Dr. Napoleon Hill's landmark book Think and Grow Rich does not restrict the concept of riches to such narrow parameters as fortune and fame. You have the right to be rich, and you deserve to be rich in every way—personally and spiritually—as well as financially. This seemingly simple idea spawned a philosophy about wealth and success that has permeated every generation since its inception. Your Right to Be Rich gathers transcripts from the most vital and important speeches given by Napoleon Hill. Available in the past only as audio editions and sound-bite snippets, transcripts from these speeches will be presented in print for the first time here.

At some point today you will have to influence or persuade someone - your boss, a co-worker, a customer, client, spouse, your kids, or even your friends. What is the smallest change you can make to your request, proposal or situation that will lead to the biggest difference in the

outcome? In *The small BIG*, three heavyweights from the world of persuasion science and practice -- Steve Martin, Noah Goldstein and Robert Cialdini -- describe how, in today's information overloaded and stimulation saturated world, increasingly it is the small changes that you make that lead to the biggest differences. In the last few years more and more research - from fields such as neuroscience, cognitive psychology, social psychology, and behavioral economics - has helped to uncover an even greater understanding of how influence, persuasion and behavior change happens. Increasingly we are learning that it is not information per se that leads people to make decisions, but the context in which that information is presented. Drawing from extensive research in the new science of persuasion, the authors present lots of small changes (over 50 in fact) that can bring about momentous shifts in results. It turns out that anyone can significantly increase his or her ability to influence and persuade others, not by informing or educating people into change but instead by simply making small shifts in approach that link to deeply felt human motivations.

The inspiring story of Reginald Lewis: lawyer, Wall Street wizard, philanthropist--and the wealthiest black man in American history. Based on Lewis's unfinished autobiography, along with scores of interviews with family, friends, and colleagues, this book cuts through the myth and hype to reveal the man behind the legend.

Drawn from the modern-day classic, *Think and Grow Rich* -- this new edition dives deeper into the 5 core secrets that have shown the greatest success. With these 5 lessons, you have the power to change your life and set you upon the path of learning and self-development. Originally published in 1937, Napoleon Hill draws on stories from Andrew Carnegie, Thomas Edison, Henry Ford, and more than 500 other men of great wealth to demonstrate his moneymaking philosophies. With simple and practical techniques, Hill teaches that great and lasting success is possible with nothing but thoughts, ideas, and organized plans.

Popular speaker, multimillionaire, and author of the all-time bestselling real-estate book *Nothing Down*, Robert G. Allen knows how to bring you financial success. With his seminars sweeping the nation, Allen is at the cutting edge of strategic wealth creation now more than ever. And in this completely revised edition of his classic bestseller *Creating Wealth* Allen gives you the basic principles that you need to stop thinking poor and start growing rich. Moving beyond just real estate, Allen goes straight to the core of people's inner motivations and beliefs about money to give you all the fundamentals of wealth creation. By developing a wealthy mind-set, anyone can take off into financial self-reliance -- and Allen shows you how. He explains the ways in which most of us have been programmed to think that only saving is good and debt and risk are bad, so that in our efforts to gain security, we cheat ourselves out of getting rich. The key to changing that mind-set is Allen's unique integration of real estate with other wealth-generating investments. In his trademark, easy-to-understand style Allen spells out all his practical applications and shows you how to: Take advantage of recent tax laws Use leverage to multiply holdings while minimizing risks Benefit from high-yield discount mortgages Acquire long-term profits in gold and silver coins Set up corporations and trusts to protect assets Find the highest rate of return with the greatest liquidity As Robert Allen has proved in his own life -- becoming a multimillionaire well before he was thirty-five -- it doesn't matter how much or how little money you have when you start as long as you understand the right principles -- timeless principles that can make you a fortune.

"By telling the little-known stories of six pioneering African American entrepreneurs, *Black Fortunes* makes a worthy contribution to black history, to business history, and to American history."—Margot Lee Shetterly, *New York Times* Bestselling author of *Hidden Figures* Between the years of 1830 and 1927, as the last generation of blacks born into slavery was reaching maturity, a small group of industrious, tenacious, and daring men and women broke new ground to attain the highest levels of financial success. Mary Ellen Pleasant, used her Gold Rush wealth to further the cause of abolitionist John Brown. Robert Reed Church, became the largest landowner in Tennessee. Hannah Elias, the mistress of a New York City millionaire, used the land her lover gave her to build an empire in Harlem. Orphan and self-taught chemist Annie Turnbo-Malone, developed the first national brand of hair care products. Mississippi school teacher O. W. Gurley, developed a piece of Tulsa, Oklahoma, into a "town" for wealthy black professionals and craftsmen that would become known as "the Black Wall Street." Although Madam C. J Walker was given the title of America's first female black millionaire, she was not. She was the first, however, to flaunt and openly claim her wealth—a dangerous and revolutionary act. Nearly all the unforgettable personalities in this amazing collection were often attacked, demonized, or swindled out of their wealth. *Black Fortunes* illuminates as never before the birth of the black business titan.

