Developing numerous themes, including leisure, state-promoted tourism, citizenship, and business investment, Godefroy Desrosiers-Lauzon considers advertisements, movies, policymakers, and the behaviour of snowbirds in Florida to provide the most thorough study of the vacation state to date. He also looks at the temporary communities of Canadians, Québécois, New Englanders, and Mid-Westerners that develop, showing how they blur the lines that usually divide national and regional identities, and youth and age. An insightful work full of amusing details, Florida's Snowbirds pieces together a complete cultural atlas of Florida Snowbirds that goes far beyond the familiar postcards they send home. Their descriptions in English and French.

Bartolomé de Las Casas was the first and fiercest critic of Spanish colonialism in the New World. An early traveller to the Americas who sailed on one of Columbus's voyages, Las Casas was so horrified by the wholesale massacre he witnessed that he dedicated his life to protecting the Indian community. He wrote *A Short Account of the Destruction of the Indies* in 1542, a shocking catalogue of mass slaughter, torture and slavery, which showed that the evangelizing vision of Columbus had descended under later conquistadors into genocide. Dedicated to Philip II to alert the Castilian Crown to these atrocities and demand that the Indians be entitled to the basic rights of humankind, this passionate work of documentary vividness outraged Europe and contributed to the idea of the Spanish 'Black Legend' that would last for centuries.

Features animals with secret-agent skills including eavesdropping baboons, spying convict cichlid fish, and the deceptive eastern gray squirrel.

In *Antiracist Writing Assessment Ecologies*, Asao B. Inoue theorizes classroom

writing assessment as a complex system that is “more than” its interconnected elements. To explain how and why antiracist work in the writing classroom is vital to literacy learning, Inoue incorporates ideas about the white racial habitus that informs dominant discourses in the academy and other contexts.

"A Best Book of the Year" —Library Journal and Booklist Using excerpts from the thousands of interviews conducted with ex-slaves in the 1930s by researchers working with the Federal Writer's Project, this astonishing collection makes available in print the only known recordings of people who actually experienced slavery--recordings that had gathered dust in the Library of Congress until they were rendered audible for the first time specifically for this collection. Heralded as "a minor miracle" (Ted Koppel, Nightline), "powerful and intense" (Atlanta Journal Constitution), and "invaluable" (Chicago Tribune), Remembering Slavery is sure to enrich readers for years to come. "Gripping and poignant... Moving recollections fill a void in the slavery literature." —The Washington Post Book World "Chilling [and] riveting... This project will enrich every American home and classroom." —Publisher's Weekly "Quite literally, history comes alive in this unparalleled work." —Library Journal "Ira Berlin's fifty-page introduction is as good a synthesis of current scholarship as one will find, filled with fresh insights for any reader." —The San Diego Union Tribune

Celebrating Florida: Works of Art from the Vickers Collection illustrates in full color a generous selection of paintings and works on paper by some of the world's most significant artists who came to Florida from 1823 to 1950 to capture the "Sunshine State". Of particular interest to students of Florida history are two essays by noted historians Wendell Garrett and Erik

Robinson, who discuss the "creation of Florida" and its birth as a state in 1845. Essays on each artist present an aesthetic, historical, social, and cultural overview - designed to clarify the significance of the works of art presented in this first-ever collection of Florida-based art. Essays on each artist with bibliographies by Henry Adams, Gary R. Libby, James Murphy, Erik Robinson, and David Swoyer help to explain the significance of individual works and their place in Florida's history and artistic record. Celebrating Florida: Works of Art from the Vickers Collection offers the most comprehensive study of Florida art currently available. It also serves as the catalog for a traveling exhibition curated at the Museum of Arts and Sciences in Daytona Beach, Florida, in honor of Florida's Sesquicentennial.

