennedy's memories of the period, as well as those of other players and backroom staff involved with the Reds at that time, it is an irreverent, revealing account of the dressing-room culture at the club while it was at the height of its powers. The book concludes with reflections on Kennedy's post-playing life and on the trajectory of Liverpool since the Heysel and Hillsborough tragedies, in 1985 and 1989 respectively, right up to recent events at the club, including the exit of Gerard Houllier and the team's dramatic return to the pinnacle of European club football under new manager Rafael Benitez.

The M1 remains the only main battle tank in the inventories of the US Army and the US Marine Corps, with years of service to come, while no replacement has been procured. “Red November delivers the real life feel and fears of submariners who risked their lives to keep the peace.” —Steve Berry, author of *The Paris Vendetta* W. Craig Reed, a former navy diver and fast-attack submariner, provides a riveting portrayal of the secret underwater struggle between the US and the USSR in *Red November*. A spellbinding true-life adventure in the bestselling tradition of *Blind Man’s Bluff*, it reveals previously undisclosed details about the most dangerous, daring, and decorated missions of the Cold War, earning raves from New York Times bestselling authors David Morrell, who calls it, “palpably gripping,” and James Rollins, who says, “If Tom Clancy had turned *The Hunt for Red October* into a nonfiction thriller, *Red November* might be the result.” A telephone message is left at a chess club, instructing one of its members, insurance agent William Wallace, to meet a Mr. Qualtrough. But the address given by the mystery caller does not exist, so Wallace returns home--only to find his wife Julia has been bludgeoned to death. The case turns on the telephone call. Who made it? The police thought it was Wallace, creating an alibi that might have come straight from an Agatha Christie thriller. Others believe Wallace innocent but disagree on the identity of the murderer. This *Cold Case Jury* book recreates the unsolved crime in an evocative and compelling way, presents fresh evidence, exposes the strengths and weaknesses of

past evidence, and then asks the reader to decide what happened in one of the most celebrated cold cases of all time.

The three pieces in Idaho Gems capture the spirit of this northwestern state. "White Pine Waltz" begins with a delicate melody in 3/4 meter inspired by the majestic western white pine, Idaho's state tree. The piece builds to a climactic middle section featuring flowing arpeggios in both hands before subsiding into a restatement of the theme. The second piece, "Craters of the Moon," paints a picture of the volcanic landscapes found in the national preserve of the same name. A repetitive chromatic figure in the lower register is combined with dissonant intervals in the upper register to capture the eerie otherworldliness of the park's lava fields. In "Snake River Rag," chromatic passages wind their way across the keyboard, inspired by the Snake River's twisted path through

the Idaho countryside. "Western Gem" provides a dynamic conclusion to the suite. The piece makes full use of the keyboard with block chords and scalar passages in both hands, while a modulation in the middle section provides an additional musical challenge.

world has ever known come to life with dramatic clarity in this troubling memoir. Trapped into surviving on the pittance realized by his family for growing the deadly health killing tobacco plant, Jeff struggles to understand the societal contradictions that control his existence throughout the twentieth century. Imagination and dreamy fantasies fertilize larger hopes for him as he plows his father's lonely fields and wrestles with the arbitrary behavioral imperatives that control his life. Cruelly deprived of broad cultural stimulation, Jeff struggles to realize dreams fostered by Hollywood myths and pulp fiction. Plentiful food--a gift of the land--adequate housing and most of all, a pervasive love and caring concern by others sharing this community of poverty and hard work, not only are sustaining but give him sweet lasting memories of those hard times. Anger at deprivations endured by his parents fuel ambitions to escape a life growing the noxious crops of tobacco. Nourished by the love, warmth and generosity of a large extended family living a similar life, Jeff survives to engage the larger world where he encounters the many problems that befall all human beings. Great gift for anyone who likes to get high and write music!

THE BOOK OF RESULTS (HARDBACK EDITION) Casting sigils is a highly effective form of sorcery and Sherwin provides a sound overview of the process. He cuts through the cant, rhetoric and old-fashioned moral baggage associated with magical practice and shows us how to use sigils to influence the subconscious, bypassing the often contradictory and usually self-sabotaging internal dialogue of the conscious mind. Sherwin takes the process of working with sigils and develops it into a fully ritualised technique. He describes a daily regime that, at first glance, seems to owe more to Abra-Melin than to Chaos magick. Some may think he strips magic(k) of its mystery, romance and grandeur, if so you should look elsewhere if you are

seeking enlightenment, union with the Divine, or fancy a chat with your Holy Guardian Angel. However, if like most of us, you simply want to create and fire a number of sigils to help you manifest your desires THE BOOK OF RESULTS provides the information you need. Sherrington amplifies and augments the principles and further demonstrates how they can be put into practice in everyday classrooms.
