While many studies have been written on national cinemas, *Early Cinema and the "National"* is the first anthology to focus on the concept of national film culture from a wide methodological spectrum of interests, including not only visual and narrative forms, but also international geopolitics, exhibition and marketing practices, and pressing linkages to national imageries. The essays in this richly illustrated, landmark anthology are devoted to reconsidering the nation as a framing category for writing cinema history. Many of the 34 contributors show that concepts of a national identity played a role in establishing the parameters of cinema's early development, from technological change to discourses of stardom, from emerging genres to intertiting practices. Yet, as others attest, national meanings could often become knotty in other contexts, when concepts of nationhood were contested in relation to colonial/imperial histories and regional configurations. *Early Cinema and the "National"* takes stock of a formative moment in cinema history, tracing the beginnings of the process whereby nations learned to imagine themselves through moving images.

This lucid work provides a distillation of the author's lifetime experience with and compassion for the elderly. The expression "Giants of Geriatrics", coined by the author, is used in medical language to describe the principle chronic disabilities of old age. These include immobility, instability, incontinence, and intellectual impairment. Chapters on each of these have been supplemented by chapters on five further chronic disabilities, which are stroke, aphasia, depression, and visual and auditory handicap. Each chapter ends with a short critical bibliography, and the most significant points are encapsulated in original aphorisms. The aim is to provide practical guidance in non-specialist language for management of the "Giants", concentrating on areas of geriatric medicine which are not normally available in standard textbooks.

Raised in a restrictive and oppressive household, Harriet Freen is used to sacrificing her own happiness and comfort for the sake of others, in fact, she's proud of it. Taught that women were to be submissive, pious, kind, and quiet, Harriet molds herself into the perfect Victorian woman. Though she struggles with the crushing expectations of Victorian gender roles, Harriet finds comfort in her close relationship with Prissy, her best friend. As the two grow older, they conform to their expected mold. With Prissy's support, Harriet continues her dedication to being the perfect woman, and is in pursuit of a husband. However, when Harriet finally falls in love, she is overcome by a crisis of conscience. Her entire perception of herself is shaken and her beliefs are challenged, because she has fallen for an unavailable man. Unsure how to process her feelings, Harriet begins to isolate herself in shame, because she cannot possibly tell anybody, not even Prissy, that she is in love with her best friend's fiancé.

Originally published under one-hundred years ago, May Sinclair's *Life and Death of Harriet Freen* explores questionable ideals still present in modern society. With topics of romance, gender roles, and identity, *Life and Death of Harriet Freen* is both timeless and a perfect record of the harmful ideals of English Victorian society. As a pioneer of the stream-of-consciousness literary style, Sinclair's prose is captivating and brilliant, allowing her characters to feel real and familiar

to readers, creating a narrative that is undeniably compelling. This edition of *Life and Death of Harriet Frean* by May Sinclair now features an eye-catching new cover design and is printed in a font that is both modern and readable. With these accommodations, this edition of *Life and Death of Harriet Frean* creates an accessible and pleasant reading experience for modern audiences while restoring the original brilliance and insight of May Sinclair's work.

TV financial guru Becky Bloomwood has finally paid off her debts and credit card bills, until her boyfriend, Luke, invites her to accompany him when he moves to New York, and she discovers sample sales, power lunches, and Fifth Avenue. This book, designed for students who have already developed a basic competence in German, aims to broaden and improve their vocabulary by providing detailed information on groups of German words with related meanings. It is invaluable as a guide to finding the right word for the context. In order to enhance understanding of the structure of the German vocabulary, groups of synonyms are organised under German (rather than English) headwords. All entries are accompanied by an example of usage and English glosses and there are two indexes allowing users quickly to locate words in German or English. The book takes full account of register variation, indicating the degree of formal or informal use, and reflects regional usage especially in Austria and Switzerland. It is an essential reference for intermediate and advanced students as well as teachers and other professional linguists seeking access to the finer nuances of the German language.

Life has been good to Becky Bloomwood: She's become the top personal shopper at Barneys and she's living happily with her boyfriend, Luke, in Manhattan's West Village. But with her best friend, Suze, engaged, how can Becky fail to notice that her own ring finger is bare? Not that she's been thinking about marriage (or diamonds) or anything. Then Luke proposes! Problem is, two other people are planning her wedding: Becky's overjoyed mother—who has been waiting forever to host a backyard wedding, with the bride resplendent in Mum's frilly old gown; and her high-society soon-to-be mother-in-law—who insists on a glamorous, all-expenses-paid affair at the Plaza. Both weddings, on separate continents, on the same day . . . and Becky can't seem to turn down

Life on the Screen is a book not about computers, but about people and how computers are causing us to reevaluate our identities in the age of the Internet. We are using life on the screen to engage in new ways of thinking about evolution, relationships, politics, sex, and the self. *Life on the Screen* traces a set of boundary negotiations, telling the story of the changing impact of the computer on our psychological lives and our evolving ideas about minds, bodies, and machines. What is emerging, Turkle says, is a new sense of identity—as decentered and multiple. She describes trends in computer design, in artificial intelligence, and in people's experiences of virtual environments that confirm a dramatic shift in our notions of self, other, machine, and world. The computer emerges as an object that brings postmodernism down to earth.

