For over seventy-five years, Archie and the gang at Riverdale High have been America's most iconic teenagers. Yet they have been relatively ignored by scholars—until now. Twelve-Cent Archie is both the first academic study of these comics and an innovative creative work in its own right. In a hundred short chapters, renowned comics scholar Bart Beaty takes us on a witty, eclectic tour of the Archie universe, addressing everything from the history of the American teenager to the mystery of Jughead's hat.

In *Fruit of the Orchard*, Jennifer N. Brown builds upon academic discourse about medieval readers, trans-Reformation studies, and Catherine of Siena to reveal insights into the changing devotional reading appetites and practices of the period.

Women's literary histories usually start in the later Middle Ages, but recent scholarship has shown that actually women were at the heart of the emergence of the English literary tradition. *Women, Writing and Religion in*

England and Beyond, 650–1100 focuses on the period before the so-called 'Barking Renaissance' of women's writing in the 12th century. By examining the surviving evidence of women's authorship, as well as the evidence of women's engagement with literary culture more widely, Diane Watt argues that early women's writing was often lost, suppressed, or deliberately destroyed. In particular she considers the different forms of male 'overwriting', to which she ascribes the multiple connotations of 'destruction', 'preservation', 'control' and 'suppression'. She uses the term to describe the complex relationship between male authors and their female subjects to capture the ways in which texts can attempt to control and circumscribe female autonomy. Written by one of the leading experts in medieval women's writing, *Women, Writing and Religion in England and Beyond, 650–1100* examines women's literary engagement in monasteries such as Ely, Whitby, Barking and Wilton Abbey, as well as letters and hagiographies from the 8th and 9th centuries. Diane Watt provides a much-needed look at women's writing in the early medieval period that is crucial to understanding women's literary history more broadly.

From issues of racism to the severity of concussions to celebrity endorsements, the sports industry continues to significantly impact society. With the rise of eSports and its projection as the next billion dollar industry, it is vital that a multifaceted approach to sports research be undertaken. The Oxford Handbook of Canadian Literature provides a broad-ranging introduction to some of the key critical fields, genres, and periods in Canadian literary studies.

The essays in this volume, written by prominent theorists in the field, reflect the plurality of critical perspectives, regional and historical specializations, and theoretical positions that constitute the field of Canadian literary criticism across a range of genres and historical periods. The volume provides a dynamic introduction to current areas of critical interest, including (1) attention to the links between the literary and the public sphere, encompassing such topics as neoliberalism, trauma and memory, citizenship, material culture, literary prizes, disability studies, literature and history, digital cultures, globalization studies, and environmentalism or ecocriticism; (2) interest in Indigenous literatures and settler-Indigenous relations; (3) attention to multiple diasporic and postcolonial contexts within Canada; (4) interest in the institutionalization of Canadian literature as a discipline; (5) a turn towards book history and literary history, with a renewed interest in early Canadian literature; (6) a growing interest in articulating the affective character of the "literary" - including an interest in affect theory, mourning, melancholy, haunting, memory, and autobiography. The book represents a diverse array of interests -- from the revival of early Canadian writing, to the continued interest in Indigenous, regional, and diasporic traditions, to more recent discussions of globalization, market forces, and neoliberalism. It includes a distinct section dedicated to Indigenous literatures and traditions, as well as a section that reflects on the discipline of Canadian literature as a whole.

Medievalists demonstrate how a focus on gender can

transform an approach to literary texts and genres.

"Michelle Obama is unlike any other first lady in American history. From her first moments on the public stage, she has challenged traditional American notions about what it means to be beautiful, to be strong, to be fashion-conscious, to be healthy, to be First Mom, to be a caretaker and hostess, and to be partner to the most powerful man in the world ... While many books have looked at Michelle Obama from a fashion perspective, no book has fully explored what Michelle Obama means to our culture"--

By the New York Times bestselling author of *The Bone Clocks* | Shortlisted for the Man Booker Prize A postmodern visionary and one of the leading voices in twenty-first-century fiction, David Mitchell combines flat-out adventure, a Nabokovian love of puzzles, a keen eye for character, and a taste for mind-bending, philosophical and scientific speculation in the tradition of Umberto Eco, Haruki Murakami, and Philip K. Dick. The result is brilliantly original fiction as profound as it is playful. In this groundbreaking novel, an influential favorite among a new generation of writers, Mitchell explores with daring artistry fundamental questions of reality and identity. *Cloud Atlas* begins in 1850 with Adam Ewing, an American notary voyaging from the Chatham Isles to his home in California. Along the way, Ewing is befriended by a physician, Dr. Goose, who begins to treat him for a rare species of brain parasite. . . . Abruptly, the action jumps to Belgium in 1931, where Robert Frobisher, a

