Each volume in the Collector's Library series has a specially commissioned Afterword, brief biography of the author and further reading list. The Afterword is by leading UK playwright, novelist and eminent Sherlockian, David Stuart Davies. Surveying the expanding conflict in Europe during one of his famous fireside chats in 1940, President Franklin Roosevelt ominously warned that "we know of other methods, new methods of attack. The Trojan horse. The fifth column that betrays a nation unprepared for treachery. Spies, saboteurs, and traitors are the actors in this new strategy." Having identified a new type of war -- a shadow war -- being perpetrated by Hitler's Germany, FDR decided to fight fire with fire, authorizing the formation of the Office of Strategic Services (OSS) to organize and oversee covert operations. Based on an extensive analysis of OSS records, including the vast trove of records released by the CIA in the 1980s and '90s, as well as a new set of interviews with OSS veterans conducted by the author and a team of American scholars from 1995 to 1997, *The Shadow War Against Hitler* is the full story of America's far-flung secret intelligence apparatus during World War II. In addition to its responsibilities

generating, processing, and interpreting intelligence information, the OSS orchestrated all manner of dark operations, including extending feelers to anti-Hitler elements, infiltrating spies and sabotage agents behind enemy lines, and implementing propaganda programs. Planned and directed from Washington, the anti-Hitler campaign was largely conducted in Europe, especially through the OSS's foreign outposts in Bern and London. A fascinating cast of characters made the OSS run: William J. Donovan, one of the most decorated individuals in the American military who became the driving force behind the OSS's genesis; Allen Dulles, the future CIA chief who ran the Bern office, which he called "the big window onto the fascist world"; a veritable pantheon of Ivy League academics who were recruited to work for the intelligence services; and, not least, Roosevelt himself. A major contribution of the book is the story of how FDR employed Hitler's former propaganda chief, Ernst "Putzi" Hanfstaengl, as a private spy. More than a record of dramatic incidents and daring personalities, this book adds significantly to our understanding of how the United States fought World War II. It demonstrates that the extent, and limitations, of secret intelligence information shaped not only the conduct of the war but also the face of the world that emerged from the shadows.

Mysterious Light The Riddle of the Spinning Wheel "For of a sudden, through a break in the traffic, a scudding figure had sprung into sight. It was the figure of a man in a gray frock-coat and a shining 'topper,' a well-groomed, well-set-up man, with a small, turned-up moustache and hair of a peculiar reddish shade. As he swung into sight, the distant whistle shrilled again; far off in the distance voices sent up cries of 'Head him off!' 'Stop that man!' . . ." (Excerpt) Thomas W. Hanshew (1857-1914) was an American author best known for his Hamilton Cleek Detective Series, written in collaboration with his wife, Mary E. Hanshew (1852-1927). Going behind the scenes of the theatrical, ingenious productions of the master of "impossible crime" and "locked room" mysteries, a look at the world and adventures of John Dickson Carr shows how the man and his work were one. world like you've never heard them before. Waiting for the Punch features the stories and thoughts of such luminaries as Amy Schumer, Mel Brooks, Will Ferrell, Amy Poehler, Sir Ian McKellen, Lorne Michels, Judd Apatow, Lena Dunham, Jimmy Fallon, RuPaul, Louis CK, David Sedaris, Bruce Springsteen, and President Obama. This book is not simply a collection of these interviews, but instead something more wondrous: a running narrative of the world's most recognizable names working through the problems, doubts, joys, triumphs, and failures we all experience. With each chapter covering a different topic: parenting, childhood, relationships, sexuality, success, failures and others, Punch becomes a sort of everyman's guide to life. Barack Obama candidly discusses the challenges of the presidency, and the bittersweet moments of seeing your children grow up. Amy Schumer recounts the pain of her parents' divorce. Molly Shannon uproariously remembers the time she and her best friend hopped a plane from Ohio to New York City when they were twelve on a dare. Amy Poehler dishes on why just because you become a parent doesn't mean you have to like anybody else's kids but your own. Bruce Springsteen expounds on the dual nature of desperation to both motivate and devastate. Full of stories that are at once laugh-out loud funny, heartbreakingly honest, joyous, tragic and powerful, Waiting for the Punch is a book to be read from cover to cover, but it is also one to return to again and again. Collection of short stories, starring consulting detective Hamilton Cleek and his incredible skills at disguise. Originally published in 1910.

