An expert Egyptologist sheds new light on the life of King Tutankhamen, revealing the startling truth behind his mysterious legacy.

Dr. Drake's collection of data on monsters.

BONUS: This edition contains excerpts from Arthur Phillips's *The Tragedy of Arthur, The Song Is You, Prague, and Angelica*. From the bestselling author of *Prague* comes a witty, inventive, brilliantly constructed novel about an Egyptologist obsessed with finding the tomb of an apocryphal king. This darkly comic labyrinth of a story opens on the desert plains of Egypt in 1922, then winds its way from the slums of Australia to the ballrooms of Boston by way of Oxford, the battlefields of the First World War, and a royal court in turmoil. Just as Howard Carter unveils the tomb of Tutankhamun, making the most dazzling find in the history of archaeology, Oxford-educated Egyptologist Ralph Trilipush is digging himself into trouble, having staked his professional reputation and his fiancée's fortune on a scrap of hieroglyphic pornography. Meanwhile, a relentless Australian detective sets off on the case of his career, spanning the globe in search of a murderer. And another murderer. And possibly another murderer. The confluence of these seemingly separate stories results in an explosive ending, at once inevitable and utterly unpredictable. Arthur Phillips leads this expedition to its unforgettable climax with all the wit and narrative bravado that made *Prague* one of the most critically acclaimed novels of 2002. Exploring issues of class, greed, ambition, and the very

human hunger for eternal life, this staggering second novel gives us a glimpse of Phillips's range and maturity—and is sure to earn him further acclaim as one of the most exciting authors of his generation.

Elaborate facsimile journal of a fictional Emily Sand's 1926 search for the tomb of the god Osiris presents an overview of ancient Egypt and Egyptology.

Search for the secrets of a hidden tomb It is 1924, two years after the discovery of King Tut's tomb. Readers are invited to join a young boy, Will Hunt, as he and his family become part of an archaeological team led by world-famous Egyptologist Dr. George Reisner. Based on actual records of Reisner's history-making dig, Giza 7000X, this strikingly original picture book uses journal entries, funny postcards, and quirky cartoons to pull readers into an ancient unsolved mystery. Luminous paintings of the pyramids, informative sidebars and inventive collages, including authentic documents and archival photographs, help provide information and clues. When a secret tomb is uncovered, readers, along with Will, put together clues to discover: Whose tomb is this? Why was it hidden? And how can a mummy be missing from a sealed tomb? This illuminating book invites readers to participate in the process of archaeology as it provides a rare glimpse into the true stories that exist behind the objects in museums. A History of Egyptology is a ground-breaking reference work that traces the study of ancient Egypt. Spanning 150 years and global in purview, it enlarges our understanding of how and why people have looked, and continue to look, into humankind's distant past through the lens of the enduring allure of ancient Egypt. Written by an international team of scholars, the volume investigates how territories around the world have engaged with and have been

inspired by Egyptology, and how that engagement has evolved over time. Each chapter presents a specific territory from an institutional and national perspective, while examining a range of transnational links as well. The volume thus touches on multiple strands of scholarship, embracing not only Egyptology, but also social history, the history of science and reception studies. It will appeal to amateurs and professionals alike.

Tutankhamun puts the boy king's short life into context by describing and explaining the complexities of life in Ancient Egypt. Covering the work of earlier Egyptologists, it details the actual discovery and original expedition, drawing on the personal archives of Howard Carter himself. On 26 November 1922, Howard Carter and Lord Carnarvon discovered the tomb of Tutankhamun. The world was entranced. Never before had a tomb been found in such a perfect condition, with all the richness of its contents still intact. The stories that have since grown up around the discovery of the tomb and of the boy king who lay undisturbed for over 3,000 years have become legendary and continue to fire imaginations around the world. This book tells those stories, and uncovers the reality behind them.

The rock-cut tomb was the most ubiquitous of Egyptian funerary monuments. This book surveys many of these varieties and traces their development.

An exciting archeological exploration of ancient Egypt that examines the potential for discovering the remaining "lost" tombs of the pharaohs. Tombs, mummies, and

funerary items make up a significant portion of the archeological remains that survive ancient Egypt and have come to define the popular perception of Egyptology. Despite the many sensational discoveries in the last century, such as the tomb of Tutankhamun, the tombs of some of the most famous individuals in the ancient world—Imhotep, Nefertiti, Alexander the Great, and Cleopatra—have not yet been found. Archeologist Chris Naunton examines the famous pharaohs, their achievements, the bling they might have been buried with, the circumstances in which they were buried, and why those circumstances may have prevented archeologists from finding these tombs. In *Searching for the Lost Tombs of Egypt*, Naunton sheds light on the lives of these ancient Egyptians and makes an exciting case for the potential discovery of these lost tombs.

