WINGS Lesson Plan Guide for Preschoolers offers inclusive learning experiences developmentally and culturally appropriate for infants and children up to age 5 for early educators to implement while children are learning in or out of brick and mortar classrooms. Written by a highly qualified, diversely experienced veteran early educator, the WINGS Curriculum Lesson Plan Guide for Preschoolers offers 12 months of complete lesson plans for children ages 3-5, each based on a monthly theme. Each monthly lesson plan includes standards-based activities for individualized/developmental play, small-groups, large groups, learning centers, outdoor play, story time, music and movement, computer games, and more. With practical, yet progressive lesson plans for the entire calendar year, this book is ideal for every early educator seeking to nurture the abilities of preschoolers in each developmental domain! Activities are coded with WINGS Curriculum Goals & Skills, which are aligned with Common Core Standards for Kindergarten.

This is the eBook of the printed book and may not include any media, website access codes, or print supplements that may come packaged with the bound book. Developed by two educators with experience in both elementary and secondary classrooms, Writing Effective Lesson Plans details a unique a step-by-step procedure designed to streamline the process of lesson planning and make teaching smoother and more efficient. Coined the "Five-Star Lesson Plan" by the authors, this model consists of five classic components: lesson description, goals and objectives, materials and tools, procedures, and reflective assessment and evaluation. This workbook guides beginning and experienced teachers through each step to create lesson plans that best meet the needs of every student. It also explores the inherent challenges to effective lesson planning, such as time efficiency, knowledge construction, skill development, involving the students' families, and implementing your plan. With its mix of concise theory and hands-on activities, this book is a one-stop resource encouraging a deep and thoughtful approach to a skill that is often not sufficiently developed in teacher preparation programs.

The Creative Curriculum comes alive! This videotape-winner of the 1989 Silver Apple Award at the National Educational Film and Video Festival-demonstrates how teachers set the stage for learning by creating a dynamic well-organized environment. It shows children involved in seven of the interest areas in the The Creative Curriculum and explains how they learn in each area. Everyone conducts in-service training workshops for staff and parents or who teaches early childhood education courses will find the video an indispensable tool for explainin appropriate practice.

Born from sustained organizing, and rooted in Black and women of color feminisms, disability justice, and other movements, abolition calls for an end to our reliance on imprisonment, policing and surveillance, and to imagine a safer future for our communities. Lessons in Liberation: An Abolitionist Toolkit for Educators offers entry points to build critical and intentional bridges between educational practice and the growing movement for abolition. Designed for educators, parents, and young people, this toolkit shines a light on innovative abolitionist projects,

particularly in Pre-K–12 learning contexts. Sections are dedicated to entry points into Prison Industrial Complex abolition and education; the application of the lessons and principles of abolition; and stories about growing abolition outside of school settings. Topics addressed throughout include student organizing, immigrant justice in the face of ICE, approaches to sex education, arts-based curriculum, and building abolitionist skills and thinking in lesson plans. The result of patient and urgent work, and more than five years in the making, *Lessons in Liberation* invites educators into the work of abolition. Contributors include Black Organizing Project, Chicago Women’s Health Center, Mariame Kaba and Project NIA, Bettina L. Love, the MILPA Collective, and artists from the Justseeds Collective, among others.

The New York Times best-selling book exploring the counterproductive reactions white people have when their assumptions about race are challenged, and how these reactions maintain racial inequality. In this “vital, necessary, and beautiful book” (Michael Eric Dyson), antiracist educator Robin DiAngelo deftly illuminates the phenomenon of white fragility and “allows us to understand racism as a practice not restricted to ‘bad people’ (Claudia Rankine). Referring to the defensive moves that white people make when challenged racially, white fragility is characterized by emotions such as anger, fear, and guilt, and by behaviors including argumentation and silence. These behaviors, in turn, function to reinstate white racial equilibrium and prevent any meaningful cross-racial dialogue. In this in-depth exploration, DiAngelo examines how white fragility develops, how it protects racial inequality, and what we can do to engage more constructively.

