The title of this series of Latin books is *Ecce Romani*, which means "Look! The Romans!" The books in the series will present the Romans to you as you learn the Latin language that they spoke. At first you will meet the members of a Roman family; Latin is the language they use to communicate among themselves. As you continue reading you will meet mythological and historical characters that meant much to the Romans and remain part of our cultural heritage today. You will be introduced to a vast and colorful world of ancient Mediterranean and European civilizations that included peoples who spoke many different languages, and you will meet people of many different cultures and social levels, ranging from slaves to emperors. You will read passages from many ancient Roman writers and thus come into direct communication with the ancient Romans themselves. - Introduction.

A companion to Bloomsbury's popular two-volume Greek to GCSE, this is the first course for Latin students that directly reflects the curriculum in a clear, concise and accessible way. Enhanced by

colour artwork and text features, the books support the new OCR specification for Latin (first teaching 2016) as well as meeting the needs of later students, both at university and beyond. Written by two experienced school teachers, one also an examiner, the course is based on a keen understanding of what pupils find difficult, concentrating on the essentials and on the explanation of principles in both *accidence* and *syntax*: minor irregularities are postponed and subordinated so that the need for rote learning is reduced. User-friendly, it also gives pupils a firm foundation for further study. Part 1 covers the basics and is self-contained, with its own reference section. It outlines the main declensions, a range of active tenses and a vocabulary of 275 Latin words to be learned. Pupil confidence is built up by constant consolidation of the material covered. After the preliminaries, each chapter concentrates on stories with one source or subject: the Fall of Troy, the journeys of Aeneas, the founding of Rome and the early kings, providing an excellent introduction to Roman culture alongside the language study.

Full annotations on every page, detailed commentary on grammar and syntax, and a glossary designed specifically for the text allow students to build both their confidence and their reading skills. This engaging read presents a student-friendly overview of the life and accomplishments of Julius Caesar with special emphasis on his family background and early life. The biography is based not only on the traditional sources-Suetonius and Plutarch-but also on the private correspondence and observation of Caesar's contemporaries-both his friends and his enemies. Based on these sources, the book demonstrates that Caesar was a very determined individual who developed and largely managed to execute a series of original responses to the unique situations of his times. *Julius Caesar: Master of Surprise* is a must-have title for all high school Latin programs.

I with a fictional narrative about an Attic farmer's family placed in a precise historical context (432-431 B.C.). This narrative, interwoven with tales from mythology and the Persian Wars, gradually gives way in Book II to adapted passages from Thucydides, Plato, and Herodotus and ultimately to excerpts of the original Greek of Bacchylides, Thucydides, and Aristophanes' *Acharnians*. Essays on relevant aspects of ancient Greek culture and history are also woven throughout. Praised by teachers for many years, this format is now easier to manage. Passages are carefully controlled to use only vocabulary and syntax already taught and tested. Reading-skills instruction and translation help prepare students for second-year Latin. Twenty lessons formerly in Level I are now at the beginning of Level II, thereby providing better overall pacing.

course. II: Roma Aeterna -- the advanced course, with Indices covering both parts. The direct method is based on the inductive principle of learning. In the text every sentence is intelligible per se, or self-explanatory, because the meaning and function of all new words and grammatical forms are made clear by the context in which they occur, or if necessary, by illustrations or marginal notes using vocabulary already learned. This demands a carefully graded text, but in order to make learning efficient the content should stimulate interest and curiosity and make it easy for the reader to visualise the scenes and situations described. To meet these demands the chapters of Lingua Latina I form a continuous narrative, a sort of Latin novel, which captivates the students so that they look forward to reading the continuation of the story. While reading this story and learning facts about the Roman life and traditions, the students pick up the vocabulary and grammar that will enable them to go on, in Part II, to read a representative selection of Latin literature, both prose and poetry. Here, too, all new words and structures, if not immediately intelligible from the context, are explained by marginal notes or illustrations. In addition, factual information is given in the margin. Part I covers the essentials of Latin grammar and introduces a basic vocabulary of some 1600 words. The 35 chapters form a sequence of scenes and incidents from the life of a Roman family in the second century A.D. Each chapter is divided into 3 or 4 lessons (lectiones) and consists of several text pages followed by a section on grammar, three exercises, and a list of new words. At the end of the volume there is a survey of inflexions, a Roman calendar, and alphabetical word-list and a grammatical index.