From the foreword: "It has been a great comfort over the years to know that Alan Craig was always able and willing to guide the growth of the Florida Collection and provide sound numismatic counsel. His knowledge of the collection is based on years of experience and personal examination of each and every coin. It is a pleasure to be able to present once again a comprehensive and up-to-date account of the Florida Collection of Gold Coins."--James J. Miller, state archaeologist and chief, Bureau of Archaeological Research Dazzling numismatic treasures await readers of this new volume that catalogues and characterizes the splendors of the Florida Collection of Spanish Coins. An updated version of the author's earlier publication, Gold Coins of the 1715 Spanish Fleet (now out of print), it includes more than 100 new additions to the collection. The publication of Spanish Colonial Gold Coins in the Florida Collection (alongside its recently released companion, Spanish Colonial Silver Coins in the Florida Collection) makes available Florida's magnificent collection of Spanish coins in richly detailed photographs accompanied by vivid descriptions. Presented in accordance with current

numismatic standards of description, analysis, and publication, Alan Craig's account of the coins goes far beyond ordinary standards to bring alive the history of the coins' production, transport, and loss at sea. The perfect guide to this treasure-house, Craig's book conveys the importance and fascination of the largest known collection of Spanish colonial shipwreck coins in the world. For collectors, scholars, and everyone else who has ever been fascinated by Spanish treasure fleets, this book offers countless hours of enjoyment and information. Alan K. Craig is professor emeritus of geography and geology at Florida Atlantic University in Boca Raton and coeditor of *In Quest of Mineral Wealth*. He is also the author of a companion volume, *Spanish Colonial Silver Coins in the Florida Collection*.

Detailed annotations (100-150 words) on some 500 items focus on articles, books, and book chapters published from 1980 through 1991 and important classic items published prior to 1980. With both scholarly/theoretical and practical how-to perspectives, the book covers material concerning research, university, college, community college, and special libraries. Major chapters discuss an overview of the collection evaluation process, methods and methodology, use studies, availability studies, the RLG Conspectus, serials evaluation (including serials review case studies), citation analysis (including structure of disciplines), journal ranking, standards, and application of automation to the collection evaluation process. The book will be useful to academic library practitioners, students, teachers, and researchers in library and information science education.

From New York Times bestselling author Eleanor Henderson comes a turbulent love story meets harrowing medical mystery: the true story of the author's twenty-year marriage defined by her husband's chronic illness—and a testament to the endurance of love Eleanor met Aaron

when she was just a teenager and he was working at a local record store—older, experienced, and irresistibly charming. Escaping the clichés of fleeting young love, their summer romance bloomed into a relationship that survived college and culminated in a marriage and two children. From the outside looking in, their life had all the trappings of what most would consider a success story. But, as in any marriage, things weren't always as they seemed. On top of the typical stresses of parenting, money, and work, there were the untended wounds of depression, addiction, and childhood trauma. And then one day, out of nowhere: a rash appeared on Aaron's arms. Soon, it had morphed into painful lesions covering his body. Eleanor was as baffled as the doctors. There was no obvious diagnosis, let alone a cure. And as years passed and the lesions gave way to Aaron's increasingly disturbed concerns about the source of his sickness, the husband she loved seemed to unravel before her eyes. A new fissure ruptured in their marriage, and new questions piled onto old ones: Where does physical illness end and mental illness begin? Where does one person end and another begin? And how do we exist alongside someone else's suffering? Emotional, intimate, and at times agonizing, *Everything I Have Is Yours* tells the story of a marriage tested by powerful forces outside both partners' control. It's not only a memoir of a wife's tireless quest to heal her husband, but also one that asks just what it means to accept someone as they are.

