Nursing theory is a major part of all nursing courses and nurses are encouraged to use theories in practice, but it is not always easy for the student to make a real connection between the two. Drawing on many years' experience of teaching and research, Hugh McKenna addresses the theory needs of both students and qualified staff. He demystifies the confusing terminology associated with nursing theory and shows how all nurses can build theory from practice through reflection and analysis. This text offers step-by-step guidelines on: * how to analyse concepts * how to generate and select theory * how to apply and test theory in practice. Written in a friendly, easy to read style, *Nursing Theories and Models* puts forward realistic strategies for bridging the theory-practice gap.

"My nurse hands once did more useful things. They immunized the fat, healthy thighs of infants, they carefully measured cardiac drugs to administer to young heart patients, they bathed both the elderly lady after her surgery and the 24-year-old Italian-Canadian woman after her death. My hands once mixed linseed poultices, rubbed twenty backs a night before darkness fell and, by flashlight, checked intravenous drips, catheters, and other tubing. They made hot milk in the middle of the night and then, later at home, soothed a child with too-frequent earaches. These are good uses for hands. Now they carry a black bag into streets, alleyways, and ravines. The bandages I carry no longer cover the wounds of my patients. My vitamins will not prevent the white plague of tuberculosis from taking another victim. The granola bars I carry cannot begin to feed the hunger I meet. I cannot even help someone achieve one peaceful night of safety and sleep. Only roofs will do that. And I am not a carpenter." There is no right to shelter or housing in Canada. Over the past three decades, a series of federal governments cut funding for social programs and eliminated our national housing program, leaving hundreds of thousands of people victim to the tsunami of homelessness that was declared a national disaster twenty years ago.