disinherited bisexual composer, contrives his way into the household of an infirm maestro who has a beguiling wife and a nubile daughter. . . . From there we jump to the West Coast in the 1970s and a troubled reporter named Luisa Rey, who stumbles upon a web of corporate greed and murder that threatens to claim her life. . . . And onward, with dazzling virtuosity, to an inglorious present-day England; to a Korean superstate of the near future where neocapitalism has run amok; and, finally, to a postapocalyptic Iron Age Hawaii in the last days of history. But the story doesn't end even there. The narrative then boomerangs back through centuries and space, returning by the same route, in reverse, to its starting point. Along the way, Mitchell reveals how his disparate characters connect, how their fates intertwine, and how their souls drift across time like clouds across the sky. As wild as a videogame, as mysterious as a Zen koan, *Cloud Atlas* is an unforgettable tour de force that, like its incomparable author, has transcended its cult classic status to become a worldwide phenomenon. Praise for *Cloud Atlas* “[David] Mitchell is, clearly, a genius. He writes as though at the helm of some perpetual dream machine, can evidently do anything, and his ambition is written in magma across this novel's every page.”—The New York Times Book Review “One of those how-the-holy-hell-did-he-do-it? modern classics that no doubt is—and should be—read by any student of contemporary literature.”—Dave Eggers “Wildly entertaining . . . a head rush, both action-packed and chillingly ruminative.”—People “The novel as series of nested dolls

or Chinese boxes, a puzzle-book, and yet—not just dazzling, amusing, or clever but heartbreaking and passionate, too. I’ve never read anything quite like it, and I’m grateful to have lived, for a while, in all its many worlds.”—Michael Chabon “Cloud Atlas ought to make [Mitchell] famous on both sides of the Atlantic as a writer whose fearlessness is matched by his talent.”—The Washington Post Book World “Thrilling . . . One of the biggest joys in Cloud Atlas is watching Mitchell sashay from genre to genre without a hitch in his dance step.”—Boston Sunday Globe “Grand and elaborate . . . [Mitchell] creates a world and language at once foreign and strange, yet strikingly familiar and intimate.”—Los Angeles Times

Scholars from the fields of English, French, and German literature analyze the complex appearances of the human body at the centers and limits of the cultural production of meaning.

This book is a thorough quantitative and qualitative study of a typical phenomenon pertaining to the English spoken language; namely question tags (QTs) and invariant tags. More specifically, English tags are analysed on the syntactic, pragmatic and prosodic level, taking into account cross-varietal differences as well as both visual and auditory dimensions, in order to get a more precise interpretation of their communicative functions. This is made possible by examining film language, since films, being complex semiotic “texts”, provide a more complete set of parameters for analysis, especially in the case of QTs, where intonation is crucial for their interpretation. The study of their function is

based not only on their formal properties, but is integrated with the use of spectrograms, which makes it possible to actually “visualise” the prosody of tags and to back up the results with material evidence. Moreover, tags are also examined from a translational perspective, with analysis focusing on the transposition of tags in Italian dubbing, a specific type of audiovisual translation, for two main reasons: firstly, to check how and to what extent tags are rendered in Italian, a language which does not have so structured a set of equivalent expressions, and secondly, to see how much space they are granted in a typically “constrained” translation like dubbing, which is severely influenced by the visual dimension. After this, the use of the various translating options in Italian dubbing is studied in Italian original film language and compared with spontaneous conversation in both languages, by analysing data in corpora of spontaneous speech both in English and Italian to ascertain whether the use of tags and their Italian counterparts in film language is natural or artificial. The present work is the first to study the syntactic and prosodic properties of English tags from an integrated pragmatic and translational perspective. The study also qualifies as contrastive in that the use of these conversational routines is analysed in two different languages (English and Italian), as well as in different genres and varieties, including film language, dubbese and spontaneous speech.

The complex politics of English as a world language provides the backdrop both for linguistic studies of varieties of English around the world and for postcolonial

literary criticism. The present volume offers contributions from linguists and literary scholars that explore this common ground in a spirit of open interdisciplinary dialogue. Leading authorities assess the state of the art to suggest directions for further research, with substantial case studies ranging over a wide variety of topics - from the legitimacy of language norms of lingua franca communication to the recognition of newer post-colonial varieties of English in the online OED. Four regional sections treat the Caribbean (including the diaspora), Africa, the Indian subcontinent, and Australasia and the Pacific Rim. Each section maintains a careful balance between linguistics and literature, and external and indigenous perspectives on issues. The book is the most balanced, complete and up-to-date treatment of the topic to date.