"After Spain's colonial American mints poured forth a flood of silver coins, some of that treasure ended up in wrecks off the Florida coast. Alan Craig's captivating study explains how those coins were made and what historians and numismatists can learn from them."--Kendall W. Brown, Brigham Young University "The State of Florida is indeed fortunate that its colonial

coin inventory, Florida's shipwreck patrimony, could be studied by Alan Craig. This work enriches us all."--Eugene Lyon, author of *The Enterprise of Florida: Pedro Menéndez de Avilés and the Spanish Conquest of 1565-1568* and *The Search for the Atocha* The State of Florida owns a vast collection, nearly 23,000 specimens, of Spanish treasure coins salvaged from shipwrecks in Florida waters. It is the largest of its kind in existence. Alan Craig explains the circumstances behind their manufacture and describes the transporting of these unique hand-made coins, a complicated business full of intrigue and royal regulations. When freshly minted gold and silver left the Spanish colonial viceroalties of Peru and Mexico aboard fleets of galleons headed to Spain, a number of ships sank off the coast of Florida. Counterfeiting was rife at the time, and Craig discusses a variety of mint scandals, especially those perpetrated by the notorious Francisco Gomez de la Rocha. Craig also analyzes coins from the mints of Mexico City, Potosi, Lima, and elsewhere. He follows the procedure of making coins, from mining the silver to refining it and ultimately converting it into coins of various sizes, and takes readers on a vivid "virtual" visit to a mint where they watch African slaves pour molten silver from furnaces into special molds and witness the days of constant hammering, annealing, die striking, blanching, weighing, and counting and recounting necessary to produce a sack of coins. Outstanding specimens from the Florida collection are depicted in numerous superb photographs, many enlarged to show elements of the engraving discussed in the text. In a final section Craig discusses the numismatic significance of the thousands of coins in the collection. As both an economic history and a numismatic study, this work will be a fascinating resource for historians, archaeologists, coin collectors, and general readers interested in maritime treasure. Alan K. Craig is professor emeritus of geography and geology at Florida Atlantic

University in Boca Raton and coeditor of *In Quest of Mineral Wealth*.

Though still hampered by some challenging obstacles, Latin American collection development is not the static, tradition-bound field many believe it to be. Latin American studies librarians have confronted these difficulties head-on and developed strategies to adapt to the field's continuous digital advancements. Presenting perspectives from several independent Latin American libraries, this collection of new essays covers the history of collecting, current strategies in collection development, collaborative collection development, buying trips, and future trends and new technologies.

These lively stories follow Rey Castaneda from sixth through eighth grade in Nuevo Penitas, Texas. One side of Rey's family lives nearby in Mexico, the other half in Texas, and Rey fits in on both sides of the border. In Nuevo Penitas, he enjoys fooling around with his pals in the barrio; at school, he's one of the "A list" kids. As Rey begins to cross the border from childhood into manhood, he turns from jokes and games to sense the meaning of work, love, poverty, and grief, and what it means to be a proud Chicano—moments that sometimes propel him to show feelings un hombre should never express. It's a new territory where Rey longs to follow the example his hardworking, loving father has set for him. Writer and historian Dale Cox's tribute to the little known interior counties of

Northwest Florida, this book explores the true stories behind some of the region's favorite legends. Included are the real history of Two Egg, Florida, the legend of Two-Toed Tom (Florida's alligator monster), the Ghost of Bellamy Bridge, the Garden of Eden, the Washington County Volcano, the West Florida Swamp Booger (Bigfoot) and more!

Nobel Prize winner Toni Morrison powerfully examines our obsession with beauty and conformity—and asks questions about race, class, and gender with her characteristic subtlety and grace. In Morrison's bestselling first novel, *Pecola Breedlove*—an 11-year-old Black girl in an America whose love for its blond, blue-eyed children can devastate all others—prays for her eyes to turn blue: so that she will be beautiful, so that people will look at her, so that her world will be different. This is the story of the nightmare at the heart of her yearning, and the tragedy of its fulfillment. Here, Morrison's writing is “so precise, so faithful to speech and so charged with pain and wonder that the novel becomes poetry” (*The New York Times*).