The common language that the people of the world have been seeking is found in water crystals. Water speaks for what is in our mind. Water awakens the subconscious memory in each person. . . . I now know why water is indispensable to the phenomenon of life, and why alternative therapies exist and why they're effective. Water helped me understand religion and prayer and gave me a clue to understanding the nature of energy. It helped me understand the relationship between humanity and the cosmos. It gave me a clue to help me understand what dimensionality is. I could come one step closer to understanding the eternal theme of humanity that asks where we come from, why we are here, and what happens when we die. Thus, for the release of this, the third volume in my series of *The Message from Water*, I decided to choose what the world most urgently needs at present as a theme. That is, of course, the need to eliminate war and terrorism throughout the world. The theme I have chosen is prayer.' When I thought about it more deeply, I realized that prayer is most effectively sent when each person in the world raises their energy of love by imagining a scene where the peoples of the world are living in peace. I've been taught this through the process of asking water many questions. For this reason, the title of this book is *Love Thyself*.' First you must shine with positive, high-spirited vibrations, and be full of love. In order to do that, I think it's important to love, thank, and respect yourself. If that's the case, then each of those vibrations will be sent out into the world and the cosmos, and the great symphony of that harmonic vibration will wrap our planet in waves of love that serve to cherish our Heaven-granted lives. This is the message from water.

"An inspiring and powerful success guide." *ESSENCE* Author and entrepreneur Dennis Kimbro combines bestselling author Napoleon Hill's law of success with his own vast knowledge of business, contemporary affairs, and the vibrant culture of Black America to teach you the secrets to success used by scores of black Americans, including: Spike Lee, Jesse Jackson, Dr. Selma Burke, Oprah Winfrey, and many others. The result is inspiring, practical, clearly written, and totally workable. Use it to unlock the treasure you have always dreamed of--the treasure that at last is within your reach. Part vocational pep rally, part how-to book, in *What Makes the Great Great*, bestselling author Dennis Kimbro explores the strategies and thought processes of successful African-Americans. *What Makes the Great Great* elaborates on the inspiring message Dennis Kimbro put forth in his first book *Think and Grow Rich--A Black Choice*. Through dozens of interviews and the inspirational stories of people like John H. Johnson, Publisher of *Ebony* magazine, Condoleezza Rice,

Provost of Stanford University, and Ann Fudge, President of Maxwell House Coffee, Dr. Kimbro outlines the nine strategies that determine success. According to Dr. Kimbro, being great depends on a commitment to making dreams come true: "All high achievers make choices, not excuses." We all have the seeds of greatness in us, and his book gives readers the tools to discover and nurture those seeds, showing them how to motivate themselves to master every aspect of their lives.

Inside are the tools that will help you focus on the thoughts, attitudes, and deeds that will lead to the achievement of your true goals. In 365 short, powerful motivations, one for each day of the year, Dennis Kimbro, author of the popular THINK AND GROW RICH: A BLACK CHOICE, offers a treasure trove of practical inspiration that will give you fresh encouragement every day of the year. What it teaches you will last a lifetime.

In his previous bestsellers, *Think and Grow Rich* and *What Makes the Great Great*, Dennis Kimbro revealed the success secrets of highly touted entrepreneurs, corporate climbers, and Olympic athletes, as well as famous black Americans from George Washington Carver to Bill Cosby, Oprah Winfrey, and Jesse Jackson. In *What Keeps Me Standing*, he turns to another group of sages and mentors: the grandmothers who have long been the backbone of the African American family and community. Over a period of five years, Kimbro contacted one thousand grandmothers--women from a wide range of backgrounds and locations--asking, "If you had to write a one page letter to your children or the next generation, what would you tell them about life?" Their answers, collected here, show that success in life cannot be measured in terms of wealth and material goods alone. The lives they describe and the advice they proffer capture both a richness in spirit and a strong belief in the power of every individual to take charge of his or her own destiny. In the face of racism, both blatant and subtle, financial struggles, and personal setbacks, black grandmothers have helped their communities in thousands of tangible and intangible ways, providing support, inspiration, and love not only to their own children and grandchildren but also to neighbors, friends, and extended families. Filled with examples of how even the smallest acts of kindness and compassion can make a difference in the world, *What Keeps Me Standing* is a treasure trove of the wisdom that comes with years of experience, transformation, and growth. It is the perfect gift.

In a climate where whites who criticize affirmative action risk being termed racist and blacks who do the same risk charges of treason and self hatred, a frank and open discussion of racial preference is difficult to achieve. But, in the first book on racial preference written from personal experience, *Reflections of an Affirmative Action Baby*, Stephen L. Carter, Cromwell Professor of Law at Yale University and self-described beneficiary (and, at times, victim) of affirmative action, does it. Using his own story of success and frustration as "an affirmative action baby" as a point of departure, Carter, who has risen to the top of his profession, provides an incisive analysis of one of the most incendiary topics of our day—as well as an honest critique of the pressures on black professionals and intellectuals to conform to the "politically correct" way of being black. Affirmative action as it is practiced today not only does little to promote racial equality, Carter argues, but also allows the nation to escape rather cheaply from its moral obligation to undo the legacy of slavery. Affirmative action, particularly in hiring often reinforces racist stereotypes by promoting the idea that the black professional cannot aspire to anything more than being "the best black." Has the time come to abandon these programs? No--but affirmative action must return to its simpler roots, Carter argues: to provide educational opportunities for those who might not otherwise have them. Then the beneficiaries should demand to be held to the same standards as anyone else.

