This monograph is a translation of two seminal works on corpus-based studies of Mandarin Chinese words and parts of speech. The original books were published as two pioneering technical reports by Chinese Knowledge and Information Processing group (CKIP) at Academia Sinica in 1993 and 1996, respectively. Since then, the standard and PoS tagset proposed in the CKIP report have become the de facto standard in Chinese corpora and computational linguistics, in particular in the context of traditional Chinese texts. This new translation represents and develops the principles and theories originating from these pioneering works. The results can be applied to numerous fields; Chinese syntax and semantics, lexicography, machine translation and other language engineering bound applications. Suitable for graduate and scholars in the fields of linguistics and Chinese, Mandarin Chinese Words and Parts of Speech provides a comprehensive survey of the issues around wordhood and PoS.

This language phrasebook presents more than 1,500 Chinese expressions with translations to help English-speaking travelers get around in hotels, airports, train stations, restaurants, and other travel sites. The goal of My First Book of Chinese Words is to familiarize children with the basic sounds and written characters of Chinese, to introduce core concepts of Chinese culture and to illustrate the ways in which Chinese sounds differ from English ones. Teachers and parents will welcome the cultural notes at the back of the book and appreciate how the book is organized using a familiar ABC structure. Each word is presented in Chinese characters (both Simplified and Traditional) as well as Romanized Pinyin for easy pronunciation. With the help of this book, we hope more children (and adults) will soon join the more than one billion people worldwide who speak Chinese!