For Egyptophiles everywhere, here is the most authoritative and comprehensive guide ever published on the full range of tombs, their decoration and burial customs. *Cultural Expression in the Old Kingdom Elite Tomb* considers the material and immaterial culture left behind by the ancient Egyptian elite in their tombs starting some 5000 years ago. The book intends to understand this culture reflecting the intention of the ancient Egyptians. All these intentions are now inaccessible to us, a paradox indeed.

specialist Tamara Bower comes her third, gorgeous book about Ancient Egypt. Using the classic style of Egyptian art, the book is painstakingly accurate in facts and illustrative style. Artifacts, funerary customs, kid-loving gory details of the mummification process, hieroglyphs, and details of life in ancient Egypt are told through the eyes of Ipy, whose father is embalmer to the King. Yuya, father of the Queen, has died and Ipy must help his father in the mummification process. Yuya is an actual mummy and the discovery of his tomb is an entertaining story in itself, with the archaeologist Theodore Davis fainting at the sight of so much gold, and the portly Gaston Maspero getting stuck while trying to climb into the tomb. Yuya's tomb was a spectacular discovery in the Valley of the Kings that was later overshadowed only by the discovery of King Tut, Yuya's great-grandson. The book features sidebars of hieroglyphs and their meanings, a map, and an afterword telling more about the life of Yuya, of the burial process, and ancient Egypt in general. While there are a number of children's books on mummies, none are told from the point of view of the embalmers themselves, and none are illustrated with the meticulous eye of Tamara Bower. "The suspense of the story, aided by sly hints from the author, and the atmosphere of a dark, claustrophobic tomb work together to create a scary story. The characters' fear invites the reader into the world to experience the fright themselves." — Booklist Starred Review Deep inside the tomb exists a hidden world of wonder and terror. Through this fascinating story we experience the adventure, the painstaking work, the magic, the excitement and the awe through the eyes of the "tomb raider" himself, archaeologist Howard Carter. This book tells the story of one of the greatest archeological discoveries ever, the discovery of the intact tomb of the 18th Dynasty Pharaoh, Tutankhamun (colloquially known as "King Tut" and "the boy king"), in November 1922.

Joann Fletcher, presenter of BBC2's 'Ancient Egypt: Life and Death in the Valley of the Kings' has written an enthralling account of Nefertiti, one of Egypt's most compelling and mysterious figures. Wife of the controversial pharaoh Akhenaten, she lived through perhaps the most tumultuous period in the country's long history. The so-called Amarna Period has long held a fascination - not just for the enormous changes it brought to the religion, art and administration of Egypt, but for the many mysteries which surround it. Mysteries, that is, until now. Leading Egyptologist Dr Joann Fletcher has taken a fresh eye to the evidence and arrived at one of the most dramatic discoveries in recent times. Working with a team of leading experts, she has identified a long-forgotten mummy as the body of a female pharaoh of the Amarna Period, whom she believes is Nefertiti herself. Lying for over three thousand years in an unused side chamber of Tomb KV.35 in the Valley of the Kings, it tells a story which will forever change the way in which we view Nefertiti - and indeed women throughout Egyptian history. Now at last we see the full significance of her role as co-regent and later Pharaoh of Egypt, as well as understanding the astonishing luxury and decadence of her life in Amarna - a life she led as the country around her began to disintegrate.

Beauman's brilliant recreation of the hunt for Tutankhamun's tomb in Egypt's Valley of the Kings—a dazzling blend of fact and fiction that brings to life a lost world of exploration, adventure, and danger, and the audacious men willing to sacrifice everything to find a lost treasure. In 1922, when eleven year-old Lucy is sent to Egypt to recuperate from typhoid, she meets Frances, the daughter of an American archaeologist. The friendship draws the impressionable young girl into the thrilling world of Lord Carnarvon and Howard Carter, who are searching for the tomb of boy pharaoh Tutankhamun in the Valley of the Kings. A haunting tale of love and loss, *The Visitors* retells the legendary story of Carter and Carnarvon's hunt and their historical discovery, witnessed through the eyes of a vulnerable child whose fate becomes entangled in their dramatic quest. As events unfold, Lucy will discover the lengths some people will go to fulfill their deepest desires—and the lies that become the foundation of their lives. Intensely atmospheric, *The Visitors* recalls the decadence of Egypt's aristocratic colonial society, and illuminates the obsessive, daring men willing to risk everything—even their sanity—to claim a piece of the ancient past. As fascinating today as it was nearly a century ago, the search for King Tut's tomb is made vivid and immediate in Sally Beauman's skilled hands. A dazzling feat of imagination, *The Visitors* is a majestic work of historical fiction.