The works of British short story author H.H. Munro, who wrote under the pen name "Saki" (a pen name he probably borrowed from The Rubaiyat of Omar Khayyam), offer a satirical commentary on Edwardian society and culture. In this edition seven short stories selected to honor the author's great work, a reading that will please and surprise the reader. A Thousand Cuts is a harrowing, sobering and ultimately inspiring autobiography of Professor T.J. Joseph, who in 2010 became the victim of a brutal terrorist assault, accused of blasphemy after setting an exam question that enraged fundamentalists. This book is an important reminder of the pernicious effect of religious extremism and the duty of every person to speak out against those who would silence free expression' SHASHI THAROOR 'There is excruciating agony here, but also black humour and irony that enliven and lighten the narrative even at the height of anguish' K. SATCHIDANANDAN 'The poignant tale, with its sense of urgency and helplessness, has been sensitively translated as A Thousand Cuts' RANA SAFVI A chilling account of religious extremism In 2010, T.J. Joseph, a professor of Malayalam at Newman College, Kerala, framed an innocuous question for an internal examination that changed his life forever. Following

a trumped-up charge of blasphemy, members of a radical Islamist organization set upon him in public, viciously maiming him and chopping off his right hand. His memoir, told with amazing restraint and wry humour, is the moving tale of his life and family as they went through hell and beyond. Here's the extraordinary story of a man who survived dismembering only to be betrayed by his own Church. Let alone stand by him, it robbed him of his livelihood and isolated him from his community, driving Joseph's long-suffering wife to melancholia and eventual suicide. Joseph's story is one of fortitude, will power, forgiveness and compassion, told with rare wit that will make readers chuckle through their tears. This is a tale that will leave the reader seething, weeping and smiling by turns.

The exploits of the great Victorian Detectives, Poe's C. Auguste Dupin, Gaboriau's Lecoq, and most famously, Arthur Conan Doyle's Sherlock Holmes, are well known. But what of those fictional detectives that came after, those of the Edwardian Age? The period between the death of Queen Victoria and the First World War had been called the Golden Age of the detective short story, but how familiar is the modern reader with the sleuths of this era? And such an extraordinary group they were, including in their numbers an unassuming English priest, a blind man, a master of disguises, a lecturer in medical jurisprudence, a noble woman working for Scotland Yard, and a savant so brilliant he was known as "The Thinking Machine." To introduce readers to these

This book considers teaching in modern institutional settings, among other things, as the ethical questioning and reversal of passively accepted prejudices, particularly in contexts of diversities and inequalities. Its thematic focus is the ethics of teacher-learner and learner-learner relationships within the democratic setup, and the possibilities of critique and transformation emerging out of such a relationship. The first theme of the book is diversity and pluralism, the second is the

question of inequality in such contexts of radical diversity. With respect to this question, an unavoidable phenomenon of our times is the capitalisation of education and the reductionist view of learners as customers and consumers of knowledge. The approach to education that sees students merely as skilled human resources to be readied for the job market militates against critical thinking and do not respond appropriately to the questions of diversity and inequality. Thus, a significant focus of the book is the impact of inherited inequalities of caste and race on classroom ambience and teachers' interventions in the modern institutional context. The pertinent question is the increasing unwillingness of teachers to recognise and challenge discriminatory views and play their role in social transformation. In this regard, the teaching and learning of the humanities is also investigated. Teaching and the traditional classroom, it is often said, may not be required in the future as machines and remotely located teachers/explicators might claim their place. Hence, another question of focus is whether such a future would be hospitable to the critical task of education to cultivate young citizens of democracies.

"The best mysteries--whether detective, historical, police procedural, cozy, or comedy--have one thing in common: a memorable perpetrator. These are the rogues and villains who haunt our imaginations--and who often have more in common with their heroic counterparts than we might expect. Now, for the first time ever, Otto Penzler gathers the iconic traitors, thieves, con men, sociopaths, and killers who have crept through the mystery canon over the past 150 years"--Amazon.com.

Poetry. Latino/Latina Studies. LGBT Studies. "Like Whitman, Quesada is a poet of motion—journeying to the center of the US, where the traditions and innovations of first-generation Americans traverse the meditative starbursts of hills; ford rivers; cross prairies; and seek out 'the alpenglow of tomorrow and tomorrow.' From Costa Rica to Los Angeles and across the continent, Quesada's poems chronicle one family's history: from the courtship of his parents to their separation, from his childhood struggles to awakening desire from his mother's lottery winnings to his own personal losses, Ruben Quesada carries us toward 'that seam in space' where dream and experience intersect. This isn't the story of what it means to come to this country. It's the story of what it means to belong here"—D. A. Powell.
