\*\*\*Appropriate for Adult Readers\*\*\*What happens when a doctor from Earth meets a sexy male alien that fulfills her vine-swinging ape-man fantasies? Explosive passion and an adventure of a lifetime. The bestselling science fiction series Katieran Prime gives us another great installment with Resurgence. -----EXCERPT  
Sighing, she stood and attempted to jog around the tree. She tripped, and fell, her glasses falling off. She didn't have time to look for them, so she crawled the rest of the way around the trunk then stood. Her heart raced, and her palms sweat. She was a doctor, not a fighter, but she hated leaving her patient to handle the danger they may be facing. Peering through the foliage, she didn't see anything--not that she expected she would with her glasses on the ground. A sound behind her made the hair on her neck stand. Turning slowly with dread, she watched in shocked silence as something high up swung from tree to tree, coming closer and closer. Was it a gorilla? Did the Colony have gorillas? She tried to warn AkER, but her voice was lost. The figure came closer, her eyes trying to track its progress. Just when she thought it had passed over, something large dropped down in front of her. She pushed back against the tree and let out a loud shriek. "Hush, female, I am not going to hurt you," the stranger said. It was a man, tall, shirtless, well muscled and gorgeous with a short beard and the strangest swirling eyes she had ever seen. Every inch of him exposed was toned and gleamed in the moonlight. Tarzan had nothing on this guy. She worked to find her voice. "Who...who are you?" "ZenIM, and I am here for you."

She'll do anything for her son. Even marry an alien. Rosemary left Earth to make a better life for her seven-year-old son. She's got a good job, a nice house, and one minor problem: she needs to marry a Mahdfel warrior if she wants to stay. Better the devil you know... She can take her chances and marry a stranger or she can accept an offer from an unlikely candidate: Mene. She doesn't like him and she thought he didn't like her. He can barely look at her without snarling. But then again, none of the other warriors are any better. He might not be handsome... No female can look Mene in the eye and not flinch. But beneath his scarred face and gruff demeanor is a good man. A man who wants a mate and family. His warrior's heart burns for the curvaceous and vibrant human female, but she's very clear she's not interested in love. He'll show her that his passion is anything but fake. Stand alone, guaranteed HEA, no cheating and no cliffhangers. (I hate those things.)

Spellslinger Series Spellslinger Shadowblack Charmcaster Soul binder Queenslayer Crownbreaker For more from Sebastien de Castell, check out: The Greatcoats Quartet Traitor's Blade Saint's Blood Knight's Shadow Tyrant's Throne Bella Caledonia: Woman, Nation, Text looks at the widespread tradition of using a female figure to represent the nation, focusing on twentieth-century Scottish literature. The woman-as-nation figure emerged in Scotland in the twentieth century, but as a literary

figure rather than an institutional icon like Britannia or France's Marianne. Scottish writers make use of familiar aspects of the trope such as the protective mother nation and the woman as fertile land, which are obviously problematic from a feminist perspective. But darker implications, buried in the long history of the figure, rise to the surface in Scotland, such as woman/nation as victim, and woman/nation as deformed or monstrous. As a result of Scotland's unusual status as a nation within the larger entity of Great Britain, the literary figures under consideration here are never simply incarnations of a confident and complete nation nurturing her warrior sons. Rather, they reflect a more modern anxiety about the concept of the nation, and embody a troubled and divided national identity. Kirsten Stirling traces the development of the twentieth-century Scotland-as-woman figure through readings of poetry and fiction by male and female writers including Hugh MacDiarmid, Naomi Mitchison, Neil Gunn, Lewis Grassie Gibbon, Willa Muir, Alasdair Gray, A.L. Kennedy, Ellen Galford and Janice Galloway.

"This analysis of the writings of Bernardo Atxaga is inspired by his image of the Basque language as a hedgehog that has "survived ... by withdrawing," but that has now emerged - preeminently in the work of this most international of Basque authors." "Following the trail of the hedgehog reveals the riches of contemporary Basque literature and Atxaga's central position in the Basque literary world. The book explores the enthusiastic global reception of Atxaga's fiction - in particular Obabakoak, which has been translated into twenty-six languages - but also his short stories, drama, poetry, and writings for children and young people. It focuses on the preeminence of the fantastic in Atxaga's work, the experimental style of his hybrid poetic texts, and the "heterotopias" of his realist novels."--BOOK JACKET.