This discussion will be centered on one ubiquitous and rather simple Egyptian object type – the wooden container for the human corpse. We will focus on the entire 'lifespan' of the coffin – how they were created, who bought them, how they were used in funerary rituals, where they were placed in a given tomb, and how they might have been used again for another dead person. Using evidence from Deir el Medina, we will move through time from the initial agreement between the craftsman and the seller, to the construction of the object by a

carpenter, to the plastering and painting of the coffin by a draftsman, to the sale of the object, to its ritual use in funerary activities, to its deposit in a burial chamber, and, briefly, to its possible reuse.

Little is known of the everyday lives of ordinary people in ancient Egypt, but excavations at the village of Deir el-Medina have provided a unique opportunity to reconstruct the daily life of one particular group - the workmen who built the tombs of the pharaohs in the nearby Valley of the Kings. *The Tomb-Builders of the Pharaohs* brings to life the people who lived and died at Deir el-Medina over three thousand years ago, their loves and hates, disputes and scandals, work and leisure. Dr. Bierbrier has carried out extensive research on the tomb-builders, and draws on the thousands of documents, letters, literary texts, and drawings found at Deir el-Medina to give a fascinating and intimate glimpse of life in the village.

This volume is the publication and analysis of the tomb of pharaoh Seneb-Kay (ca. 1650-1600 BCE), and a cemetery of associated tombs at Abydos, all attributable to a group of kings of Egypt's Second Intermediate Period. The tomb of Seneb-Kay has provided the first known king's tomb of pharaonic Egypt that included decorated imagery in the burial chamber. That evidence, presented in full-color and discussed in detail in the volume, allows us to identify this previously unknown ruler along with a group of seven similar tombs that can be attributed to an Upper Egyptian Dynasty that survived for approximately half a century during a period of pronounced territorial fragmentation in the Nile Valley. The book examines the architecture and artifacts associated with these tombs as well as presents an osteological analysis of the bodies of Seneb-Kay and the other anonymous individuals buried at South Abydos. Seneb-Kay's

skeletonized mummy was recovered inside his tomb and provides a rare opportunity to examine the body of a king of this era. He is the earliest substantially preserved body of an Egyptian king to survive in the archaeological record, and the first known Egyptian pharaoh whose skeletal remains show that he died in battle. The analysis of his death in a military encounter, along with insights from the other skeletal remains indicates a line of kings whose rise to power was associated with their social background as members of the military elite. The book examines the wider implications of these bodies in terms of the pronounced militarization of society in the Second Intermediate Period. Seneb-Kay's tomb has also provided extensive evidence, through its use of reused blocks bearing decoration, of earlier elite and royal monuments at Abydos. The combination of evidence provides a new archaeological and historical window into the political situation that defined Egypt's Second Intermediate Period. An excavation report of two New Kingdom tombs at Saqqara (Egypt) dating to the reigns of Akhenaten and Tutankamun.

Purports to be the journal of Emily Sands during her travels in Egypt in 1926 to find the lost tomb of Osiris. Based on real Egyptology, each chapter covers a different place in Egypt. Who can resist the allure of ancient Egypt-and the thrill of uncovering mysteries that have lain hidden for thousands of years? Not the feisty Miss Emily Sands, who in 1926, four years after the discovery of King Tut's tomb, led an expedition up the Nile in search of the tomb of the god Osiris. Alas, Miss Sands and crew soon vanished into the desert, never to be seen again. But luckily, her keen observations live on in the form of a lovingly kept journal, full of drawings, photographs, booklets, foldout maps, postcards, and many other intriguing samples. Here are just a few of Egyptology's special features: an extravagantly gilded cover, featuring a raised

Horus hawk pendant with three encrusted gems, a playable game of Senet-ancient Egyptian checkers-including board, pieces, original-style dice, and rules, a souvenir booklet showing how to read simple hieroglyphs, a scrap of textured "mummy cloth", a facsimile of the gilded mummy mask of King Tut, a gilded eye-of-Horus amulet with a "jewel" at the end. Rich with information about life in ancient Egypt and peppered with Miss Sands's lively narration, Egyptology concludes with a letter from the former Keeper of Antiquities at the British Museum, explaining which parts of this unique tale may be accepted as fact, which are guided by legend, and which reflect the author's delightful sense of fancy.

Egyptology is Emily Sands' lavish 1926 scrapbook journal of a lost expedition. Full of novelties and recreations, such as a piece of mummy cloth, a booklet on hieroglyphs and a working board game, the book brims with beautiful art and fascinating facts about Ancient Egypt, and has a final magnificent novelty in the back case.