Helps students create the best programs for young children ages three through eight. The authors’ goal in writing *Developmentally Appropriate Curriculum: Best Practices in Early Childhood Education* was to bring together the best information currently available for developing an integrated approach to curriculum and instruction in the early years. The Sixth Edition addresses all aspects of classroom life, including the roles of children and adults, the physical and social environments, and teaching and learning within multiple domains for children age three to eight. It provides a comprehensive, cohesive approach to curriculum development, which results in greater continuity for children and practitioners in group settings in childcare, preschool, and the early elementary grades. Concentrating as much on the “how” of curriculum development as on the “what and why,” the authors provide practical, research-based guidelines for translating theory into best practice that accommodates age-appropriateness, individual differences, and social and cultural diversity. Students learn how to conceptualize, plan, implement, and evaluate curriculum through detailed application opportunities in each chapter. The Enhanced Pearson eText features embedded video, licensure examination preparation exercises, and assessments Improve mastery and retention with the Enhanced Pearson eText* The Enhanced Pearson eText provides a rich, interactive learning environment designed to improve student mastery of content. A practical guide to early childhood curriculum: linking thematic, emergent and skill-based planning to children's outcomes.

A Nanny’s Day – The Professional Way! is an ultimate curriculum book designed for the professional early childhood nanny. Naturally; any stay-at-home parent, early childhood teacher, or home child care provider can utilize the ideas in this book. Kristin strongly believes that every professional nanny should have learning experiences intended for the day. This book includes ideas from nine curricular areas - art, cooking, language, math, motor skills, music, science, social studies, and health, safety, and nutrition. The ideas are made to not only teach the children in your care, but are also inexpensive and uncomplicated. She gives lesson plans and activity ideas based upon three concepts: The Nanny’s Creative Curriculum, The Nanny’s Literacy Curriculum, and The Nanny’s Thematic Curriculum. Kristin also gives developmentally appropriate sample schedules for children between the ages of zero to five.

In this version of the traditional tale, the duck, the dog, and the cat refuse to help the Little Red Hen make a pizza but do get to participate when the time comes to eat it.

This practical book provides pre- and inservice teachers with an understanding of how math can be learned through play. The author helps teachers to recognize the mathematical learning that occurs during play, to develop strategies for mathematizing that play, and to design formal lessons that make connections between mathematics and play. Common Core State Standards are addressed throughout the text to demonstrate the ways in which play is critical to standards-based mathematics teaching, and to help teachers become more familiar with these standards. Classroom examples illustrate that, unlike most formal tasks, play offers children opportunities to solve nonroutine problems and to demonstrate a variety of mathematical ways of thinking—such as perseverance and attention to precision. This book will help

put play back into the early childhood classroom where it belongs. Book Features: Makes explicit connections to play and the Common Core State Standards in Mathematics. Offers many examples of free play activities in which mathematics can be highlighted, as well as formal lessons that are inspired by play. Provides strategies for making assessments more playful, helping teachers meet increasing demands for assessment data while also reducing child stress. Includes highlight boxes with recommended resources, questions for reflection, key research findings, vocabulary, lesson plan templates, and more. "This is one of those books that I wish I had written. It is smart, readable, relevant, and authentically focused on children." —From the Foreword by Elizabeth Graue, Sorenson Professor of Early Childhood Education, University of Wisconsin "In this deceptively easy-to-read book, Amy Parks explains two things that could make a world of difference in early childhood and elementary classrooms: Mathematics isn't something in a workbook—it's a fascinating part of the real world; And playing in school isn't a luxury—it's an essential context for learning about all sorts of things, including mathematics. Through vignettes of children learning mathematics as they play, Parks helps teachers recognize their 'answerability to the moment,' eschewing someone else's determination of 'best practice' in favor of what works with actual children eager to learn mathematics." —Rebecca New, School of Education, University of North Carolina at Chapel Hill

As the only text of its kind, this book provides in-depth information about Vygotsky's theories, neo-Vygotskians' findings, and concrete explanations and strategies that instruct teachers how to influence student learning and development. Key changes to this edition include a new chapter on dynamic assessment, separate and expanded chapters on developmental accomplishments of infants and toddlers, preschool/kindergarten, and primary grades and on supporting those accomplishments, and elaborations of Vygotsky's ideas from neo-Vygotskians from Russia.

FEATURES: Written for the beginning student, the book provides a clear discussion of Vygotskian principles including...a historical overview and a complete chapter on the "Zone of Proximal Development," (ZPD). Each section of the book builds on the other...framework, strategies, and applications of the Vygotskian approach. The work of Vygotsky is compared in a fair and balanced way with the work of Piaget. Examples and activities have been class-tested in a variety of classroom environments including a Head Start program, private preschool, and in the Denver Public Schools.
