How will China develop under the new leadership of Xi Jinping and Li Keqiang? This is a key question for both China and the wider world. This book presents a comprehensive overview of the key areas and issues, assessing how things are likely to develop under the new leadership. It considers the economy, trade, politics, and demographics; appraises the leadership, both at the national and provincial levels; and

discusses potential flashpoints in China's relationship with its neighbors and China's emerging role in world politics. The book emphasizes the great uncertainties surrounding the next phase of China's development, highlighting the structural problems of the economy, the problems of urbanization and governance, and the deep social cleavages which exist over issues such as income disparity, rampant corruption and unequal opportunities in social mobility. Against this backdrop it measures the emerging leadership of Xi Jinping to assess the prospects for China in the next decade and beyond.

Working with Paper builds on a growing interest in the materials of science by exploring the gendered uses and meanings of paper tools and technologies, considering how notions of gender impacted paper practices and in turn how paper may have structured knowledge about gender. Through a series of dynamic investigations covering Europe and North America and spanning the early modern period to the twentieth century, this volume breaks new ground by examining material histories of paper and the gendered worlds that made them. Contributors explore diverse uses of paper—from healing to phrenological analysis to model making to data processing—which often occurred in highly gendered, yet seemingly divergent spaces, such as laboratories and kitchens, court rooms and boutiques, ladies' chambers and artisanal workshops, foundling houses and colonial hospitals, and college gymnasiums and state office buildings. Together, they reveal how notions of masculinity and femininity became embedded in and expressed through the materials of daily life. Working with Paper uncovers the intricate

negotiations of power and difference underlying epistemic practices, forging a material history of knowledge in which quotidian and scholarly practices are intimately linked.

This book explores the impact of Bangladesh's Local Government Act of 2009 on the functioning of the local governments or Union Parishads (UP), with a particular emphasis on people's participation and accountability. Throughout the chapters, the authors review the existing legal framework of UP and its relation to social accountability, examine how much of the social participation is spontaneous and how much is politically induced, question the success of the Citizen's Charter and Right to Information acts as mechanisms for social accountability, and present suggestions to remedy some of the problems facing people's participation and accountability in the UP. This book fills existing gaps in the discourse by adding new information to the literature on development research and legal reforms in Bangladesh, specifically in how those legal reforms have led to strengthening or weakening people's participation in local government. The target audience for this book are students and researchers in Asian studies , international development studies, and public administration, as well as practitioners working in the local governments discussed.

Jerry Norman's Comprehensive Manchu–English Dictionary, a substantial revision and enlargement of his Concise Manchu–English Lexicon of 1978, now long out of print, is poised to become the standard English-language resource on the Manchu language. As the dynastic language of the Qing dynasty (1644–1911), Manchu was used in official

documents and was also the vehicle for an enormous translation literature, mostly from the Chinese. The new Dictionary, based exclusively on Qing sources, retains all of the information from the earlier Lexicon, but also includes hundreds of additional entries cited from original Manchu texts, enhanced cross-references, and an entirely new introduction on Manchu pronunciation and script. All content from the earlier publication has also been verified. This final book from the preeminent Manchu linguist in the English-speaking world is a reference work that not only updates Norman's earlier scholarship but also summarizes his decades of study of the Manchu language. The Dictionary, which represents a significant scholarly contribution to the field of Inner Asian studies and to all students and scholars of Manchu and other Tungusic and related languages around the world, will become a major tool for archival research on Chinese late imperial period history and government.

This book explores student education transition and employability negotiation experiences in various contexts. It explores determinants of student transitions at three levels including macro, meso and micro but focuses on exploring affordances, constraints and strategies at the micro level. The framework underpinning the explorations at the micro level covers a range of different forms of capital including human, culture, social, identity, psychological and agentic. The book is unique in three ways. First, it consists of chapters about critical discussion, empirical research and practical guidance about student transition experiences. The critical discussion and empirical research chapters explore and obtain insights about the complexity of student transitions and develop conceptual frameworks that guide the development of applicable practices. The book is, therefore, a useful resource for policy makers, institutions, academics, professionals and students. Second, it provides insights about how student transitions are determined by a range of factors at different levels. These insights extend discussions about student transitions in the current literature which have mainly explored impacts of policies, institutional programmes and human capital. Finally, it is international in focus because it draws on research with different cohorts of students and graduates in different contexts. Insights provided in the book are,

therefore, rich, diverse and comparative.
