How do you sell an innovative product to a market that does not yet exist? Entrepreneurial businesses often create products and services based on radically new technology that have the power to change the marketplace. Existing market research data will be largely irrelevant in these cases, making sales and marketing of innovative new products especially challenging to entrepreneurs. Entrepreneurial Marketing focuses on this challenge. Classic core marketing concepts, such as segmentation, positioning, and the marketing mix undergo an 'extreme makeover' in the context of innovative products hitting the market. Edwin J. Nijssen stresses principles of affordable loss, experimentation, and adjustment for emerging opportunities, as well as cooperation with first customers. Containing many marketing examples of successful and cutting-edge innovations (including links to websites and videos), useful lists of key issues, and instructions on how to make a one-page marketing plan, Entrepreneurial Marketing provides a vital guide to successfully developing customer demand and a market for innovative new products. This third edition has been thoroughly expanded, including: Expanded content on leveraging digital technologies and their new business models More practical tools, such as coverage of the Lean Canvas model Updated references, cases, and new examples throughout; and, Updated online resources This book equips advanced undergraduate and postgraduate students of marketing strategy, entrepreneurial marketing, and entrepreneurship with the fundamental tools to succeed in marketing.

Entrepreneurial Small Business (ESB) provides students with a clear vision of small business as it really is today. It focuses on the distinctive nature of small businesses that students might actually start versus high growth firms. The goal of the companies described in this textbook is personal independence with financial security; not market dominance with extreme wealth. Traditional beliefs and models in small business are discussed, as well as the latest findings and best practices from academic and consulting arenas. Katz and Green recognize the distinction between entrepreneurs who aim to start the successor to Amazon.com and the pizza place around the corner. They discuss the challenges facing entrepreneurs, while keeping focused on the small businesses students plan to start.

An experience in entrepreneurship through the act of actually starting a business with reputable resources found on the internet. Dr. Van Zee and Ms. Quinn are experts in the field of small business start-ups.

Today, there are over 200,000,000 women business owners around the world. Many of these entrepreneurs are not doing business as usual, nor are they simply leaning in. Rather, they are tapping into feminine capital—the unique skills and sensibilities that they have cultivated as women—to create enviable successes. Drawing on four decades of award-winning research, *Feminine Capital* reveals how women are harnessing different approaches to doing business. Barbara Orser and Catherine Elliott detail the pillars of feminine capital and offer new insight into the ways that gender can influence entrepreneurial decision-making. They find that leveraging feminine capital can help women to create distinctive brands, build new markets, and drive profits—all while leveling the playing field in business. In doing so, women are changing