This book introduces readers to the first publicly funded, two-way bilingual program in the United States, Coral Way Elementary School. It details the historical, social and political origins of the school; reviews the various discussions and conceptualization of the bilingual education program as a 50:50 model; and describes the training of the teachers and their work in designing curriculum for the bilingual students. Finally, it reviews whether the program was a success and outlines what lessons can be learned from the Coral Way

Experiment for future bilingual programs. It is essential reading for all scholars of dual language education, for educational historians, for students of language policy and planning, and for teachers and educators who work in the context of dual language education in the US and worldwide.

In these vigorous stories, Lauren Groff brings her electric storytelling to a world in which storms, snakes and sinkholes lurk at the edge of everyday life, but the greater threats are of a human, emotional and psychological nature. Among those navigating it all are a resourceful pair of abandoned sisters; a lonely boy, grown up; a restless, childless couple; a searching, homeless woman; and an unforgettable conflicted wife and mother. The stories in these collection span characters, towns, even centuries but Florida - its landscape, climate, history and state of mind - becomes the gravitational centre. With shocking accuracy, Groff pinpoints the connections behind human pleasure and pain, hope and despair, love and fury - the moments that make us alive.

The census of 1790, the first official enumeration of all heads of household residing in the infant republic, is the most important source concerning ordinary citizens at following the ratification of the Constitution. The original 1790 enumerations which have withstood the passage of time cover the present states of Connecticut, Georgia, Maine, Maryland, Massachusetts, New Hampshire, New York, North Carolina, Pennsylvania, Rhode Island, South Carolina, and Vermont. In each of the published census volumes the schedules are arranged by county and in some cases by minor subdivisions of counties, thus enabling the researcher to narrow his field of research to a particular judicial district. Each volume is separately indexed, so the researcher has only a single alphabet to consult for each state. Heads of families, arranged in alphabetical order under each county and district, are listed with the following information after each name: Number of free white males of sixteen years and upward; number of free white males under sixteen years; number of free white females; number of all other free persons; number of slaves. The 1790 federal census for North Carolina

identifies a population of _____ persons.

A comprehensive and engaging biography of Marjorie Kinnan Rawlings, Pulitzer Prize–winning author of the beloved classic *The Yearling*. Washington, DC, born and Wisconsin educated, Marjorie Kinnan Rawlings was an unlikely author of a coming-of-age novel about a poor central Florida child and his pet fawn—much less one that has become synonymous with Florida literature writ large. Rawlings was a tough, ambitious, and independent woman who refused the conventions of her early-twentieth-century upbringing. Determined to forge a literary career beyond those limitations, she found her voice in the remote, hardscrabble life of Cross Creek, Florida. There, Rawlings purchased a commercial orange grove and discovered a fascinating world out of which to write—and a dialect of the poor, swampland community that the literary world had yet to hear. She employed her sensitive eye, sharp ear for dialogue, and philosophical spirit to bring to life this unknown corner of America in vivid, tender detail, a feat that earned her the Pulitzer Prize in 1938. Her accomplishments came at a price: a failed first marriage, financial instability, a contentious libel suit, alcoholism, and physical and emotional upheaval. With intimate access to Rawlings’s correspondence and revealing early writings, Ann McCutchan uncovers a larger-than-life woman who writes passionately and with verve, whose emotions change on a dime, and who drinks to excess, smokes, swears, and even occasionally joins in on an alligator hunt. *The Life She Wished to Live* paints a lively portrait of Rawlings, her contemporaries—including her legendary editor, Maxwell Perkins, and friends Zora Neale Hurston, Ernest Hemingway, and F. Scott Fitzgerald—and the Florida landscape and people that inspired her.

From the days of the Spanish colonial settlements until the last state census in 1945, a variety

of censuses have been taken within the regions now comprising the modern state, from lists of Seminole War refugees to modern school censuses. This book is a one-stop guide to the colonial, territorial, and state censuses, along with their supplements and substitutes. Covering original documents along with indexes, abstracts, translations, transcriptions, extracts, periodical articles, and digitized or microfilmed documents, the guide describes each source and evaluates its usefulness to modern genealogical researchers.