Essay from the year 2012 in the subject Literature - Comparative Literature, grade: 2, University of Vienna, language: English, abstract: "I am lost. [...] Doubly lost. [...] I believe in nothing" – that is how Ndi Sibiyi, the protagonist of Lewis Nkosi's novel *Mating Birds*, describes himself in his (fictional) memoirs that he writes from his prison cell in Durban while awaiting death sentence. And indeed he is a lost figure: not only torn between his awareness of race laws being what they are in Apartheid South Africa and his desire for a white girl, but also an outcast among his own people, he constantly runs the risk of falling apart because of the social and

cultural conditions he is living in – and thus his downfall seems to be predictable right from the beginning. The major part of my essay will focus on the character of Sibiya, the fictional writer and first-person narrator of *Mating Birds*. After giving a brief survey of the literary context of the book, as well as a short summary of what critics have said about it and its historical background, I am going to analyze what Sibiya's character is shaped by and to what extent he himself eventually causes his downfall at the end of the book. The following questions are going to lead me throughout the whole essay: Is Sibiya depicted as a stereotype or rather an individual person? What are the reasons for the special position he takes in the black society of South Africa? What makes him become so obsessed of Veronica? And in what way is he a victim and in what way the offender?

Veronica Forrest-Thomson was an innovative poet and literary theorist, whose work is only now beginning to attract the attention it merits. Her aesthetic is founded on engagements with the criticism of William Empson and the philosophy of Ludwig Wittgenstein, and develops through an early assimilation of structuralist and poststructuralist thought, including the seminal work of Roland Barthes, Julia Kristeva and Jacques Lacan. In her referentially rich poetry, Forrest-Thomson engages with the full range and history of poetry in English in her explorations of three themes: identity, the nature of experience, and the representation of both British and American contemporary poets, including those usually known as the language poets: North American writers who, since the 1970's, have explored a related poetics. This study

provides the first sustained consideration of Forrest-Thomson's poetry, and of the relationships between her work and that of the language writers. It all culminates in an overview of

The Venetian courtesan has long captured the imagination as a female symbol of sexual license, elegance, beauty, and unruliness. What then to make of the cortigiana onesta—the honest courtesan who recast virtue as intellectual integrity and offered wit and refinement in return for patronage and a place in public life? Veronica Franco (1546-1591) was such a woman, a writer and citizen of Venice, whose published poems and familiar letters offer rich testimony to the complexity of the honest courtesan's position. Margaret F. Rosenthal draws a compelling portrait of Veronica Franco in her cultural social, and economic world. Rosenthal reveals in Franco's writing a passionate support of defenseless women, strong convictions about inequality, and, in the eroticized language of her epistolary verses, the seductive political nature of all poetic contests. It is Veronica Franco's insight into the power conflicts between men and women—and her awareness of the threat she posed to her male contemporaries—that makes her literary works and her dealings with Venetian intellectuals so pertinent today. Combining the resources of biography, history, literary theory, and cultural criticism, this sophisticated interdisciplinary work presents an eloquent and often moving account of one woman's life as an act of self-creation and as a complex response to social forces and cultural conditions. "A book . . . pleasurably redolent of Venice in the 16th-century. Rosenthal gives a vivid sense of a world of salons and coteries, of intricate networks of family and patronage, and of literary exchanges both intellectual and erotic."—Helen Hackett, Times Higher Education Supplement The Honest Courtesan is the basis for the film *Dangerous Beauty* (1998) directed by

Arguing that the major hallmarks of Romantic literature—inwardness, emphasis on subjectivity, the individual authorship of selves and texts—were forged during the Enlightenment, Rajani Sudan traces the connections between literary sensibility and British encounters with those persons, ideas, and territories that lay uneasily beyond the national border. The urge to colonize and discover embraced both an interest in foreign "fair exotics" and a deeply rooted sense of their otherness. *Fair Exotics* develops a revisionist reading of the period of the British Enlightenment and Romanticism, an age during which England was most aggressively building its empire. By looking at canonical texts, including Defoe's *Robinson Crusoe*, Johnson's *Dictionary*, De Quincey's *Confessions of an English Opium Eater*, and Bronte's *Villette*, Sudan shows how the imaginative subject is based on a sense of exoticism created by a pervasive fear of what is foreign. Indeed, as Sudan clarifies, xenophobia is the underpinning not only of nationalism and imperialism but of Romantic subjectivity as well.

The Handbook of Anglophone World Literatures is the first globally comprehensive attempt to chart the rich field of world literatures in English. Part I navigates different usages of the term 'world literature' from an historical point of view. Part II discusses a range of theoretical and methodological

approaches to world literature. This is also where the handbook's conceptualisation of 'Anglophone world literatures' – in the plural – is developed and interrogated in juxtaposition with proximate fields of inquiry such as postcolonialism, translation studies, memory studies and environmental humanities. Part III charts sociological approaches to Anglophone world literatures, considering their commodification, distribution, translation and canonisation on the international book market. Part IV, finally, is dedicated to the geographies of Anglophone world literatures and provides sample interpretations of literary texts written in English. Each number is the catalogue of a specific school or college of the University.

