When conducting parenting plan evaluations, mental health professionals need to be aware of a myriad of different factors. More so than in any other form of forensic evaluation, they must have an understanding of the most current findings in developmental research, behavioral psychology, attachment theory, and legal issues to substantiate their opinions. With a number of publications on child custody available, there is an essential need for a text focused on translating the research associated with the most important topics within the family court. This book addresses this gap in the literature by presenting an organized and in-depth analysis of the current research and offering specific recommendations for applying these findings to the evaluation process. Written by experts in the child custody arena, chapters cover issues associated with the most important and complex issues that arise in family court, such as attachment and overnight timesharing with very young children, dynamics between divorced parents and children's potential for resiliency, co-parenting children with chronic medical conditions and developmental disorders, domestic violence during separation and divorce, gay and lesbian co-parents, and relocation, among others. The scientific information provided in these chapters assists forensic mental health professionals to proffer empirically-based opinions, conclusions and

recommendations. Parenting Plan Evaluations is a must-read for legal practitioners, family law judges and attorneys, and other professionals seeking to understand more about the science behind child custody evaluations.

Dissolution is a new word for divorce. In *Dissolution*, Riane Eisler discusses the fundamental societal and litigious changes of divorce from an action that was until recently an unacceptable social phenomenon to what is now commonplace. The book compares the old divorce laws based on marital fault with new "no-fault" divorce laws, an analysis of the laws and institutions of marriage and divorce, and alternatives (social and litigious) to marriage and divorce. Quotes

about Dissolution: "Dissolution is must reading for every woman...whether she already believes in equal rights for all beings or belongs to the Phyllis Schlafly school of thought. Riane Eisler's work is the most definitive yet on the female species and her rights." – Rona Barrett, Good Morning America, ABC-TV "Only those of us who have gone through divorce without your book can fully appreciate its value. Its factual information gives strength. Its innate empathy comforts. Its totality is an integral part of the body of great feminist writings." – Frances Lear, President, Lear Purvis Walker & Co.