The thirteen principles of Napoleon Hill's *Think and Grow Rich* in a new, low-priced, pocket-sized condensation that you can carry anywhere!

"Should I lower my price point? Give my new product away for free online? How do I compete when my goods, services, or business model might be duplicated?" In this candid, 21st-century-savvy guide, Dante Lee illustrates how passion can become profit by addressing the questions that every businessperson needs to ask. *Black Business Secrets* discusses the entrepreneurial skills that African-American business owners must master in order to compete in a world where most new companies fail within three years. Whether you're a weekend entrepreneur or a career-changing professional, Lee's motto—"don't be a worrier, be a warrior"—applies. From personal branding to best practices, this empowering blueprint offers surefire tips and strategies designed to ensure business survival and success.

Women are the future of American business. According to a recent Nielsen report, women will control two-thirds of American consumer wealth in less than a decade. And yet almost all business and success literature is still written for men—dispensing advice that doesn't take into account women's unique strengths or address the demands of family life on mothers. *Think and Grow Rich for Women* is a powerful new book—from the award-winning author of *Think and Grow Rich: Three Feet from Gold* and coauthor of the multimillion-selling *Rich Dad, Poor Dad*. It combines Hill's classic *Thirteen Steps to Success* with case studies of noteworthy women (including Sandra Day O'Connor, Maya Angelou, Katie Couric, Caroline Kennedy, Madonna, Oprah Winfrey, Margaret Thatcher, Condoleezza Rice, J. K. Rowling, Barbara De Angelis, Marianne Williamson, Angela Merkel, Mary Kay Ash, IBM CEO Ginni Rometty and many more), outlining a master plan for success for all women.

Presents a motivational program for African Americans to train the mind so they can overcome societal roadblocks to achieve empowerment and the life of their dreams.

"My destiny has never been pre-determined by my skin color, more than anything else, it is being shaped by the choices I make daily, good and bad." This book follows author Melissa Tate's early life growing up in Africa and eventual migration to the United States. Tate contends that, in America, it is a person's good choices, not their skin color, that determines the upward trajectory of his or her life. After migrating to the United States at age nineteen for college, her experience in America has been a living contradiction to the false "white privilege" narrative. In spite of being "black in America," Tate has been able to achieve great success to which she credits to hard work, determination, good choices, and her faith in God. Her story, like many African immigrants, is at odds with propaganda peddled by the left. She lives a life of privilege as the fruit of hard work, doing things in the right order and prioritizing life in a way that places God first, then family, then her career. Tate discusses the cultural parallels between African culture vs neo-Black American culture as a means to explain the economic disparities

seen between African immigrants (who tend to thrive in America) and Black Americans. The larger neo-Marxist agenda behind critical race theory ideology, as a plot to racially divide and conquer the America from within, is discussed extensively in this book. Tate exposes this dangerous and divisive ideology as a "false religion" that is antithetical to biblical principles and an assault on the teachings of Martin Luther King, Jr. Tate offers solutions on how America can overcome this agenda, heal the racial divide, and fulfil its God-given destiny as the beacon of light, freedom, and prosperity in the world. Melissa Tate grew up in Africa. At the age of nineteen, she came to the United States to attend college, where she earned a degree in business administration. After working for a large bank for three years as an investment advisor, Tate started her own business. By age twenty-seven, Tate had a thriving small business with several employees. She is married to her college sweetheart and is, today, a mother of three. In recent years, Tate has been making a transition out of business and into politics. She has become a vocal conservative author and social media influencer.

It's no secret that these hard times have been even harder for the Black community. Approximately 35 percent of African Americans had no measurable assets in 2009, and 24 percent of these same households had only a motor vehicle. Dennis Kimbro, observing how the weight of the continuing housing and credit crises disproportionately impacts the African-American community, takes a sharp look at a carefully cultivated group of individuals who've scaled the heights of success and how others can emulate them. Based on a seven year study of 1,000 of the wealthiest African Americans, The Wealth Choice offers a trove of sound and surprising advice about climbing the economic ladder, even when the odds seem stacked against you. Readers will learn about how business leaders, entrepreneurs, and celebrities like Bob Johnson, Spike Lee, L. A. Reid, Herman Cain, T. D. Jakes and Tyrese Gibson found their paths to wealth; what they did or didn't learn about money early on; what they had to sacrifice to get to the top; and the role of discipline in managing their success. Through these stories, which include men and women at every stage of life and in every industry, Dennis Kimbro shows readers how to:

- Develop a wealth-generating mindset and habits
- Commit to lifelong learning
- Craft goals that match your passion
- Make short-term sacrifices for long-term gain
- Take calculated risks when opportunity presents itself