Over the past fifty years, (financial) capitalism has brought about an enormous growth in wealth. Millions around the world have been lifted out of poverty. However, the

downsides of the present global economic constitution are rapidly becoming evident as well. Rising inequality, soaring debt levels, and repeated cycles of boom and bust have proven to be some of its key characteristics. After the 2008 crisis brought the financial system to the brink of collapse, new regulations, stricter supervision, higher capital requirements, and ethical codes were introduced to the sector. Today we find ourselves in the middle of another economic boom. Yet one pressing question remains: has anything changed? Have the (necessary) repairs fixed the flaws in the system? Or do we require even more fundamental reforms? This volume builds on the observation that society has co-evolved with the financial sector. We cannot simply claim that 'finance' was the sole instigator of the 2008 crisis. Society itself has become financialized; the process of replacing relations, structures of trust and reciprocity, by anonymous and systemic transactions. The volume poses vital questions with regard to this societal development. How did this happen? And more importantly: is change possible? If yes, how? This volume contains 21 essays on the themes mentioned above. Authors include Jan Peter Balkenende, Wouter Bos, Lans Bovenberg, Govert Buijs, and Herman Van Rompuy. A recommendation by Dutch Minister of Finance Wopke Hoekstra is also included.

We are spurred into action by our troubles and fears; but all too often our action fails to address the true causes of our worries. When trying to make sense of our lives, we tend to blame our own failings and weaknesses for our discomforts and defeats. And in doing so, we make things worse rather than better. Reasonable beings that we are, how does this happen and why does it go on happening? These are the questions addressed in this new book by Zygmunt Bauman - one of the most original and perceptive social thinkers writing today. For Bauman, the task of sociology is not to censor or correct the stories we tell of our lives, but to show that there are more ways in which our life stories can be told. By bringing into view the many complex dependencies invisible from the vantage point of private experience, sociology can help us to link our individual decisions and actions to the deeper causes of our troubles and fears - to the ways we live, to the conditions under which we act, to the socially drawn limits of our imagination and ambition. Sociology can help us to understand the processes that have shaped the society in which we live today, a society in which individualization has become our fate. And sociology can also help us to see that if our individual but shared anxieties are to be effectively tackled, they need to be addressed collectively, true to their social, not individual, nature. The Individualized Society will be of great interest to students of sociology, politics and the social sciences and humanities generally. It will also appeal to a broader range of readers who are interested in the changing nature of our social and political life today.

This book represents a 'position statement' from the intellectually vibrant and challenging debate that emanated from the inaugural conference project launch entitled 'The Idea of Education' held at Mansfield College, Oxford in July 2002. The book conveys a wide spectrum of views about 'the idea of education' in recognition of the fact that 'the idea' is not as straightforward as it may appear on the surface. It seems the universities are not alone in this apparent uncertainty of definition. Further Education seems equally nonplussed as regard its purpose or *raison d'être*. Furthermore, even for those within the sector, it appears to be a point of much contention as to where Further Education ends and Higher Education begins. The book is divided into three main

sections: The Current Structures of Education, Issues within Contemporary Education and The Ambitions of Education. The chapters wrestle, sometimes at variance with each other, with the paradoxes and concerns felt by each writer grappling with the idea of education.

How an individual responds to crises and critical incidents at work, both immediately and subsequent to the event, is heavily influenced both by personality characteristics and their use of coping strategies. These can, in turn, be affected by levels of education, gender and even the profession within which the individual is working. Coping, Personality and the Workplace offers theory, research and practice on our ability to cope with dangerous situations, critical incidents or other work crises. The chapters include perspectives on social and health habits and risks; gender and age differences as well as a range of different sources of threat: financial, psychological and physical; those within and outside the individual's control; immediate and chronic. For organizations, this collection provides help and advice to build into employee safety and support programmes; for policy makers, a sense of the emerging sources of risk related to occupational health and for researchers, an anthology of original applied research from some of the leading authors in three continents.

This book traces the formation of Italian migrant belongings in Britain, and scrutinizes the identity narratives through which they are stabilized. A key theme of this study is the constitution of identity through both movement and attachment. The study follows the Italian identity project since 1975, when community leaders first raised concerns about 'the future of invisible immigrants'. The author uses the image of 'invisible immigrants' as the starting point of her inquiry, for it captures the ambivalent position Italians occupy within the British political and social landscape. As a cultural minority absorbed within the white European majority, their project is steeped in the ideal of visibility that relies on various 'displays of presence'. Drawing on a wide range of material, from historical narratives, to political debates, processions, religious rituals, activities of the Women's Club, war remembrances, card games, and beauty contests, the author explores the notion of migrant belongings in relation to performative acts that produce what they claim to be reproducing. She reveals how these acts work upon the historical and cultural environment to re-member localized terrains of migrant belongings, while they simultaneously manufacture gendered, generational and ethnicized subjects. Located at the crossroads of cultural studies, 'diaspora' studies, and feminist/queer theory, this book is distinctive in connecting an empirical study with wider theoretical debates on identity.

The internet is the place where all these cultural products are stored, classified, voted, collected and trashed. What is the impact of this process on art making and on the artist? Which kind of dialogue is going on between amateur practices and codified languages? How does art respond to the society of information? This is a book about endless archives, image collections, bees plundering from flower to flower and hunters crawling through the online wilderness.