**The Souls of White Folk: African American Writers Theorize Whiteness** is the first study to consider the substantial body of African American writing that critiques whiteness as social construction and racial identity. Arguing against the prevailing approach to these texts that says African American writers retreated from issues of "race" when they wrote about whiteness, Veronica T. Watson instead identifies this body of literature as an African American intellectual and literary tradition that she names "the literature of white estrangement." In chapters that theorize white double consciousness (W. E. B. Du Bois and Charles Chesnut), white womanhood and class identity (Zora Neale Hurston and Frank Yerby), and the socio-spatial subjectivity of southern whites during the civil rights era (Melba Patillo Beals), Watson explores the historically situated theories and analyses of whiteness provided by the literature of white estrangement from the late nineteenth through the mid-twentieth centuries. She

argues that these texts are best understood as part of a multipronged approach by African American writers to challenge and dismantle white supremacy in the United States and demonstrates that these texts have an important place in the growing field of critical whiteness studies.

This study engages the life of form in contemporary innovative poetries through both an introduction to the latest theories and close readings of leading North American and British innovative poets. The critical approach derives from Robert Sheppard's axiomatic contention that poetry is the investigation of complex contemporary realities through the means (meanings) of form. Analyzing the poetry of Rosmarie Waldrop, Caroline Bergval, Sean Bonney, Barry MacSweeney, Veronica Forrest-Thomson, Kenneth Goldsmith, Allen Fisher, and Geraldine Monk, Sheppard argues that their forms are a matter of authorial design and readerly engagement.

"Ballroom Blitz" by Veronica Schanoes is a contemporary fairy tale about a young man, who with his eleven brothers, have been cursed to remain in a rock club for their bad behavior. Their only shot at freedom might be the twelve sisters who one day enter the club. "I really like what the author has done with the fairytale material, inverting the storyline to focus on the brothers, not the sisters."--Locus At the Publisher's request, this title is being sold without Digital Rights Management Software (DRM) applied.

How can I fit in my discourse community; that is, Applied Linguistics? To achieve this goal, this book provides the basic understanding of the concept of genre as now used in Applied Linguistics, English for specific purpose, and varied ways in which the need to communicate shapes or influences and determine both surface forms and deeper rhetorical structures which are necessary. Therefore, with globalization taking root very fast especially with the aid of telecommunication and electronic communities, the need for ability to read and write Research Articles in English has drastically increased for success both academically and professionally. To enable researchers, both native and non-native English speakers to read and write Research Articles, there is need for them to be informed about the conventional rhetorical structure used in their fields of study or their discourse communities. When a remote mountain community is suddenly beset by a rash of grisly murders, the Special Tactics and Rescue Squad--a paramilitary unit--is dispatched to investigate. During the 1820s and 30s nautical melodramas "reigned supreme" on London stages, entertaining the mariners and maritime workers who comprised a large part of the audience

for small theatres with the same sentimental moments and comic interludes of domestic melodrama mixed with patriotic images that communicated and reinforced imperial themes. However, generally the study of British theatre history moves from medieval and renaissance plays directly to the realism and naturalism of late Victorian and modern drama. Readers typically encounter a gap between Restoration and eighteenth-century plays like those of Oliver Goldsmith and Richard Brinsley Sheridan, and late-nineteenth plays by Henrik Ibsen and Oscar Wilde. Nineteenth-century drama, with the possible exception of plays by Byron, Shelley, and Wordsworth, remains all but invisible. Until recently, melodramatic plays written and performed during this "gap" received little scholarly attention, but their value as reflections of Britain's promulgation of imperial ideology — and its role in constructing and maintaining class, gender, and racial identities — have given discussions of melodrama force and momentum. The plays included in these three volumes have never appeared in a critical anthology and most have not been republished since their original nineteenth-century editions. Each play is transcribed from the original documents and includes an author biography, a headnote about the play itself, full annotations with brief definitions of unfamiliar vocabulary, and explanatory notes. Comprehensive editorial apparatus details the nineteenth-century imperial, naval, political, and social history relevant to the plays' nautical themes, as well as discussing nineteenth-century theatre history, melodrama generally, and the nautical melodrama in particular. Contemporary theatre practices — acting, audiences, staging, lighting, special effects — are also examined. An extensive bibliography of primary and secondary texts; a complete index; and contemporary images of the actors, theatres, stage sets, playbills, costumes, and locales have been compiled to aid study further. The

appendices include maps of Britain, Europe, and the East and West Indies.
