Fellowship who were not professional writers, nor did they speak for A.A. but only for themselves, from their own experiences in sobriety. Thus the book offers sharing, day by day, from a broad cross section of members, which focuses on the Three Legacies of Alcoholics Anonymous: Recovery, Unity and Service. Daily Reflections has proved to be a popular book that aids individuals in their practice of daily meditation and provides inspiration to group discussions even as it presents an introduction for some to A.A. literature as a whole.

Diary of an 8-Bit Warrior An Unofficial Minecraft Adventure

The groundbreaking investigative story of how three successive presidents and their military commanders deceived the public year after year about America's longest war, foreshadowing the Taliban's recapture of Afghanistan, by Washington Post reporter and three-time Pulitzer Prize finalist Craig Whitlock. Unlike the wars in Vietnam and Iraq, the US invasion of Afghanistan in 2001 had near-unanimous public support. At first, the goals were straightforward and clear:

to defeat al-Qaeda and prevent a repeat of 9/11. Yet soon after the United States and its allies removed the Taliban from power, the mission veered off course and US officials lost sight of their original objectives. Distracted by the war in Iraq, the US military became mired in an unwinnable guerrilla conflict in a country it did not understand. But no president wanted to admit failure, especially in a war that began as a just cause. Instead, the Bush, Obama, and Trump administrations sent more and more troops to Afghanistan and repeatedly said they were making progress, even though they knew there was no realistic prospect for an outright victory. Just as the Pentagon Papers changed the public's understanding of Vietnam, The Afghanistan Papers contains startling revelation after revelation from people who played a direct role in the war, from leaders in the White House and the Pentagon to soldiers and aid workers on the front lines. In unvarnished language, they admit that the US government's strategies were a mess, that the nation-building project was a colossal failure, and that drugs and corruption gained a stranglehold over their allies in the Afghan government. All told, the account is based on interviews with more than 1,000 people who knew that the US government was presenting a distorted, and sometimes entirely fabricated, version of the facts on the ground. Documents unearthed by The Washington Post reveal that President Bush didn't know the name of his Afghanistan war

commander—and didn't want to make time to meet with him. Secretary of Defense Donald Rumsfeld admitted he had “no visibility into who the bad guys are.” His successor, Robert Gates, said: “We didn't know jack shit about al-Qaeda.” The Afghanistan Papers is a shocking account that will supercharge a long overdue reckoning over what went wrong and forever change the way the conflict is remembered.

Two lonely teenage girls in 1940s Washington, DC, discover they have a penchant for solving crimes—and an even greater desire to commit them—in the new mystery novel by Macavity Award-winning novelist John Copenhaver. Philippa Watson, a good-natured yet troubled seventeen-year-old, has just moved to Washington, DC. She's lonely until she meets Judy Peabody, a brilliant and tempestuous classmate. The girls become unlikely friends and fashion themselves as intellectuals, drawing the notice of Christine Martins, their dazzling English teacher, who enthalls them with her passion for literature and her love of noirish detective fiction. When Philippa returns a novel Miss Martins has lent her, she interrupts a man grappling with her in the shadows.

Frightened, Philippa flees, unsure who the man is or what she's seen. Days later, her teacher returns to school altered: a dark shell of herself. On the heels of her teacher's transformation, a classmate is found dead in the Anacostia River—murdered—the body stripped and defiled with a mysterious inscription. As the girls follow the clues and wrestle with newfound feelings toward each other, they suspect that the killer is closer to their circle than they imagined—and that the greatest threat they face may not be lurking in the halls at school, or in the city streets, but creeping out from a murderous impulse of their own.
