Gossip Girl meets Get Out in *Ace of Spades*, a YA contemporary thriller by debut author Faridah Àbíké-Íyímídé about two students, Devon & Chiamaka, and their struggles against an anonymous bully. All you need to know is . . . I'm here to divide and conquer. Like all great tyrants do. —Aces When two Niveus Private Academy students, Devon Richards and Chiamaka Adebayo, are selected to be part of the elite school's senior class prefects, it looks like their year is off to an amazing start. After all, not only does it look great on college applications, but it officially puts each of them in the running for valedictorian, too. Shortly after the announcement is made, though, someone who goes by Aces begins using anonymous text messages to reveal secrets about the two of them that turn their lives upside down and threaten every aspect of their carefully planned futures. As Aces shows no sign of stopping, what seemed like a sick prank quickly turns into a dangerous game, with all the cards stacked against them. Can Devon and Chiamaka stop Aces before things become incredibly deadly? With heart-pounding suspense and relevant social commentary comes a high-octane thriller from debut author Faridah Àbíké-Íyímídé.

Released just three years ago, The Big Fat Notebooks revolutionised the study guide for upper-middle-grade readers, and students, parents, and teachers responded - the series has nearly 4 million copies in print with sales escalating every year. Now introducing Everything You Need to Ace Computer Science and Coding, an essential new title with the potential to run hand-in-hand with - or even outrun - Math (over 1.3 million copies in print) and Science (925,000 copies in print) as the next critical STEM companion. Instruction is presented in the simple but powerful format of the previous Big Fat Notebooks. The key concepts of coding and computer science easily digested and summarised, with critical ideas clearly explained, doodles that illuminate tricky concepts, and quizzes to recap it all. Kids will explore the concepts of computer science, learn how websites are designed and created, and understand the fundamentals of coding with Scratch, Python, HTML, and CSS. Written by Grant Smith, a computer science education expert - and vetted by an award-winning computer-science teacher - this Big Fat Notebook is for every student who is either taking computer science in school or is a passionate code warrior

The Big Fat Notebooks are going to high school! Published just four years ago, the Big Fat Notebooks—with nearly 4.6 million copies in print and sales escalating every year—revolutionized the study guide for middle schoolers. Now this lifesaving series is ready to graduate. Announcing the first two titles for high school students: Everything You Need to Ace Geometry in One Big Fat Notebook and Everything You Need to Ace Chemistry in One Big Fat Notebook. Designed as the natural next step for the savvy students (and stressed parents) who made Math (over 1 million copies in print) and Science (over 1 million copies in print) the bestselling titles in the middle school series, these books offer a world of help for two of the tougher classes facing most high school sophomores, geometry and chemistry. Using the same formula that made the middle school series so successful, these new high school titles tackle difficult subjects in a lively, memorable, intuitive way. Critical ideas are broken down and clearly explained. Doodles illuminate tricky concepts. There are mnemonics for memorable shortcuts, and quizzes to recap it all. Geometry, written by high school math teacher extraordinaire Christy Needham, follows along with a year of geometry class, starting with the basics, like points, lines, planes, and angles, and progressing to the beginning of trigonometry. Big Fat Notebooks are already helping millions of middle school students. Now high schoolers will enjoy and benefit from this kind of brilliant help—a set of notes, as if from the smartest kid in class, to help them study throughout the year, get ready for challenging exams, and know they have a source to turn to when they need to catch up on missed
